Beyond Educational Disadvantage Paul Downes, Ann Louise Gilligan, 2007 **Automated Essay Scoring** Mark D. Shermis, Jill C. Burstein, 2003-01-30 This new volume is the first to focus entirely on automated essay scoring and evaluation. It is intended to provide a comprehensive overview of the evolution and state of the art of automated essay scoring and evaluation technology across several disciplines including education testing and measurement, cognitive science, computer science, and computational linguistics. The development of this technology has led to many questions and concerns. Automated Essay Scoring attempts to address some of these questions including: How can automated scoring and evaluation supplement classroom instruction? How does the technology actually work? Can it improve students' writing? How reliable is the technology? How can these computing methods be used to develop evaluation tools? What are the state-of-the-art essay evaluation technologies and automated scoring systems? Divided into four parts, the first part reviews the teaching of writing and how computers can contribute to it. Part II analyzes actual automated essay scorers including e-rater™, Intellimetric, and the Intelligent Essay Assessor. The third part analyzes related psychometric issues, and the final part reviews innovations in the field. This book is ideal for researchers and advanced students interested in automated essay scoring from the fields of testing and measurement, education, cognitive science, language, and computational linguistics. Beyond Reading, Writing, and Arithmetic Laura Jean Colker, 1997 **A Second-Wave Positive Psychology in Counselling Psychology** Paul T. P. Wong, 2023-03-31 This book on the new paradigm of existential positive psychology, PP2 0 or second wave positive psychology, focusses on the importance of transcending or transforming negative experiences and emotions to achieve durable flourishing. The book offers exciting new concepts and skills in the practice of counselling psychology. Positive psychology is evolving due to changing times and circumstances. PP2 0 opens new vistas for research and interventions in counselling psychology and positive psychology. Instead of relying only on the positives, it posits the importance of navigating an optimal balance between positives and negatives in each context. It emphasizes the importance of inner peace, balance, and harmony rather than the pursuit of happiness or positive emotions. More importantly, PP2 0 is based on meeting the basic human needs for: 1) the need to be liberated from suffering and human bondage; 2) the hope of achieving a meaningful future; 3) the need to relate to others in a compassionate and authentic way so that people can experience genuine kindness and love; and 4) the deep-seated spiritual need for a sense of oneness with a Higher Power or nature. This volume explores ways to help individuals to be liberated from their inherent limitations and at the same time empower them to achieve their highest aspirations. With an updated Introduction, this book is the ideal companion for any student or practitioner looking for an insightful overview of positive psychology, including humanistic psychology, existential positive psychology, as well as counselling psychology. The chapters in this book were originally published as a special issue of *Counselling Psychology Quarterly*. Curriculum Review, 1983 **Handbook of Learning Disabilities, Second Edition**
