Speech Language Learning And The African American Child:

Speech, Language, Learning, and the African American Child Jean E. Van Keulen, Gloria Toliver Weddington, Charles E. DeBose, 1998 Premised on recognition of African American language as a legitimate linguistic system this volume compares and contrasts African American English and White English speech discusses pedagogical methods dictated by cultural differences and evaluates implications for classroom practice It also di The African American Child Yvette R.

Harris, James A. Graham, 2007-05-01 This book argues convincingly that children's cultural differences need to be recognized for any accurate understanding of their development Pointing out the need for additional and more effectively designed research Harris and Graham provide a valuable foundation for further investigations This nonpolemic book should be in all libraries filling an unfortunate gap Highly recommended Choice Current Reviews for Academic Libraries This major new textbook introduces students to issues that have an impact on the lives of African American children but have typically been ignored or inadequately discussed in mainstream child development textbooks The authors hope to familiarize students with a sampling of research that moves beyond a deficit view of the development of the African American child while stimulating critical thinking about future directions for research on African American children and their families The book is designed to be student friendly with each chapter presenting an overview of the material covered as well as an Insider's Voice which offers a personal story or viewpoint about the issues discussed in the chapter Each chapter goes on to feature a dialogue of current biological environmental constructivist and cultural contextual theories as well as suggestions for additional reading videos websites and questions to guide critical thinking **The African American Child, Second Edition** Yvette R.

Harris, James A. Graham, 2014-02-13 Praise for the First Edition This book argues convincingly that children's cultural differences need to be recognized for any accurate understanding of their development Pointing out the need for additional and more effectively designed research Harris and Graham provide a valuable foundation for further investigations This nonpolemic book should be in all libraries filling an unfortunate gap Highly recommended Choice This is an evenhanded examination of the challenges affecting the lives of African American children that emphasizes their strengths and resiliency rather than deficits It is the only text to comprehensively consider the biological emotional social and cultural domains of development in this population The second edition reflects an acceleration of research on the development of racial identity in African American children a shift from the dictates of No Child Left Behind to a more flexible approach to student academic evaluation and changes in the economic conditions of African American children and their families The book also reflects the increase in the number of African American children in foster care and those with incarcerated parents New coverage also includes new information about the mental health of African Americans and a new chapter on adolescent development This new edition features updated statistical information on health problems healthcare access new diagnostic techniques new treatment approaches and the number of children of African origin It provides an expanded discussion of the

value of qualitative methodology ethical issues in research and a discussion of the characteristics of middle and upper class African American families End of chapter discussion questions an Insider s Voice in each chapter that highlights important elements and an Issues Box that highlights historic and legal issues also enhance the second edition New to the Second Edition New inclusion of information on African American adolescents A discussion of the impact of parental incarceration on the long and short term outcomes of African American children Updated statistical information on health academic performance language and literacy and other issues Information about children of African origin and their families Information about middle and upper class African American families Expanded discussion of the value of qualitative methodology and ethical issues in research on African American children New diagnostic techniques and treatment approaches for sickle cell anemia Update on work with AA families and children in therapy and the role of community focused therapy A discussion of the role of self efficacy on academic competence the influence of NCLB on academic performance and current initiatives to improve academic outcomes for African American children The current status of Oakland School Board s Ebonics Resolution New information on Prosocial Behavior and Empathy and Aggressive Antisocial behavior among African American children Expanded section on how communities affect the lives of African American children including research on African American children and the media End of chapter discussion questions Insider s Voice and Issues Box features in each chapter

Malik Goes to School Holly K. Craig, Julie A. Washington, 2006-04-21 Malik Goes to School Examining the Language Skills of African American Students From Preschool 5th Grade synthesizes a decade of research by the authors Holly Craig and Julie Washington on the oral language and literacy skills of African American children from preschool to fifth grade Their research has characterized significant influences on the child s use of AAE and the relationship between AAE and aspects of literacy acquisition The research has also led to the characterization of other nondialectal aspects of language development The outcome has been a culture fair child centered language evaluation protocol This very readable volume will be important to students clinicians and teachers learning about and working with African American children The book has direct relevance to academic planning clinical decision making curriculum development and educational policymaking

Black Communications and Learning to Read Terry Meier, 2020-08-19 This book is about effective literacy instruction for students in grades K 4 who use the language variety that many linguists call African American English but which as explained in the Introduction the author calls Black Communications BC Throughout considerable attention is given to discussing the integral and complex interconnections among African American language culture and history drawing significantly on examples from African American historical and literary sources Although it is theoretical in its description of the BC system and its discussion of research on language socialization in African American communities the major focus of this book is pedagogy Many concrete examples of successful classroom practices are included so that teachers can readily visualize and use the strategies and principles presented Part I What is

Black Communications presents an overview of the BC system providing a basic introduction to the major components of the language phonology grammar lexicon and pragmatics and illustrating how these components work in synchrony to create a coherent whole Part II Language Socialization in the African American Discourse Community examines existing research on African American children s language socialization Part III Using African American Children s Literature draws connections between strategy instruction and the linguistic and rhetorical abilities discussed in Part II Each chapter ends with suggestions for using African American literature to help children develop their speaking and writing abilities Part IV Children Using Language moves from a focus on teaching comprehension strategies to helping BC speakers learn to decode text This volume is directed to researchers faculty and graduate students in the fields of language and literacy education and linguistics and is well suited as a text for graduate level courses in these areas

Speaking, Reading, and Writing in Children With Language Learning Disabilities Katharine G. Butler, Elaine R. Silliman, 2001-12 This work shows that being literate requires more than functional literacy the recognition of printed words as meaningful It requires the knowledge of how to use language as a tool for analysing synthesizing and integrating what is heard or read in order to arrive at new interpretations
