Spectacles Of Empire Monsters Martyrs And The Of Revelation Divinations Rereading Late Ancient Religion:

Spectacles of Empire Christopher A. Frilingos, 2013-03-25 The book of Revelation presents a daunting picture of the destruction of the world complete with clashing gods a multiheaded beast armies of heaven and the final judgment of mankind The bizarre conclusion to the New Testament is routinely cited as an example of the early Christian renunciation of the might and values of Rome But Christopher A Frilingos contends that Revelation s relationship to its ancient environment was a rather more complex one In *Spectacles of Empire* he argues that the public displays of the Roman Empire the games of the arena the execution of criminals the civic veneration of the emperor offer a plausible context for reading Revelation Like the spectacles that attracted audiences from one end of the Mediterranean Sea to the other Revelation shares a preoccupation with matters of spectatorship domination and masculinity Scholars have long noted that in promising a complete reversal of fortune to an oppressed minority Revelation has provided inspiration to Christians of all kinds from liberation theologians protesting globalization to the medieval Apostolic Brethren facing death at the stake But Frilingos approaches the Apocalypse from a different angle arguing that Revelation was not merely a rejection of the Roman world in favor of a Christian one rather its visions of monsters and martyrs were the product of an empire whose subjects were trained to dominate the threatening other By comparing images in Revelation to those in other Roman era literature such as Greek romances and martyr accounts Frilingos reveals a society preoccupied with seeing and being seen At the same time he shows how Revelation calls attention to both the risk and the allure of taking in a show in a society which emphasized the careful scrutiny of one s friends enemies and self Ancient spectators Frilingos notes whether seated in an arena or standing at a distance as Babylon burned frequently discovered that they themselves had become part of the performance

Violence and Belief in Late Antiquity Thomas Sizgorich, 2009 Thomas Sizgorich seeks to understand why and how violent expressions of religious devotion became central to the self understandings of both Christian and Muslim communities between the fourth and ninth centuries He identifies a common pool of late ancient narrative forms upon which both communities drew

Economics and Empire in the Roman World Matthew J. M. Coomber, 2025-01-16 Over the past few decades the study of biblical economics has developed into an important subfield of biblical studies This subfield uses textual and archaeological evidence to uncover the economic realities behind biblical literature resulting in greater understandings of the lives and possible intentions of those individuals and communities that composed these religious texts and also of their potential relevance or lack thereof to the communities that continue to receive them *Economics and Empire in the Roman World* has brought together eight scholars of biblical economics to create a repository of what is understood about the socioeconomic realities of those who penned and first received what were to become the Christian scriptures In addition to serving the research and teaching interests of biblical scholars this volume has also been created for the benefit of economic historians anthropologists and sociologists

[A Postcolonial Commentary on the New Testament Writings](#)

Fernando F. Segovia, R. S. Sugirtharajah, 2007-09-27 Since its emergence a few years ago postcolonial biblical criticism has witnessed swift expansion and development in Biblical Studies. This critical approach has been increasingly applied to biblical texts as well as modern and postmodern interpretations and interpreters of these texts, yielding an ever-growing body of dissertations, scholarly articles, and volumes. In the process, this approach has become increasingly sophisticated as well in matters of method and theory. This *Postcolonial Commentary on the New Testament Writings* represents a critical benchmark in postcolonial biblical criticism. Indeed, the Commentary stands as the most comprehensive application to date of postcolonial criticism to the biblical texts, with its focus on the entire corpus of the New Testament. It places the reality and ramifications of imperial colonial frameworks and relations at the centre of biblical criticism. The various entries pursue their analysis across a broad range of concerns and through a number of different approaches. They show, among other things, how texts and interpretations construct and/or relate to their respective imperial colonial contexts; foreground literary, rhetorical, and ideological marks of coloniality and postcoloniality in both texts and interpretations; reveal how postcolonial reading strategies disrupt and destabilize hegemonic biblical criticism and engage in critical dialogue with the visions and projects identified in texts as well as in interpretations. Toward this end, the Commentary has recourse to a highly distinguished and diversified roster of scholars, making this a definite point of reference for years to come.

