The triumph Of the cotton aristocracy did not come in a day In 1800 North Carolina was except certain sections in the far East in the grasp of the small farm system There were then many people in the State who Opposed slavery Some of them were statesmen who like Jefferson and Washington looked to the day of freedom They were strong enough to Offset and keep down a certain thorough going tendency to deal with slaves in a summary manner which from the first was not wanting with some legislators But as the large estate prevailed the pro slavery in uence became stronger The arguments on this side were naturally aggressive and those on the other side were conservative The former caught the support of the younger men in politics As time passed the older party was weakened³²⁵ Introduction About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Slavery in**

Campbell,1991-08-01 Because Texas emerged from the western frontier relatively late in the formation of the antebellum nation it is frequently and incorrectly perceived as fundamentally western in its political and social orientation In fact most of the settlers of this region were emigrants from the South and many of these people brought with them their slaves and all aspects of slavery as it had matured in their natives states In *An Empire for Slavery* Randolph B Campbell examines slavery in the antebellum South s newest state and reveals how central slavery was to Texas history The peculiar institution was perhaps the most important factor in determining the economic development and ideological orientation of the state in the years leading to the Civil War Campbell points out that although the area of slaveholding in Texas covered only two fifths of the state by 1860 this area alone was as large as Alabama and Mississippi combined and constituted a virtual empire for slavery By the outbreak of the Civil War the proportion of slaveholders and slaves in Texas was comparable to that of Virginia the oldest slaveholding state in the Union Utilizing records such as federal censuses wills and other probate papers and the WPA slave narratives Campbell raises a number of questions concerning the nature of slavery in Texas What factors encouraged the adoption of slavery Under what conditions did the Texas slaves exist What was the societal impact of slavery in this new state How did the Civil War itself affect slavery in the state Campbell also reviews the proslavery argument put forward by many early Texas statesmen What emerges is a picture of a state whose political future was sen as dependent upon the continuance of slavery and whose role in the Civil War was determined by this choice As a result of this study Texas is revealed as a state not unlike those of the older South *An Empire for Slavery* is the first examination of the peculiar

institution as it existed in Texas Historians and general readers alike will find it an essential examination of the region the period and the phenomenon of slavery

North Carolina's Free People of Color, 1715-1885 Warren Eugene Milteer Jr., 2020-07-01 In *North Carolina's Free People of Color 1715-1885* Warren Eugene Milteer Jr examines the lives of free persons categorized by their communities as negroes mulattoes mustees Indians mixed bloods or simply free people of color From the colonial period through Reconstruction lawmakers passed legislation that curbed the rights and privileges of these non enslaved residents from prohibiting their testimony against whites to barring them from the ballot box While such laws suggest that most white North Carolinians desired to limit the freedoms and civil liberties enjoyed by free people of color Milteer reveals that the two groups often interacted praying together working the same land and occasionally sharing households and starting families Some free people of color also rose to prominence in their communities becoming successful businesspeople and winning the respect of their white neighbors Milteer's innovative study moves beyond depictions of the American South as a region controlled by a strict racial hierarchy He contends that although North Carolinians frequently sorted themselves into races imbued with legal and social entitlements with whites placing themselves above persons of color those efforts regularly clashed with their concurrent recognition of class gender kinship and occupational distinctions Whites often determined the position of free nonwhites by designating them as either valuable or expendable members of society In early North Carolina free people of color of certain statuses enjoyed access to institutions unavailable even to some whites Prior to 1835 for instance some free men of color possessed the right to vote while the law disenfranchised all women white and nonwhite included

North Carolina's Free People of Color 1715-1885 demonstrates that conceptions of race were complex and fluid defying easy characterization Despite the reductive labels often assigned to them by whites free people of color in the state emerged from an array of backgrounds lived widely varied lives and created distinct cultures all of which Milteer suggests allowed them to adjust to and counter ever evolving forms of racial discrimination
