Encyclopedia of Human Services and Diversity

Linwood H. Cousins, 2014-09-05 Encyclopedia of Human Services and Diversity is the first encyclopedia to reflect the changes in the mission of human services professionals as they face today's increasingly diverse service population. Diversity encompasses a broad range of human differences including differences in ability and disability, age, education level, ethnicity, gender, geographic origin, religion, sexual orientation, socioeconomic class, and values. Understanding the needs and problems of Asian Americans, Hispanic Americans, the deaf, the blind, the LGBT community, and many other groups demands an up-to-date and cutting-edge reference. This three-volume encyclopedia provides human services students, professors, librarians, and practitioners the reference information they need to meet the needs of an increasingly diverse population. Features 600 signed entries organized A to Z across three volumes. Entries authored by key figures in the field conclude with cross references and further readings. A Reader's Guide groups related articles within broad thematic areas such as aging, community, mental health, family, and child services, substance abuse, etc. A detailed index, the Reader's Guide, and cross references combine for search and browse in the electronic version. A helpful Resource Guide guides students to classic books, journals, and web sites, and a glossary assists them with the terminology of the field. Available in both print and electronic formats. Encyclopedia of Human Services and Diversity is an ideal reference for students, practitioners, faculty, and librarians.

Critical Issues In Asset Building In Singapore's Development S Vasoo, Bilveer Singh, 2018-06-19

Singapore's progress as an independent nation and the uplifting of its people's livelihood have been made possible by stable social and political conditions. A more important factor in driving these positive changes lies with people-centric leadership. One can contrast the case of Singapore with societies led by self-serving leaders whose lack of honesty and integrity brings about immense social and economic hardships to various communities. When people suffer under undesirable circumstances, they often migrate to seek a better future for themselves and their families. This book reveals how Singapore's governance, grounded on the principle of asset building, facilitates the country's growth and development. Policies being discussed in this volume include multi-culturalism, accessible housing, social mobility for low-income families, water resource management, and national conscription. Highly relevant for students, policy makers, and the general public interested in socio-political and economic development issues, this unique piece of work not only gives readers a documentary account of what has been undertaken to empower and assist citizens in the last 50 years or so but also prompts them to reflect on Singapore's future trajectory.