Violence, Scripture, and Textual Practices in Early Judaism and Christianity Raanan Shaul Boustán, Alex P. Janssen, Calvin J. Roetzel, 2010 This volume analyzes the emergence of Jewish and Christian discourses of religious violence within their Roman imperial context, with an emphasis on the shared textual practices through which authoritative scriptural traditions were redeployed to represent legitimate and indeed sacralize violence.

Revelation Amos Yong, 2021-09-14 The book of Revelation stands as one of the most challenging and inspiring in the Christian canon. While giving rise to much unhelpful speculation, its core message of the active sovereignty of God in a hostile world has given courage and comfort throughout Christian history. In this volume, Amos Yong analyzes the message of Revelation to its earliest readers and speaks to its ongoing meaning for believers today. The volumes in the Belief series offer a fresh and invigorating approach to all the books of the Bible. Building on a wide range of sources from biblical studies and the Christian tradition, renowned scholars focus less on traditional historical and literary angles in favor of a theologically focused commentary that considers the contemporary relevance of the text. Why then and why now are overarching questions asked throughout the volumes in the series.

The Bible in Theory Stephen D. Moore, 2010 The sixteen essays assembled in this volume, four of them co-authored, chart the successive phases of a professional life lived in the interstices of Bible and theory. Engaging such texts as the Song of Songs, 4 Maccabees, Mark, Luke, Acts, John, and Romans, and such themes as the quest for the historical Jesus, the essays simultaneously traverse postmodernism, deconstruction, New Historicism, autobiographical criticism, cultural studies, postcolonial studies, masculinity studies, queer theory, and posttheory. Individual essay introductions and periodic annotated bibliographies make

the volume an advanced introduction to biblical literary criticism From publisher s description [Saving Shame](#) Virginia Burrus,2013-04-19 Virginia Burrus explores one of the strongest and most disturbing aspects of the Christian tradition its excessive preoccupation with shame While Christianity has frequently been implicated in the conversion of ancient Mediterranean cultures from shame to guilt based and thus in the emergence of the modern West s emphasis on guilt Burrus seeks to recuperate the importance of shame for Christian culture Focusing on late antiquity she explores a range of fascinating phenomena from the flamboyant performances of martyrs to the imagined abjection of Christ from the self humiliating disciplines of ascetics to the intimate disclosures of Augustine Burrus argues that Christianity innovated less by replacing shame with guilt than by embracing shame Indeed the ancient Christians sacrificed honor but laid claim to their own shame with great energy at once intensifying and transforming it Public spectacles of martyrdom became the most visible means through which vulnerability to shame was converted into a defiant witness of identity this was also where the sacrificial death of the self exemplified by Christ s crucifixion was most explicitly appropriated by his followers Shame showed a more private face as well as Burrus demonstrates The ambivalent lure of fleshly corruptibility was explored in the theological imaginary of incarnational Christology It was further embodied in the transgressive disciplines of saints who plumbed the depths of humiliation Eventually with the advent of literary and monastic confessional practices the shame of sin s inexhaustibility made itself heard in the revelations of testimonial discourse In conversation with an eclectic constellation of theorists Burrus interweaves her historical argument with theological psychological and ethical reflections She proposes finally that early Christian texts may have much to teach us about the secrets of shame that lie at the heart of our capacity for humility courage and transformative love

James in Postcolonial Perspective K. Jason Coker,2015 James confronts the exploitive wealthy it also opposes Pauline hybridity K Jason Coker argues that postcolonial perspectives allow us to understand how these themes converge in the letter James opposes the exploitation of the Roman Empire and a peculiar Pauline form of hybridity that compromises with it refutes Roman cultural practices such as the patronage system and economic practices that threaten the identity of the letters recipients and condemns those who would transgress the boundaries between purity and impurity God and world [Jesus Is Lord, Caesar Is Not](#) Scot McKnight,Joseph B. Modica,2013-03-28 This volume brings together respected biblical scholars to evaluate the turn toward empire criticism in recent New Testament scholarship While praising the movement for its deconstruction of Roman statecraft and ideology the contributors also provide a salient critique of the anti imperialist rhetoric pervading much of the current literature
