**International Women's Rights Cases** Robyn Emerton, Kirstine Adams, Andrew Byrnes, Jane Connors, 2016-09-17 The last two decades have seen major advances in the legal protection of the human rights of women around the world A series of international and national court cases has developed an important body of

jurisprudence that has been relied on by courts and advocates in many countries to support women's claims for equality and the full enjoyment of human rights and fundamental freedoms. Growing out of a series of judicial colloquia organized by the Commonwealth Secretariat, this compilation brings together a selection of over fifty significant cases from international and national courts. The cases are grouped by theme and presented in full text or edited format. Together they highlight the way in which courts have used international human rights norms and national constitutional standards to contribute to women's equality. A detailed introduction provides a summary of the significance of the cases and references further material available on women's human rights. Cases decided under United Nations human rights treaties, the European and American Conventions on Human Rights and other international instruments as well as cases decided by national courts in Asia, Africa, Europe, Australasia and North America are all included. The compilation will be of interest to all those with an interest in the advancement of the human rights of women, especially equality advocates, lawyers and judges, scholars and students.

**A History of Human Rights in Canada** Janet Miron, 2009. Human rights, equality and social justice are at the forefront of public concern and political debate in Canada. Global events, especially the war on terrorism, have fostered further interest in the abuse of human rights, especially when sanctioned or perpetuated by democratic governments. This groundbreaking contributed volume seeks to shed light on this topic by uniting original essays that examine the history of human rights in Canada. Contributors explore a variety of themes integral to the post-confederation period, including immigration and ethnicity, gender, sexuality, class, disability, state formation and provincial-federal relations. Three key issues emerge throughout incidents of discrimination in both government and society: the efforts of human rights and civil liberties activists to create a more open and tolerant society and the implementation of state legislation designed to protect or enhance civil rights.
