Slips Of Speech:

Slips of Speech John H. Bechtel, 2003-04 *Slips of the Tongue* Nanda Poulisse, 1999-01-01 This book reports the results of an extensive study of slips of the tongue produced by foreign language L2 learners at different levels of proficiency. Thus it provides new data which can be used to test current monolingual models of speech production and to further the development of bilingual speech production models. Moreover, it offers a new approach to the study of second language acquisition. The book contains a detailed survey of the findings of L1 slip research, including studies of slips produced by child L1 learners. It systematically compares these findings to those of the current L2 study and relates them to recent monolingual and bilingual models of speech production and to several cognitive models of second language acquisition. Special features of the book are its emphasis on methodological problems and the inclusion of the complete L2 corpus of 2000 slips of the tongue. It is expected that the book will be of interest to researchers and advanced students in the areas of speech production and second language acquisition and particularly to those who would like to test their own hypotheses using the L2 data.

Summary of the contents of the book: The book provides an overview of the key findings in L1 slip research. It relates L1 findings to monolingual speech production models. It gives a detailed survey of studies of slips produced by children. It presents an up-to-date review of bilingual speech production models. It discusses recent cognitive models of second language acquisition. It gives a detailed description of an extensive research project on slips of the tongue produced by Dutch learners of English. The L2 slip corpus is tape-recorded. It discusses methodological problems in L1 slip research. It systematically compares the L1 findings to those of the L2 slip project. It relates the findings to monolingual and bilingual models of speech production and to cognitive models of second language acquisition. It makes the data available in the appendix.

Slips of the tongue language English abstract: Whenever people fail to utter the message they wanted to convey correctly, they apologize and tend to explain their accidental mistake as a slip of the tongue. However, what is meant and covered by this term, which is used so often to refer to speech errors, does its universality suggest that all tongue slips are of the same kind? If not, how can

they be distinguished This term paper will try to give a more detailed categorization of speech anomalies first providing a definition what is generally seen as a slip of the tongue It will be shown who were the first linguists to examine this topic and what discoveries were made In order to give an own precise classification of speech errors different approaches for main categorizations will be presented and taken into consideration On the basis of these main categories further sub categories are elaborated and illustrated with examples given by different authors in order to explain every feature appropriately Since many authors still not agree upon a common sub classification this term paper will select the most suitable terms and definitions try to compromise about the most common ones and give suggestions for further distinctions To be conforming to the majority of the literature the most common terminology shall be used However if provided terms are inappropriate or imprecise they will be modified The types of speech errors will be ordered via the main class they belong to They will be presented as sub classes defined explained and illustrated by examples in detail Examples are marked with ordinals The incorrect utterance is always presented with an asterisk and followed by the proper realization in brackets The pronunciation of the slips is written in graphemes i e normally w *Slips of Speech : a Helpful Book for Everyone who Aspires to Correct the Everyday Errors of Speaking [eBook - NC Digital Library]* John Hendricks Bechtel,2010 *Slips of Speech* Bechtel John Hendricks,2016-06-21 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy *Slips of the Tongue and Language Production* Anne Cutler,2011-09-06 No detailed description available for Slips of the Tongue and Language Production *Slips of Speech* John Hendricks Bechtel,1905 **Slips of Speech** John Hendricks Bechtel,2024-04-09 *Slips of Speech a Helpful Book for Everyone Who Aspires to Correct the Everyday Errors of Speaking* a classical book has been considered important throughout the human history and so that this work is never forgotten we at Alpha Editions have made efforts in its preservation by republishing this book in a modern format for present and future generations This whole book has been reformatted retyped and designed These books are not made of scanned copies of their original work and hence the text is clear and readable

Experimental Slips and Human Error Bernard J. Baars,2013-06-29 Whereas most humans spend their time trying to get things right psychologists are perversely dedicated to error Errors are extensively used to investigate perception memory and performance some clinicians study errors like tea leaves for clues to unconscious motives and this volume presents the work of researchers who in an excess of perversity actually cause people to make predictable errors in speech and action Some reasons for this oddity are clear Errors seem to stand at the nexus of many deep psychological questions The very concept of error presupposes a goal or criterion by comparison to which an error is an error and goals bring in the
