arising from these conferences have included discussions between philosophers and distinguished practitioners of other disciplines relevant to the chosen topic Beginning with the 1979 conference on Law Morality and Rights and the 1981 conference on Space Time and Causality these volumes are now constituted as a series It is hoped that this series will contribute to advancing philosophical understanding at the frontiers of philosophy and areas of interest to non philosophers It is hoped that it will do so by writing which reduces technicalities as much as the subject matter permits In this way the series is intended to demonstrate that philosophy can be clear and worthwhile in itself and at the same time relevant to the interests of lay people
