Colin Sumner David Moxon, 2020-01-28 This book explores the work of criminologist Colin Sumner It re presents his arguments and ideas on Marxism ideology censure deviance crime underdevelopment social control and the media situating them in their wider social context Moxon argues that Sumner should be restored within the criminology discipline as a pioneer who has produced works of great theoretical sophistication and insight By systematically considering Sumner's entire output the book shows how his thought involved a gradually deepening understanding of his core notion of ideological censure His writing is also marked by a growing unease with the effects of late modern capitalism and the quagmire of censoriousness rife in the 21st century This book makes clear that Sumner's work was remarkably prescient and his ideas may help up to make sense of complicated times

*Defining the Sacred* Nicola Laneri, 2015-05-08 Religion is a phenomenon that is inseparable from human society It brings about a set of emotional ideological and practical elements that are pervasive in the social fabric of any society and characterizable by a number of features These include the establishment of intermediaries in the relationship between humans and the divine the construction of ceremonial places for worshipping the gods and practicing ritual performances and the creation ritual paraphernalia Investigating the religious dimensions of

ancient societies encounters problems in defining such elements especially with regard to societies that lack textual evidences and has tended to lead towards the identification of differentiation between the mental dimension related to religious beliefs and the material one associated with religious practices resulting in a separation between scholars able to investigate and possibly reconstruct ritual practices i e archaeologists and those interested in defining the realm of ancient beliefs i e philologists and religious historians The aim of this collection of papers is to attempt to bridge these two dimensions by breaking down existing boundaries in order to form a more comprehensive vision of religion among ancient Near Eastern societies This approach requires that a higher consideration be given to those elements either artificial buildings objects texts etc or natural landscapes animals trees etc that are created through a materialization of religious beliefs and practices enacted by members of communities These issues are addressed in a series of specific case studies covering a broad chronological framework that from the Pre pottery Neolithic to the Iron Age Cover illustration German Archaeological Institute photo N Becker

*Southern Modernist* Louis Mazzari,2006-12-01 Louis Mazzari brings to the fore one of the most important figures of the southern regionalist movement in the New Deal era His is the first biography of Arthur Raper a progressive sociologist writer and public intellectual who advocated racial and social justice in the South when such views were not only unpopular but dangerous effectively laying a foundation for the civil rights movement of the 1950s and 1960s Raper was one of the first white southern scholars to speak out against lynching sharecropping and tenant farming in his

pioneering and highly influential books *The Tragedy of Lynching* 1933 *Preface to Peasantry* 1936 *Sharecroppers All* 1941 and *Tenants of the Almighty* 1943 He also contributed significantly to Gunnar Myrdal's important study of U S race relations *An American Dilemma* 1944 Mazzari carefully dissects Raper's works casting them in a larger historical context and examining both the acclaim and anger they elicited in the South He portrays Raper as a political and social radical fighting against southern racial and economic problems during the country's transition from an agrarian culture to a modern one in an effort to keep the region from falling even further behind in an increasingly sophisticated world Hostility toward his beliefs eventually led Raper to leave the South He worked on the reconstruction of Japan after World War II and in Asia Africa and the Middle East at the height of the Cold War promoting the same mix of federal planning and local control he had practiced in the New Deal South In the life of Arthur Raper Mazzari locates a larger story of liberalism in the white South Raised on a North Carolina tobacco farm and educated at Chapel Hill under Howard Odum Raper was remarkable for taking up issues of race and class to advocate modern views in a part of the world where adherence to the past was almost pathological and then going on to advance a liberal modernist version of Jeffersonian democracy throughout the Third World He looked critically at the causes of racial violence and successfully conveyed scientific sociology into broad circulation through mass culture

**Classical and Contemporary Social Theory** Tim Delaney, 2024-03-22 The second edition of *Classical and Contemporary Social Theory* provides wraparound coverage of the classical social theorists and influential sociological schools of thought in the contemporary period Explained carefully and clearly throughout Tim Delaney reviews the key concepts and contributions from brilliant classical social thinkers and recent sociological thought spanning over 500 years of source material He weaves together profiles of leading theorists thorough descriptions of major academic and intellectual perspectives and discussion of prevailing themes of interest that have concerned theorists and sociologists throughout time and will likely continue to do so in the future The book emphasizes methods of investigation and application in its overview of the field by challenging readers to think about problems critically and in relation to key sociological theories and to also apply their sociological understanding to real everyday events In this new edition Delaney revisits the classical period and highlights the special contributions of American social theorists and their impact on the diversity of thought leading into the contemporary era He attends to later schools of thought and weaves in important updates related to critical race theory and globalization With updated context and further applications the second edition of *Classical and Contemporary Social Theory* is a perfect addition to combined courses in social theory

*Sport, Leisure and Social Relations (RLE Sports Studies)* John Horne, David Jary, Alan Tomlinson, 2014-04-24 When this book was first published the study of sport had been largely neglected by sociologists The contributions to this volume bring the sports field the leisure centre and everyday leisure activities to a more central position within the sociological enterprise Whether amateur or professional sport contributes to wider relations of power privilege and domination and this debate represents an important phase in the sociology of sport

and leisure
