Social Order Of The Slum Ethnicity And Territory In The Inner City:

The Social Order of the Slum Gerald D. Suttles, 1968 While he did the research for this book Gerald Suttles lived for almost three years in the high delinquency area around Hull House on Chicago's New West Side He came to know it intimately and was welcomed by its residents who are Italian Mexican Puerto Rican and Negro Suttles contends that the residents of a slum neighborhood have a set of standards for behavior that take precedence over the more widely held moral standards of straight society These standards arise out of the specific experience of each locality are peculiar to it and largely determine how the neighborhood people act One of the tasks of urban sociology according to Suttles is to explore why and how slum communities provide their inhabitants with these local norms The Social Order of the Slum is the record of such an exploration and it defines theoretical principles and concepts that will aid in subsequent research

City, Street and Citizen Suzanne Hall, Suzanne M. Hall, 2012 How can we learn from a multicultural society if we don't know how to recognise it The contemporary city is more than ever a space for the intense convergence of diverse individuals who shift in and out of its urban terrains The city street is perhaps the most prosaic of the city's public parts allowing us a view of the very ordinary practices of life and livelihoods By attending to the expressions of conviviality and contestation *City Street and Citizen* offers an alternative notion of multiculturalism away from the ideological frame of nation and away from the moral imperative of community This book offers to the reader an account of the lived realities of allegiance participation and belonging from the base of a multi ethnic street in south London *City Street and Citizen* focuses on the question of whether local life is significant for how individuals develop skills to live with urban change and cultural and ethnic diversity To animate this question Hall has turned to a city street and its dimensions of regularity and propinquity to explore

interactions in the small shop spaces along the Walworth Road The city street constitutes exchange and as such it provides us with a useful space to consider the broader social and political significance of contact in the day to day life of multicultural cities Grounded in an ethnographic approach this book will be of interest to academics and students in the fields of sociology global urbanisation migration and ethnicity as well as being relevant to politicians policy makers urban designers and architects involved in cultural diversity public space and street based economies *The Price of Poverty* Dan

illuminates the crucial role that consumption has had in shaping the ethnic culture and diasporic identities of Italians in America. It also illustrates vividly why and how those same identities incorporated in commodities, commercial leisure and popular representations have become the object of desire for millions of American and global consumers. This compelling and innovative volume captures the complexities of the pivotal role of consumption in the historical formation of transnational Italian American taste, positing a distinctive diasporic consumer culture that continues its importance today. Richly interdisciplinary, the collection represents an exciting new resource for scholars and students alike. Marilyn Halter, Boston University

Beyond C. L. R. James, John Nauright, Alan G. Goble, David K. Wiggins, 2014-11-01 *Beyond C. L. R. James* brings together essays analyzing the interconnections among race, ethnicity and sport. Published in memory of C. L. R. James, the revolutionary sociologist and writer from Trinidad who penned the famous autobiographical account of cricket titled *Beyond a Boundary*, this collection of essays, many of which originated at the 2010 conference on race and ethnicity in sport at the University of West Indies, Cave Hill in Barbados, cover everything from Aborigines in sport and cricket and minstrel shows in Australia to Zulu stick fighting and football and racism in northern Ireland. The essays, divided into four sections that include introductory comments by each editor, are written by some of the more well-known sport historians in the world and characterized by a focus on the role of culture and sport in society in the context of both political economies and the state, as well as colonial and postcolonial struggles. Included also are discussions on how sport at once brings people together, shapes the identities of its participants and reflects the continuing search for social justice.
