Speed Tribes Children Of The Japanese Bubble:

The Worlds of Japanese Popular Culture Dolores P. Martinez, 1998-10-13 Dolores Martinez heads an international team of scholars in this lively discussion of Japanese popular culture The book's contributors include Japanese as well as British Icelandic and North American writers offering a diversity of views of what Japanese popular culture is and how it is best approached and understood They bring an anthropological perspective to a broad range of topics including sumo karaoke manga vampires women's magazines soccer and morning television Through these topics many of which have never previously been addressed by scholars the contributors also explore several deeper themes the construction of gender in Japan the impact of globalisation and modern consumerism and the rapidly shifting boundaries of Japanese culture and identity This innovative study will appeal to those interested in Japanese culture sociology and cultural anthropology

Asia-Pacific Raymond Frederick Watters, T. G. McGee, Ginny Sullivan, 1997 The great processes reshaping our world today can be summed up by the term globalisation Together with the communications revolution and massive urbanisation it is reshaping the organisation of global space It is illustrated by technological change pronounced economic growth the dominance of giant corporations ever more open markets and universal consumption Dramatic developments have occurred in Asia Pacific trade investment labour movements and political cooperation marked for example by APEC a giant free trade area designed to encompass about 60% of the world's population and half the world's economy But the processes also create social tension political reaction and local resistance as a result of regional restructuring widening regional disparities the neglect of backward areas or imposed modernisation Asia Pacific New Geographies of the Pacific Rim written by leading scholars from the region examines the extent to which Pacific Rim economies especially East Asia and Southeast Asia are increasingly integrated and considers the economic political and cultural forces at work In the process many new geographies are being created or reconstructed At the same time the local global dialectic whereby local forces react to negotiate with resist or capitulate to global forces is examined Part I analyses globalisation and the emergence of sub global regions Part II the processes of change in Asia Pacific and Part III the national responses to globalisation Part IV addresses local reactions to global forces resistance negotiations or capitulation Finally the editors enumerate the challenges to the region which centre on the crucial need to manage this era of globalisation so that sustainable societies can continue This vast region needs careful management of globalisation in which the forces of free trade and economic growth are the central determinants For the time being these forces seem to be in the ascendant **Powerplay** Dan Fleming, 1996 In an increasingly global media culture toys are both consumer products and playthings revealing a complex relationship between capitalism and child psychology This book analyses the gendered and cultural meanings of toys Contemporary Urban Japan John Clammer, 2011-08-04 This volume demonstrates a fresh approach to urban studies as well as a new way of looking at contemporary Japan which links economy and society in an innovative way **Liquid Metal** Sean Redmond, 2005-01-19

Liquid Metal brings together seminal essays that have opened up the study of science fiction to serious critical interrogation. Eight distinct sections cover such topics as the cyborg in science fiction, the science fiction city, time travel and the primal scene, science fiction fandom and the 1950s invasion narratives. Important writings by Susan Sontag, Vivian Sobchack, Steve Neale, J. P. Telotte, Peter Biskind and Constance Penley are included. [The Culture of Japan as Seen Through Its Leisure](#) Sepp Linhart, Sabine Fruhstuck, 1998-05-28. Provides a wealth of information about leisure activities in Japan including sports, travel, theater, music, games and gambling. *Visual Sense* Elizabeth Edwards, Kaushik Bhaumik, 2024-11-01. Vision is more than looking or seeing. It is integral to all human action. *Visual Sense* presents a series of readings which offer a range of alternatives to conventional psychological and social scientific approaches to the study of the ocular. The book highlights the multitude of ways in which vision is linked to the other senses by virtue of being embedded in complex cultural processes. *Visual Sense* introduces students to the analysis of a wide range of ways of experiencing sight across time and across cultures from Renaissance Italy, Aztec Mexico and early Christian Europe to Tibet, West Africa, Aboriginal Australia and South America amongst others. It is arranged around broad themes of visual experience ranging from navigating the sacred and ordering knowledge about the world to thinking creatively, socially and beyond vision into cyberspace and daydream. This unique approach allows cross cultural and thematic connections to be made. *A Guide to Further Reading* allows students to expand their learning independently and section introductions place the readings in context. *Visual Sense* expands the field of visual studies and explores the place of vision in the sensory world. **Youth Media** Bill Osgerby, 2004-09-30. Part of the successful Routledge Introductions to Media and Communications series which provides concise introductions to key areas in contemporary communications. Bill Osgerby's innovative *Youth Media* traces the development of contemporary youth culture and its relationship with the media. From the days of diners, drive ins and jukeboxes to today's world of iPods and the Internet, *Youth Media* examines youth media in its economic, cultural and political contexts and explores youth culture and the media, the Fab Phenomenon, markets, money and media, generation and degeneration in the media, representations, responses and effects, media subculture and lifestyle, global media, youth culture and identity, youth and new media. Analyzing the nature of different forms of communication as well as reviewing their production and consumption, this is an essential introduction to this key area in communication and cultural studies. *Historical Dictionary of Tokyo* Roman Cybriwsky, 2011-02-18. Tokyo is Japan's largest city and its capital. It is also one of the largest cities in the world and a major center of global economic influence. The origins of human settlement in what is today Tokyo are lost in prehistory. The city started out quite modestly as a small castle town of Edo in 1457, then the center of the Tokugawa shogunate from 1603-1868, the rapidly modernizing and Westernizing capital of the nation during the Meiji Period 1868-1912 and the capital of a prosperous nation and growing empire thereafter. Tokyo was utterly devastated during World War II but this was not the first time Tokyo had to start seemingly from new. Due to many fires and earthquakes the city has constantly rebuilt itself and today it outdoes all its

previous emanations by far The second edition of the Historical Dictionary of Tokyo is a much needed reference source on the city This is done through a chronology an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries on people places events and other terminology about the city of Tokyo This book is a must for anyone interested in Japan and Tokyo Japan's Quiet Transformation Jeff Kingston, 2004 The 1990s have been termed as Japan's lost decade to describe how the phenomenal growth in the Japanese economy ground to a halt and the country was crippled by enormous and ongoing political economic and social problems In responding to these unprecedented difficulties wide ranging reforms have been adopted including NPO information disclosure and judicial reform legislation Controversially this book argues that such reforms are creating a more robust civil society and demonstrate that Japan is far more dynamic than is generally recognized
