Spell Of Language Poststructuralism And Speculation:

The Spell of Language Thomas G. Pavel, 2001-01-01 Originally published as *Le Mirage linguistique* this book remains the definitive study of the role of linguistics in structuralism and poststructuralism Thomas Pavel examines recent French thought through the work of luminaries such as Lévi-Strauss Lacan Foucault and Derrida The spell of language for Pavel consists of three things the promise that linguistics seemed to represent for the humanities and social sciences the distortions misunderstandings and willful neglect incumbent upon the linguistic turn and above all the break with traditional humanism He isolates three modes of thought moderate structuralism scientific structuralism and speculative structuralism and shows how even as they diverge from each other they all advocate an antihumanist point of view In this spirited book Pavel shows that structuralism's flawed use of linguistic theory has rendered hollow the philosophical core of a whole generation of work in the human sciences

New Testament Theology and the Greek Language Stanley E. Porter, 2022-10-20 In this book Stanley E. Porter offers a unique language based critique of New Testament theology by comparing it to the development of language study from the Enlightenment to the present Tracing the histories of two disciplines that are rarely considered together Porter shows how the study of New Testament theology has followed outmoded conceptual models from previous eras of intellectual discussion He reconceptualizes the study of New Testament theology via methods that are based upon the categories of modern linguistics and demonstrates how they have already been applied to New Testament Greek studies Porter also develops a workable linguistic model that can be applied to other areas of New Testament research Opening New Testament Greek linguistics to a wider audience his volume offers numerous examples of the productivity of this linguistic model especially in his chapter devoted to the case study of the Son of Man

Skepticism and Impersonality in Modern Poetry V. Joshua Adams, 2025-06-12 Modern literature is often described in terms of its impersonality What is the significance of this fact In Skepticism and Impersonality V Joshua Adams follows the history of impersonality in modern poetry from Mallarm and Eliot through to the present engaging with work by major poets and critics but also contemporary philosophers Rather than seeing impersonality exclusively as a literary historical phenomenon Adams argues that we should understand it as an attempt to address skeptical problems arising from the limitations of first person experience Defending impersonality as a response to skeptical problems including doubts about the publicity of our experiences our knowledge of other minds the

capacity of our language to describe the world the relationship between mind and body and the fictionality and continuity of our sense of self Adams analyzes what he calls experiments in impersonality as means of working through skeptical doubt The writers discussed transform this doubt into art whilst also ironizing it as corrosive and self defeating Ultimately this leads Adams to reinterpret literary impersonality as a therapeutic philosophical project Skepticism and Impersonality promises a new theoretical justification for our practical interest in literary texts to renovate our conception of how those texts might do philosophical work and to expand our sense of what a philosophical poem can be Landscapes of Realism Dirk Göttsche, Rosa Mucignat, Robert Weninger, 2021-04-15 Few literary phenomena are as elusive and yet as persistent as realism While it responds to the perennial impulse to use literature to reflect on experience it also designates a specific set of literary and artistic practices that emerged in response to Western modernity Landscapes of Realism is a two volume collaborative interdisciplinary exploration of this vast territory bringing together leading edge new criticism on the realist paradigms that were first articulated in nineteenth century Europe but have since gone on globally to transform the literary landscape Tracing the manifold ways in which these paradigms are developed discussed and contested across time space cultures and media this first volume tackles in its five core essays and twenty five case studies such questions as why realism emerged when it did why and how it developed such a transformative dynamic across languages to what extent realist poetics remain central to art and popular culture after 1900 and how generally to reassess realism from a twenty first century comparative perspective
