(A translation into English prose of select epigrams of Martial, arranged under heads, with examples of the modern uses to which they have been applied.) By A. Amos Martial,1858 *The epigram in England, 1590-1640* James Doelman,2016-06-17 James Doelman's book is the first major study on the Renaissance English epigram since 1947 It combines thorough description of the genre's history and conventions with consideration of the rootedness of individual epigrams within specific social political and religious contexts **Bertolt Brecht's Adaptations and Anti-capitalist Aesthetics Today** Anthony Squiers,2025-02-13 This book examines Brecht's theory and method of adaptation It first reconstructs it into a single framework using four key Brechtian concepts Fabel gestus estrangement effects and historicizing It then uses that framework to analyse four Brechtian adaptations The Tutor Don Juan Socrates Wounded and Kriegsfibel It argues that adaptation occupies a previously unrealised central place in Brecht's thought demonstrating that he provides us with a unique way to think about adaptation as material transformation It concludes by describing how Brecht is useful for anti capitalist aesthetics today because through him one can foster a new consciousness which enables better social conditions to be created This book is practical for both theatre practitioners and artists as well as theorists **Talks on Writing English** Arlo Bates,2015-01-29 These talks were given in the autumn of 1894 as a course on Advanced English Composition in the Lowell Free Classes and that they are now printed is largely due to the fact that they were so well received by those who then heard them In preparing them I consulted whatever books upon composition came to my hand I examined some with profit some with pleasure and some it must be confessed not wholly without amusement or even impatience Doubtless I owe something to many of these books but I am not conscious of much obligation to any save the Principles of Rhetoric by Professor A S Hill English Composition by Professor Barrett Wendell and English Prose by Professor

John Earle I have conscientiously endeavored to make the lectures as practical as possible stating as clearly as I could those things which would have been most helpful to me had I read and heeded them twenty years ago The necessity of holding an audience made fitting some effort to render the talks entertaining but I have never consciously said anything for the mere purpose of being amusing and I have never been of the opinion that a book gains either in dignity or in usefulness by being dull My purpose has throughout been sincerely serious and if the book shall prove helpful I shall have attained the object for which it was written

Page, 1982-01-14 This book continues the work done in the volumes edited by A S F Gow and D L Page entitled *Hellenistic Epigrams* and *The Garland of Philip* It sets out to include all Greek literary epigrams composed before AD 50 and not published in those volumes and extends also to epigrams ascribed to certain imperial Romans Another author commented on is Leonides of Alexandria whose poems observe curious mathematical laws The challenge to the authenticity of much of what passes for Simonides and the associated historical discussion constitute one of the most important sections of the book This edition and commentary will be indispensable to scholars of Greek literature
