The Slave's Narrative Henry Louis Gates,1985 The autobiographical narratives of black ex slaves published in the eighteenth and nineteenth centuries constitute the largest body of literature produced by slaves in human history Black slaves in the New World created a veritable literature of escape depicting the overwhelming horrors of human bondage These narratives served the abolitionist movement not only as evidence of the slaves degradation but also of their intellectual capacity Accordingly this literature has elicited a wealth of analysis and controversy from its initial publication right up to our day This volume charts the response to the black slave s narrative from 1750 to the present The book consists of three sections selected reviews of slave narratives dating from 1750 to 1861 essays examining how such narratives serve as historical material and essays exploring the narratives as literary artifacts

Grayson,Wayne Gridley,2024-04-20 Reprint of the original first published in 1845 *The Making of New World Slavery* Robin Blackburn,2010-08-02 The Making of New World Slavery argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery The baroque state sought successfully to feed upon this commerce and with markedly less success to regulate slavery and racial relations To illustrate this thesis Blackburn examines the deployment of slaves in the colonial possessions of the Portuguese the Spanish the Dutch the English and the

French Plantation slavery is shown to have emerged from the impulses of civil society not from the strategies of individual states Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected Finally he shows that the surge of Atlantic trade predicated on the murderous toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West

The End of Slavery in Africa and the Americas Ulrike Schmieder, Katja Füllberg-Stolberg, Michael Zeuske, 2011 For centuries social and economic relations within the Atlantic space were dominated by slavery and the transatlantic slave trade from Africa to the Americas By the slowly and arduously achieved end of this trade slave labour in the Americas was replaced in many cases by other forms of coerced labour of African Caribbean people or Indian Chinese African or European immigrants This book focuses on the transformation of societies after the slave trade and slavery in a comparative intercontinental perspective It combines micro and macro historical approaches and looks at the agency of slaves missionaries abolitionists state officials seamen and soldiers

The Oxford Handbook of the African American Slave Narrative John Ernest, 2014-02-28 Given the rise of new interdisciplinary and methodological approaches to African American and Black Atlantic studies The Oxford Handbook of the African American Slave Narrative will offer a fresh wide ranging assessment of this major American literary genre The volume will begin with articles that consider the fundamental concerns of gender sexuality community and the Christian ethos of suffering and redemption that are central to any understanding of slave narratives The chapters that follow will interrogate the various agendas behind the production of both pre and post Emancipation narratives and take up the various interpretive problems they pose Strategic omissions and veiled gestures were often necessary in these life accounts as they revealed disturbing too painful truths far beyond what white audiences were prepared to hear While touching upon the familiar canonical autobiographies of Frederick Douglass and Harriet Jacobs the Handbook will pay more attention to the under studied narratives of Josiah Henson Sojourner Truth William Grimes Henry Box Brown and other often overlooked accounts In addition to the literary autobiographies of bondage the volume will anatomize the powerful WPA recordings of interviews with former slaves during the late 1930s With essays on the genre s imaginative afterlife its final essays will chart the emergence and development of neoslave narratives most notably in Styron s *The Confessions of Nat Turner* Toni Morrisons *s Beloved* and Octavia Butler s provocative science fiction novel *Kindred* In short the Handbook will provide a long overdue assessment of the state of the genre and the vital scholarship that continues to grow around it work that is offering some of the most provocative analysis emerging out of the literary studies discipline as a whole

American Orations: V. The anti-slavery struggle Alexander Johnston, James Albert Woodburn, 1896

The Trouble with Minna Hendrik Hartog, 2018-03-19 In this intriguing book Hendrik Hartog uses a forgotten 1840 case to explore the regime of gradual

emancipation that took place in New Jersey over the first half of the nineteenth century In Minna's case white people fought over who would pay for the costs of caring for a dependent apparently enslaved woman Hartog marks how the peculiar language mobilized by the debate about care as a mere voluntary courtesy became routine in a wide range of subsequent cases about good Samaritans Using Minna's case as a springboard Hartog explores the statutes situations and conflicts that helped produce a regime where slavery was usually but not always legal and where a supposedly enslaved person may or may not have been legally free In exploring this liminal and unsettled legal space Hartog sheds light on the relationships between moral and legal reasoning and a legal landscape that challenges simplistic notions of what it meant to live in freedom What emerges is a provocative portrait of a distant legal order that in its contradictions and moral dilemmas bears an ironic resemblance to our own legal world Microcontroller Theory and Applications with the PIC18F M.

Slavery and the Roman Literary Imagination William Fitzgerald, 2000-03-09 This book explores the presence of slaves and slavery in Roman literature and asks particularly what the free imagination made of the experience of living with slaves beings who both were and were not fellow humans As a shadow humanity slaves furnished the free with other selves and imaginative alibis as well as mediators between and substitutes for their peers As presences that witnessed their owners most unguarded moments they possessed a knowledge that was the object of both curiosity and anxiety The book discusses not only the ideological relations of Roman literature to the institution of slavery but also the ways in which slavery provided a metaphor for a range of other relationships and experiences and in particular for literature itself It is arranged thematically and covers a broad chronological and generic field *Dictionary of Anonymous and Pseudonymous English Literature: Q-S* Samuel Halkett, John Laing, 1929 The Cambridge World History of Slavery: Volume 3, AD 1420-AD 1804 David Eltis, Stanley L. Cooper, 2009 The Geography of Genocide offers a unique analysis of over sixty genocides in world history explaining why genocides only occur in territorial interiors and never originate from cosmopolitan urban centers This study explores why genocides tend to result from emasculating political defeats experienced by perpetrator groups and examines whether such extreme political violence is the product of a masculine identity crisis Author Allan D Cooper notes that genocides are most often organized and implemented by individuals who have experienced traumatic childhood events involving the abandonment or abuse by their father Although genocides target religious groups nations races or ethnic groups these identity structures are rarely at the heart of the war crimes that ensue Cooper integrates research derived from the study of serial killing and rape to show certain commonalities with the phenomenon of genocide The Geography of Genocide presents various strategies for responding to genocide and introduces Cooper s
