Reporting Skin and the Wounded Body in Victorian Britain Diana Garrisi, 2024-12-05 Drawing on a wide range of primary sources this book explains what made skin newsworthy in Victorian Britain It represents a unique contribution to the media history of the human body by delving into the cultural and historical underpinnings of wound representation in Western culture Employing a case study approach the book provides a comprehensive exploration of the interplay between dermatology and the Victorian press This work suggests that there was a mutually constitutive relationship between skin reporting and the formal evolution of news discourse during the nineteenth century Narratives related to skin such as wounds caused by corporal punishment plagues resulting from neglect in workhouses and occupational skin diseases emerged as defining features of Victorian newspapers Notably media coverage of wounded skin assumed a central rhetorical position in debates pertaining to discipline abuse poverty labour and social norms a legacy still discernible in contemporary journalism Analysing the mediation of the wounded body in Victorian Britain offers a unique insight into the foundations of modern journalism It sheds light on the impossibility of maintaining an objective framework when observing and reporting on bodies in pain Paradoxically news writers and commentators of that era navigated this challenge by encapsulating such narratives within rhetorical constructs that provided a template for the evolution of contemporary news values

and emotions to explore these changing notions Each chapter uses a different focus bones skin sexual organs spine tongue heart revealing how each body part connects to a peculiarly Western notion of expertise one which appropriates one element from the others and ignores their interconnection The themes examined in This Mortal Coil the nature of identity the relationship between the brain and the heart and the gendering of our physical and emotional selves are enduring ones but perceptions of the perfect body or perfect health evolve constantly Moving between the surface and what lies beneath Alberti provides a rich and fascinating accounting of each part shedding light on the role scientific developments from medical care to plastic surgery to cloning plays in how we look at ourselves Written with insight and narrative verve Alberti s provocative book reveals how the mortal coil can be unwound and looked at as if for the first time [The Most Important Scriptures of](#)
