

## Scandinavian Social Security: Comparative and International Perspective

Topic: Sociology | Words: 658 | Pages: 2

Welfare initiatives have become the primary tools that modern developed governments use to combat economic disparities. In this context, the case of Scandinavian countries, namely Sweden, is actively discussed as an excellent example of effective welfare policies. According to Szebehely (2018), the primary purpose of Scandinavian social security initiatives is to enable the citizens' freedom of actions. The welfare program aims to establish a sense of social stability, meaning that residents of the country should have sufficient resources to be fully integrated in their communities. Szebehely (2018) determines two primary avenues of the policy's impact on Swedish citizens. From one perspective, families receive sufficient support that allows parents to develop their educational or professional expertise without compromising on the children's quality of life. This principle corresponds with the American vision of TANF, that sees welfare as additional stimulus and not a replacement of traditional income. On the other hand, Swedish initiatives also promote children's development through effective pedagogical interventions. The purpose of them is to prepare younger citizens for full social and economic integration that will allow them to ensure their well-being early in adulthood.

Similarly to TANF, Swedish welfare policies promote agency and eventual independence of the citizens. However, amid the current surge in migration processes, Dahlstedt and Neergaard (2019) report an increase in xenophobic attitudes in Sweden. According to them, older welfare

## **Social Security A Nonbiblical Perspective:**

**Social Security** Mark Shemtob, 2005-06      *Perspectives on Eternal Security* Kirk R. MacGregor, Kevaughn Mattis, 2009-05-07

Eternal security or personal assurance of final salvation constitutes the single most important matter of practical theology in the Christian tradition. For the past twenty centuries no other doctrine has exerted such a direct impact on the lives of lay Christians driving their daily actions, guiding their permanent choices and shaping their psychology. From the New Testament period onward a diversity of views on biblical interpretation, anthropology and divine sovereignty have produced numerous models of eternal security. However, due to the early modern fracturing of Protestant thought along Reformed and Arminian lines, today most evangelicals equate eternal security with Calvin's perseverance of the saints. In an ecumenical vein, this collection of essays aims to remedy the knowledge gap by bringing a breadth of biblical, historical and philosophical perspectives to bear on the question of eternal security. These essays comprise the first print anthology from the online theological journal *Testamentum Imperium*, an international forum founded and edited by Kevaughn Mattis, featuring scores of first-rate articles from Christian thinkers worldwide on the topic of eternal security. This book therefore analyzes Calvin's model of perseverance alongside views on eternal security ranging historically from Clement of Rome to contemporary developments in philosophical theology and process theology. Furthermore, this book explores and strengthens the biblical roots of eternal security through an illuminating host of thematic studies on whole books and exegetical studies on particular passages. Hence, this volume will profit all who are interested in the scriptural foundations and historical outworkings of eternal security.

**A SCENARIO of the THOUGHTs OF HUMANKIND & its POWERS** Charlene Ivory-Baba Ph.D. in Theology, 2023-06-22

People of faith ask the question: what does it mean to be religious? There are so many religions or philosophies which make it hard to choose the right one, even if that is possible. Thus, selecting the right religion takes a person to perform research and obtain knowledge to determine what it means to be a genuinely religious person and what faith in God through religion means. There are three parts of this book to help enlighten your thoughts about understanding religion and spiritual faith. The book examined humankind's minds and choices made under different influences or choices and without being influenced. As human beings, we are influenced to make choices that might be right or might be wrong that can be helpful in some ways or harmful in others. This book aims to see how the mine materialized and the pushing factors that assist our decision making.

Security after Christendom John Heathershaw, 2024-02-13

We live in the wealthiest and most heavily defended world in history, so why do we feel so insecure? In a secular world, what does Christian theology have to say about this problem? *Security after Christendom* combines practical examples, social scientific research and an ecumenical approach to political theology to answer these questions. It argues that Christendom was a plural phenomenon of imagined security communities of East and West whose unravelling continues to have implications for global politics today, as dramatically illustrated by Russia's war in Ukraine. While notions of a new Christendom are idolatrous and

delusional secular imaginaries of national security or the liberal international order are both destructive and unstable True security radical inclusion nonviolent protection and abundant provision is an eschatological phenomenon inaugurated by Christ Security after Christendom is neither found in faithful government nor an exclusive church as polis approach but in relations of tension where the fallen powers are continuously confronted by prophetic practices A post Christendom community expresses its love for the world by seeking its security providentially limiting the disorders of the secular age and offering glimmers of a new earth

*Perspectives on theology of religions* Jaco Beyers, Piet J. van der Merwe, Wilhelmina Magdalena Shaw, Ronald Allen Baatsen, Johannes Janse van Rensburg, Tessa Freeman, 2017-11-23

In the public theology discourse the concept public square has become significant In today's multicultural and globalised world it is inevitable that people with different religious affiliations will encounter one another in the public square Public theology cannot but become theology of religions Scholars in the field of religion studies are compelled to reflect theologically on the relevance of religiosity in the postmodern secular world The term theology of religions refers to the academic inquiry into the relationship between religions The collected essays constitute such an inquiry In the end it is not so much about the encounter of religions but rather of people Religion is no longer regarded as a monolithic body of beliefs and practices The authors concede that the concept religion is too fluid to be delineated precisely The book's approach to the relationship between religions i.e. theology of religions reflects how the authors understand the origin and nature of religion a theology of religion in the singular This book focuses more on theology of religions plural than on theology of religion singular The main objective of the book is to present a variety of perspectives on how theology of religions manifested in different contexts This includes historical i.e. Luther's theology of religions and the Roman Catholic position on other religions as taken by Vatican II as well as cultural and religious perspectives In the first chapter the editor gives a brief overview of the development of the discipline of theology of religions The postmodern era is characterised by an almost non-foundational approach The second chapter traces the development of the discipline in the Roman Catholic tradition in particular This contribution is based on the insights of P. J. van der Merwe 1944-2014 who as researcher and Head of the Department of Science of Religion and Missiology at the University of Pretoria developed a specific theological position on non-Christian religions A whole generation of theologians was trained in this school of thought He passed away in 2014 and this publication pays tribute to his life's work on religions and their relations The contributions that follow are the culmination of the research of postgraduate students at the University of Pretoria The third chapter presents a perspective on the Reformation with a particular focus on Martin Luther In this year of the quincentenary anniversary of the Reformation the legacy of Reformed belief is highlighted The fourth chapter describes the relationship between Christianity and Islam from the perspective of a willingness to embrace The fifth chapter analyses the relation between Christianity Judaism and Islam from the perspective of intergroup threat theory A model for theology of religions in a South African context is developed in the sixth and final

chapter This scholarly book pays tribute to the academic contribution of P J van der Merwe mentor of the authors of these multifaceted reflections on theology of religions The target audience is specialists in the field of religion studies The distinctive contribution of the book is the innovative perspectives on the relationship between Islam and Christianity in both the Roman Catholic and Protestant contexts *The God-Given Land.
