Social Needs Versus Economic Efficiency In China Sun Yefangs Critique Of Socialist Economics:

Social needs versus economic efficiency in China : Sun Yefang's critique of socialist economics / edited and translated with an introduction by K.K. Fung. K.K Fung, 2017-09-08 This title was first published in 1982 How China Escaped Shock Therapy Isabella M. Weber, 2021-05-26 China has become deeply integrated into the world economy Yet gradual marketization has facilitated the country's rise without leading to its wholesale assimilation to global neoliberalism This book uncovers the fierce contest about economic reforms that shaped China's path In the first post Mao decade China's reformers were sharply divided They agreed that China had to reform its economic system and move toward more marketization but struggled over how to go about it Should China destroy the core of the socialist system through shock therapy or should it use the institutions of the planned economy as market creators With hindsight the historical record proves the high stakes behind the question China embarked on an economic expansion commonly described as unprecedented in scope and pace whereas Russia's economy collapsed under shock therapy Based on extensive research including interviews with key Chinese and international participants and World Bank officials as well as insights gleaned from unpublished documents the book charts the debate that ultimately enabled China to follow a path to gradual reindustrialization Beyond shedding light on the crossroads of the 1980s it reveals the intellectual foundations of state market relations in reform era China through a long overdue lens Overall the book delivers an original perspective on China's economic model and its continuing contestations from within and from without *Competing Economic Paradigms in China* Steven Mark Cohn, 2017-09-05 When the Chinese economic reforms began in 1978 Marxist economics infused all the institutions of economic theory in China from academic departments and economics journals to government departments and economic think tanks By the year 2000 neoclassical economics dominated these institutions and organized most economic discussion This book explains how and why neoclassical economic theory replaced Marxist economic theory as the dominant economics paradigm in China It rejects the idea that the rise of neoclassical theory was a triumph of reason over ideology and instead using a sociology of knowledge approach links the rise of neoclassical economics to broad ideological currents and to the political economic projects that key social groups inside and outside China wanted to enable The book concludes with a discussion of the nature of economic theory and economics education in China today **China Exchange News**, 1983 Market Civilizations Quinn Slobodian, Dieter Plehwe, Esra Elif Nartok, Aditya Balasubramanian, Tobias Rupperecht, Isabella M. Weber, Antina von Schnitzler, Jeremy Walker, Paulo Chamon, Karin Fischer, Mila Jonjic, Nenad Pantelic, Lars Mjølset, Reto Hofmann, Jimmy Casas Klausen, 2022-05-24 A deep investigation of neoliberalism's proselytizers in Eastern Europe and the Global South Where does free market ideology come from Recent work on the neoliberal intellectual movement around the Mont Pelerin Society has allowed for closer study of the relationship between ideas interests and institutions Yet even as this literature brought neoliberalism down to earth it tended to reproduce a European and American perspective on the world With the notable

exception of Augusto Pinochet's Chile long seen as a laboratory of neoliberalism the new literature followed a story of diffusion as ideas migrated outward from the Global North Even in the most innovative work the cast of characters remains surprisingly limited clustering around famous intellectuals like Milton Friedman and Friedrich Hayek Market Civilizations redresses this absence by introducing a range of characters and voices active in the transnational neoliberal movement from the Global South and Eastern Europe This includes B R Shenoy an early member of the Mont Pelerin Society from India who has been canonized in some circles since the Singh reforms Manuel Ayau another MPS president and founder of the Marroqu n University an underappreciated Latin American node in the neoliberal network Chinese intellectuals who read Hayek and Mises through local circumstances and many others Seeing neoliberalism from beyond the industrial core helps us understand what made radical capitalism attractive to diverse populations and how often disruptive policy ideas went local

China Under Mao Andrew George Walder, 2015-04-06 China's Communist Party seized power in 1949 after a long period of guerrilla insurgency followed by full scale war but the Chinese revolution was just beginning China Under Mao narrates the rise and fall of the Maoist revolutionary state from 1949 to 1976 an epoch of startling accomplishments and disastrous failures steered by many forces but dominated above all by Mao Zedong Walder convincingly shows that the effect of Maoist inequalities still distorts China today It will be a mind opening book for many and is a depressing reminder for others Jonathan Mirsky The Spectator Andrew Walder's account of Mao's time in power is detailed sophisticated and powerful Walder takes on many pieces of conventional wisdom about Mao's China and pulls them apart What was it that led so much of China's population to follow Mao's orders in effect to launch a civil war against his own party There is still much more to understand about the bond between Mao and the wider population As we try to understand that bond there will be few better guides than Andrew Walder's book Sober measured meticulous in every deadly detail it is an essential assessment of one of the world's most important revolutions Rana Mitter Times Literary Supplement

Enterprises, Industry and Innovation in the People's Republic of China Alberto Gabriele, 2020-04-06 This book analyses and critically evaluates the development of two key components of China's economy the network of productive enterprises and the national innovation system from the inception of market oriented reforms to the present day The approach is a partly novel one albeit inspired to classical political economy rooted in the structure and evolution of social relations of production and exchange and of the institutional setting in these two crucial domains The main findings are twofold First the role of planning and public ownership far from withering has been upheld and qualitatively enhanced especially throughout the most recent stages of industrial reforms Second enterprises are increasingly participating along with universities and research centers in a concerted and historically unparalleled effort to dramatically upgrade China's capacity to engage in indigenous innovation As a result China's National Innovation System has been growing and strengthening at a pace much faster than that of the national economy as a whole The book also presents a speculative and provisional perspective on the validity and meaning of the claim that the country's socioeconomic system is indeed a form of socialism with Chinese characteristics It will be of interest to students and scholars researching China politics and development economics
