Social Psychology An Attributional Approach:

Social Psychology John H. Harvey, William P. Smith, 1977 **Social Psychology : an Attributional Approach** J. H. Harvey, 1977 **Handbook of Social Psychology: Theory and method** Gardner Lindzey, Elliot Aronson, 1985 **An Attributional Theory of Motivation and Emotion** Bernard Weiner, 2012-12-06

For a long time I have had the gnawing desire to convey the broad motivational significance of the attributional conception that I have espoused and to present fully the argument that this framework has earned a rightful place alongside other leading theories of motivation. Furthermore, recent investigations have yielded insights into the attributional determinants of affect thus providing the impetus to embark upon a detailed discussion of emotion and to elucidate the relation between emotion and motivation from an attributional perspective. The presentation of a unified theory of motivation and emotion is the goal of this book. My more specific aims in the chapters to follow are to

- 1 Outline the basic principles that I believe characterize an adequate theory of motivation
- 2 Convey what I perceive to be the conceptual contributions of the perspective advocated by my colleagues and me
- 3 Summarize the empirical relations, reach some definitive conclusions and point out the more equivocal empirical associations based on hypotheses derived from our particular attribution theory and
- 4 Clarify questions that have been raised about this conception and provide new material for still further scrutiny.

In so doing, the building blocks if any laid down by the attributional conception will be readily identified and unknown jurisdictions of present and future peers can then better determine the value of this scientific product.

Social Psychological Approaches to Responsibility and Justice V. Lee Hamilton, 1992 **Blackwell Handbook of Social Psychology** Abraham Tesser, Norbert Schwarz, 2008-04-15

This volume on intraindividual processes is one of a set of four handbooks in the social psychology field and covers social cognition, attitudes and attribution theory. Includes contributions by academics and other experts from around the world to ensure a truly international perspective. Provides a comprehensive overview of classic and current research and likely future trends. Fully referenced chapters and bibliographies allow easy access to further study. Motivation - Mechanisms of the Mind and their Quest for Expression Menno A. Mennes, 2025-10-01

This volume presents a first introduction to a thought-provoking Model of Motivation developed by Menno Mennes over a period of almost thirty years. The Model of Motivation in its approach presents a radical departure from everything that has appeared so far in literature on the subject. And yet it provides a surprisingly detailed account of how motivation works which appears to be supported by findings from theories and research from current literature. In an unparalleled analysis, the Model seamlessly integrates these major theories into a consistent comprehensive approach to motivation, explaining not only the essentials of each theory but also providing explanations for controversies that have hitherto remained largely unresolved. Motivation appears to be an inner dialogue, a stepwise partly cyclical Process in which we deal with our surroundings that often interfere

in our ambitions our wishes and desires Deep personal insights into those Mechanisms of the Mind reveal implications that may lead to a fundamental new understanding of the origins of many disturbing issues we witness in present day society including neglect and denial intolerance discord and polarization

Advanced Personality David F. Barone, Michel Hersen, Vincent B. Kinney, Maili Pörhölä, 2009

This is an interdisciplinary resource guide for scholars researchers graduate students and advanced undergraduates who study aspects of communication and relationships It brings together essays by an array of scholars currently working in the areas of anti and pro social communication to examine the theories methodologies and applied issues that define communication research broadly Each chapter focuses on a different aspect of communication examining how and why it affects our perceptions relationships health and social behavior Social Cognition Gordon B. Moskowitz, 2013-12-09 An ideal text for undergraduate and graduate level courses this accessible yet authoritative volume examines how people come to know themselves and understand the behavior of others Core social psychological questions are addressed as students gain an understanding of the mental processes involved in perceiving attending to remembering thinking about and responding to the people in our social world Particular attention is given to how we know what we know the often hidden

ways in which our perceptions are shaped by contextual factors and personal and cultural biases While the text s coverage is sophisticated and comprehensive synthesizing decades of research in this dynamic field every chapter brings theories and findings down to earth with lively easy to grasp examples *Life Crises and Experiences of Loss in Adulthood* Leo Montada,Sigrun-Heide Filipp,Melvin J. Lerner,2014-01-14 A result of a conference at the University of Trier Germany this volume mirrors its goals to provide an overview of recent advances in research on critical life events and the losses associated with them to collect and stimulate new perspectives for the analysis of these events to compare the psychology of victims experiencing stress and losses with the psychology of observers in their reactions to victims Designed to prevent developmental psychological myths in the area of life crises this collection questions on an empirical basis the adequacy of several widespread generalizations At the same time its contributors attempt to draw paths to conceptualizations and theories in general psychology and social psychology which promise to be helpful in analyzing and interpreting phenomena in the field of life crises **Social Comparison** Jerry Suls,Thomas Ashby Wills,2024-05-01 Assessment of abilities opinions and overall feelings of self worth are commonly acknowledged to be influenced by how ones attributes compare with those of other people In contemporary social psychology this process is known as social comparison or interpersonal comparison Originally published in 1991 this volume presents the most recent developments in this field of study at the time As described in the chapters the theory has gone through several iterations taken on new problems and research paradigms and reached out to other social psychological areas of study Some of this research addresses questions that are logical extensions of Festinger s theory some consider questions that derive from entirely different ways of construing the comparison process from Festinger s original approach Although all questions are not settled the work presented here shows how far the original social comparison theory has evolved and suggests where the next insights are likely to be found Today it can be read in its historical context **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1978

Self-Handicapping Raymond L. Higgins,C.R. Snyder,Steven Berglas,2013-11-11 The concept of self handicapping can be legitimately anchored in a variety of intellectual contexts some old and some newer As this volume reminds us Alfred Adler was perhaps the first to articulate the significance of various self defeating claims and gestures for protecting the self concept Thus the apparent paradox of defeat in the interests of protection More recently but still more than 30 years ago Heider s naive psychology added attributional rhetoric to the description of self defeating strategies While predominantly cognitive in its thrust the attributional approach incorporated several motivational influences especially those involving egocentric concerns Heider hardly violated our common sense when he suggested that people are inclined to attribute their performances in a self serving manner the good things I caused the bad things were forced upon me The notion of self handicapping strategies proposed by Berglas and myself a little more than a decade ago capitalized on these homely truths while adding a particular proactive twist We not only make excuses for our blunders we plan our engagements and our

situational choices so that self protective excuses are unnecessary In doing so we use our attributional understanding to arrange things so that flawed and failing performances will not be interpreted in ways that threaten our self esteem

Motivating Students to Learn Jere E. Brophy, 2010-05-26 Written specifically for teachers this book offers a wealth of research based principles for motivating students to learn Its focus on motivational principles rather than motivation theorists or theories leads naturally into discussion of specific classroom strategies Throughout the book these principles and strategies are tied to the realities of contemporary schools and classrooms The author employs an eclectic approach to motivation that shows how to effectively integrate the use of extrinsic and intrinsic strategies Guidelines are provided for adapting motivational principles to group and individual differences and for doing repair work with students who have become discouraged or disaffected learners
