Spectacular Past Popular History And The Novel In Nineteenth Century France:

The Spectacular Past Maurice Samuels, 2018-08-06 Struggling to make sense of the Revolution of 1789 the French in the nineteenth century increasingly turned to visual forms of historical representation in a variety of media Maurice Samuels shows how new kinds of popular entertainment introduced during and after the Revolution transformed the past into a spectacle The wax display in which visitors circulated amid life size statues of historical figures the phantasmagoria show in which images of historical personages were projected onto smoke or invisible screens and the panorama in which spectators viewed giant circular canvases depicting historical scenes employed new optical technologies to entice crowds of spectators Such entertainments Samuels asserts provided bourgeois audiences with an illusion of mastery over the past allowing them to picture their new role as historical agents Samuels demonstrates how the spectacular mode of historical representation pervaded historiography drama and the novel during the Romantic period He then argues that the early Realist fiction of Balzac and Stendhal emerged as a critique of the spectacular historical imagination By investigating how postrevolutionary France envisioned the past Samuels illuminates a vital moment in the cultural history of modernity

Fictions of the Press in Nineteenth-Century France Edmund Birch, 2018-05-04 This book explores how writers responded to the rise of the newspaper over the course of the nineteenth century Taking as its subject the ceaseless intertwining of fiction and journalism at this time it tracks the representation of newspapers and journalists in works by Honor de Balzac Edmond and Jules de Goncourt and Guy de Maupassant This was an era in which novels were published in newspapers and novelists worked as journalists In France fiction was to prove an utterly crucial presence at the newspaper's heart with a gilded array of predominant literary figures active in journalism Today few in search of a novel would turn to the pages of a daily newspaper But what are usually cast as discrete realms fiction and journalism came in the nineteenth century to occupy the same space a point which complicates our sense of the cultural history of French literature

The Nineteenth-Century Novel and the Pre-Cinematic Imagination Alberto Gabriele, 2024-11-14 This book fills a gap in existing scholarship on the history of the novel in relation to visual culture by discussing the visual fascination that novelists such as Nathaniel Hawthorne Herman Melville Honor de Balzac and George Eliot show for several types of pre cinematic spectacle It also identifies a so far neglected aspect of novel theory that nineteenth century authors elaborated by incorporating suggestions from pre cinematic visual spectacles By shedding light on forms of visibility that were not entertained by the dominant aesthetic modes of painting and photography *The Nineteenth Century Novel and the Pre Cinematic Imagination* argues that the presence of nineteenth century pre cinematic optical illusions in works of fiction redefines the notion of mimesis as animated movement and points to a continuity between pre cinema the literary imagination and the structures of knowledge production of the modern episteme

Panoramas and Compilations in Nineteenth-Century Britain Helen Kingstone, 2023-01-06 This book shows how in nineteenth century Britain confronted with the newly industrialized and urbanized modern world writers

artists journalists and impresarios tried to gain an overview of contemporary history They drew on two successive but competing conceptual models of overview the panorama and the compilation Both models claimed to offer a holistic picture of the present moment but took very different approaches This book shows that panoramas 360 views previously associated with the Romantic period and compilations big data projects previously associated with the Victorian fin de siècle are intertwined relevant across the entire century and often remediated making them crucial lenses through which to view a broad range of genre and forms It brings together interdisciplinary research materials belonging to different period silos to create new understandings of how nineteenth century audiences dealt with information overload It argues for a new politics of distance one that recognizes the value of immersing oneself in a situation event or phenomenon but which also does not chastise us for trying to see the big picture This book is essential reading for students and scholars of nineteenth century literature history visual culture and information studies
