Social Relations In The Urban Parish:

Social Relations in the Urban Parish Joseph Henry Fichter, 1954 *Social Relations in the Urban Parish* Joseph Henry Fichter (SI), 1953 [Social relations in the urban parish](#) Joseph Henry Fichter, 1968 **Social Relations in the Urban Parish** Joseph H. Fichter (s.j.), 1954 **Social Relations in the Urban Parish**, 1960 *Urban Exodus* Gerald Gamm, 2001-03-16 Across the country white ethnics have fled cities for suburbs But many have stayed in their old neighborhoods When the busing crisis erupted in Boston in the 1970s Catholics were in the forefront of resistance Jews 70 000 of whom had lived in Roxbury and Dorchester in the early 1950s were invisible during the crisis They were silent because they departed the city more quickly and more thoroughly than Boston s Catholics Only scattered Jews remained in Dorchester and Roxbury by the mid 1970s In telling the story of why the Jews left and the Catholics stayed Gerald Gamm places neighborhood institutions churches synagogues community centers schools at its center He challenges the long held assumption that bankers and real estate agents were responsible for the rapid Jewish exodus Rather according to Gamm basic institutional rules explain the strength of Catholic attachments to neighborhood and the weakness of Jewish attachments Because they are rooted territorially defined and hierarchical parishes have frustrated the urban exodus of Catholic families And because their survival was predicated on their portability and autonomy Jewish institutions exacerbated the Jewish exodus Gamm shows that the dramatic transformation of urban neighborhoods began not in the 1950s or 1960s but in the 1920s Not since Anthony Lukas s *Common Ground* has there been a book that so brilliantly explores not just Boston s dilemma but the roots of the American urban crisis [Readings in the Sociology of Religion](#) Joan Brothers, A. H. Richmond, 2016-07-02 [Readings in the Sociology of Religion](#) [Urban Church Planning](#) Walter Kloetzli, Arthur Hillman, 1958 *The Living Church*, 1946 **The Good Women of the Parish** Katherine L. French, 2013-02-12 There was immense social and economic upheaval between the Black Death and the English Reformation and contemporary writers often blamed this upheaval on immorality singling out women s behavior for particular censure Late medieval moral treatises and sermons increasingly connected good behavior for women with Christianity and their failure to conform to sin Katherine L French argues however that medieval laywomen both coped with the chaotic changes following the plague and justified their own changing behavior by participating in local religion Through active engagement in the parish church the basic unit of public worship women promoted and validated their own interests and responsibilities Scholarship on medieval women s religious experiences has focused primarily on elite women nuns and mystics who either were literate enough to leave written records of their religious ideas and behavior or had access to literate men who did this for them Most women however were not literate were not members of religious orders and did not have private confessors As *The Good Women of the Parish* shows the great majority of women practiced their religion in a parish church By looking at women s contributions to parish maintenance the ways they shaped the liturgy and church seating arrangements and their increasing opportunities for

collective action in all women's groups the book argues that gendered behavior was central to parish life and that women's parish activities gave them increasing visibility and even on occasion authority In the face of demands for silence modesty and passivity women of every social status used religious practices as an important source of self expression creativity and agency

History of Wills, Testators and Their Families in Late Medieval Krakow Jakub Wyszynski, 2021-06-22 This volume offers the first comprehensive analysis of wills in late medieval Krakow It presents the origins of testamentary acts in the Kingdom of Poland and its centre Krakow and their subsequent transformation from so called canonical wills to communal wills Wyszynski discusses the socio cultural role of wills and sets them in their contemporary legal social and economic context In doing so he uncovers their influence on property ownership and family relations in the city as well as on the religious practices of the burghers Ultimately this work seeks to change the perception of wills by treating the testamentary act itself as an important agent of historical social change a tool of power

Urban Diaspora Jette Linde, 2021-01-13 This is a book on the rise and fall of diasporic communities in Early Modern urban centers in Denmark and Sweden It contains 17 chapters written by archaeologists historians and scientists ranging from in depth studies of artefacts biofacts and archaeological features to large scale analyses of community formation among natives and migrants of multiple origins The plethora of sources and approaches afforded by the numerous disciplines involved enables a significant new insight into the creation and recreation of migrant communities in these Early Modern towns

Mission Among the Blackfeet Howard L. Harrod, 1975-10-01 As the once vital world of the Blackfoot Indians crumbled in the face of advancing white civilization shrinking buffalo herds and the ravages of smallpox yet another blow was struck at its social and religious foundations with the arrival of the Christian missionaries both Protestant and Catholic In this book the author recounts the history of the missions and their impact on the Blackfeet from their founding in the 1840 s to the present day He has drawn upon much previously unpublished material to recapture the tribe's proud and tragic moments the sometimes equally tragic fate of the missionaries and the effects of shifting governmental and denominational policies upon both groups

Religion, Spirituality and Everyday Practice Giuseppe Giordan, William H. Swatos, Jr., 2011-08-14 The current generation of young adults at least in the Western world has shown a marked tendency toward a preference for describing themselves as spiritual as contrasted to religious This book seeks to examine the possible meanings and consequences associated with this contrast in terms of the similarities and differences that affect those who use these terms with respect to the everyday practices that they themselves employ or believe should follow from being self defined as religious or spiritual or not The several chapters in this volume take up the religious spiritual contrast specifically through investigations into practice In what ways do people who claim to be religious or spiritual define these self images as manifest in their own lives How on a daily basis does a

person who considers himself or herself religious or spiritual live out that self image in specific ways that she or he can describe to others even if not share with others Are there ways that being spiritual can involve religion or ways that being religious can involve spirituality and if so how do these differ from concepts in prior eras e g Ignatian spirituality Orthodox spirituality Anglican spirituality etc We also explore if there are institutions of spiritual practice to which those who term themselves spiritual turn or if the difference implied by these terms may instead be between institutionalized and de institutionalized expressions of practice including but not limited to self spiritualities
