Yossi Nehushtan

Speech Respect The Hamlyn Lectures:

Speech & Respect Richard L. Abel, 1994 Minority groups have voiced the hurt that dominant discourse often inflicts upon them This tension is explored through the examples of racism pornography and the The Satanic Verses The book analyzes constraints on speech made by the State and examines arguments against State regulation **Intolerant Religion in a Tolerant-Liberal Democracy** Yossi Nehushtan, 2016-01-21 This book aims to examine and critically analyse the role that religion has and should have in the public and legal sphere The main purpose of the book is to explain why religion on the whole should not be tolerated in a tolerant liberal democracy and to describe exactly how it should not be tolerated mainly by addressing legal issues The main arguments of the book are first that as a general rule illiberal intolerance should not be tolerated secondly that there are meaningful unique links between religion and intolerance and between holding religious beliefs and holding intolerant views and ultimately acting upon these views and thirdly that the religiosity of a legal claim is normally a reason although not necessarily a prevailing one not to accept that claim **Legal Problems of the Functioning of Media in a Democratic Society**, 1995 Speech & Respect Richard L. Abel, 1994 **Media and Arts Law Review**, 1998 **The Common Law Constitution** John Laws, 2014-07-17 The law is not a science for its purpose is not to find out natural facts It is an art as architecture is an art its function is practical but it is enhanced by such qualities as elegance economy and clarity The law has two practical purposes first to require forbid or penalise forms of conduct between citizen and citizen and citizen and State secondly to provide formal rules for classes of human activity whose fulfilment would otherwise be confused uncertain or ineffective Laws in the former category include every provision for a remedy **The Sovereignty of Law** Francis G. Jacobs, 2007-06-14 Recently the role of courts has changed dramatically Not only do courts now have to decide cases between parties they also often have to choose between competing fundamental values Judges may have to balance the potentially conflicting interests of human life and human dignity freedom of speech and the right of privacy or free trade and the protection of the environment The courts may have to circumscribe freedom of religion and decide when religious dress may be worn With the non specialist in mind and starting from the basic notion of the rule of law this book explores how judges can and should address such issues Both the European Convention on Human Rights and the European Union often play a decisive role and the book points out both the advantages and the difficulties posed by this Above all it seeks to promote a more informed debate **Lawyers and the Public Good** Alan Paterson, 2011-09-15 For the 2010 Hamlyn Lectures Alan Paterson explores different facets of three key institutions in a democracy lawyers access to justice and the judiciary In the case of lawyers he asks whether professionalism is now in terminal decline To examine access to justice he discusses past and present crises in legal aid and potential endgames and in relation to judges he examines possible mechanisms for enhancing judicial accountability In demonstrating that the benign paternalism of lawyers in determining the public good with respect to such issues is no longer unchallenged he argues that the future roles of lawyers

access to justice and the judiciary will only emerge from dialogues with other stakeholders claiming to speak for the public interest

Fairness in Criminal Justice Sian Elias, 2018-08-23 British criminal justice is a principal legacy of Empire in the common law world. It attempts fairness between prosecutors and accused in an accusatory system for establishing criminal responsibility supervised by a judge who is conspicuously detached from the fray. Fundamental features today recognised as human rights include the presumption of innocence and onus of proof, the privilege against self incrimination and the right to legal advice and representation. In these lectures Dame Sian Elias examines modern challenges to this conception of criminal justice prompted by anxiety about crime and the costs and delays in proof of guilt. They include enlarged prosecutorial discretion in charging, incentivisation of early guilty pleas, adoption of reverse onuses of proof, application to criminal proceedings of principles of modern civil case management and measures to bring the victim into the criminal justice system. The lectures question whether this repositioning risks the integrity of the system.

The UK and European Human Rights Katja S Ziegler, Elizabeth Wicks, Loveday Hodson, 2015-10-22 The UK's engagement with the legal protection of human rights at a European level has been at varying stages: pioneering, sceptical and antagonistic. The UK government, media and public opinion have all at times expressed concerns about the growing influence of European human rights law, particularly in the controversial contexts of prisoner voting and deportation of suspected terrorists, as well as in the context of British military action abroad. British politicians and judges have also, however, played important roles in drafting, implementing and interpreting the European Convention on Human Rights. Its incorporation into domestic law in the Human Rights Act 1998 intensified the ongoing debate about the UK's international and regional human rights commitments. Furthermore, the increasing importance of the European Union in the human rights sphere has added another layer to the relationship and highlights the complex relationships between the UK government, the Westminster Parliament and judges in the UK, Strasbourg and Luxembourg. The book analyses the topical and contentious issue of the relationship between the UK and the European systems for the protection of human rights, ECHR and EU, from doctrinal, contextual and comparative perspectives and explores factors that influence the relationship of the UK and European human rights.
