## **Social Rights In Europe:**

**Social Rights in Europe** Gráinne De Búrca, Bruno de Witte, Larissa Ogertschnig, 2005 Social rights while traditionally the neglected sibling within the human rights family have been prominent on the agenda in Europe in recent years The debate over the justiciability of social rights in the EU's Charter of Fundamental Rights and the revision of the Council of Europe's European Social Charter have contributed in different ways to this prominence The chapters in this book examine these recent developments and discuss some of the current dilemmas and challenges for the system of protection of social rights in Europe The collection moves deliberately beyond the traditional focus on labour rights to consider other social rights which are seen to be of growing importance such as health and disability in particular Writers who are familiar with and in some cases who have worked within the various European systems assess different aspects of their functioning including their respective mechanisms for monitoring and enforcement The relationship between the two main systems of protection of social rights The EU Charter of Fundamental Rights and the European Social Charter is considered both in a chapter on the possibility for future accession of the EU to the ESC as well as through a series of case studies on the right to work to health to freedom from discrimination and the rights of the disabled This approach allows reflection on the respective strengths and weaknesses of these two systems and the existing tensions and synergies between them *The Protection of Fundamental Social Rights in Europe Through the European Social Charter* Council of Europe, Council of Europe. three major human rights bodies on the level of the Council of Europe and the European Union It thus offers not only an excellent picture of the main lines of interpretation but also of the major gaps and challenges for the realisation of children's social rights in Europe European Social Charter European Committee of Social Rights, Council of Europe, 2004-01-01

**Access to Social Rights for People with Disabilities in Europe** Council of Europe. continent as they deal with increasing expansion complexity multidimensionality and interpenetration of their human rights activities The authors also identify the central challenges particularly for the UK in the post Brexit era where the components of each system need to be carefully distinguished and disentangled

**EU Policies in a Global Perspective** Gerda Falkner, Patrick Müller, 2013-11-20 Recent decades have seen a rise in the significance of governance layers beyond the nation state and even Europe Nonetheless few efforts have been made thus far to systematically examine the EU's interaction with global policy regimes This book maps the relative importance of EU policies in the multi level global governance system in comparison with national and global activities It provides a unique comparative analysis of the EU's capacity for projecting its policies outward Focusing on trade policy agriculture food safety competition social rights environmental policy transport migration nuclear non proliferation or financial regulation each chapter contributes to a better understanding of the EU's role in shaping global policies the mechanisms it uses and the conditions leading to success or failure The contributors' comparative research highlights that policy export is a demanding phenomenon that faces severe limitations and frequently comes with drawbacks Still EU policy export played a key role in shaping the rules of the global trade regime and influenced global policy outcomes at least to a minor extent or in technical aspects in the majority of the covered policy areas Overall however this book reveals that the EU not only aims to export its policies but interacts with its global environment in a number of distinct ways including policy import and policy protection to shield it from global pressures Concluding with a comparison of all policies on the meta level and relevant policy recommendations this book will be of interest to students scholars and practitioners of European politics European public policy global governance and international relations
