Multimedia Explorations in Urban Policy and Planning Leonie Sandercock, Giovanni Attali, 2010-04-10 The book is a collection of essays exploring the potential of multimedia to enrich and transform the planning field By multimedia the authors refer to a broad range of new information and communication technologies from film and video to digital ethnography and the internet which are opening up new possibilities in planning practices processes pedagogy and research The authors document the ways in which these ICTs can expand the language of planning and the creativity of planners can evoke the lived experience the spirit memories desires of our 21st century mongrel cities by engaging with stories and storytelling and can democratise planning practices The text is epistemologically radical in presenting an argument for the importance of multiple languages ways of knowing in the planning field and making the connection between this epistemology and the almost infinite potential of Multimedia to provide varied tools to accomplish this transformation displacing the supremacy of the rational linear and hierarchical with more open playful and imaginative approaches Each of the authors brings practical experience with different forms of Multimedia use and reflects on the different potentialities offered by Multimedia for critical intervention in urban and regional issues and the power dynamics

embedded in such interventions **The U.S. Supreme Court's Democratic Spaces** Jocelyn J. Evans, Keith Gaddie, 2021-10-28 Atop broad stone stairs flanked by statues of ancient lawgivers the U S Supreme Court building stands as a shining temple to the American idea of justice As solidly as the building occupies a physical space in the nation s capital its architecture defines a cultural social and political space in the public imagination Through these spaces this book explores the home of the most revered institution of U S politics its origin history and meaning as an expression of democratic principles The U S Supreme Court building opened its doors in 1935 Although it is a latecomer to the capital the Court shares the neoclassical style of the older executive mansion and capitol building and thus provides a coherent architectural representation of governmental power in the capital city More than the story of the construction of one building or its technical architectural elements The U S Supreme Court s Democratic Spaces is the story of the Court s evolution and its succession of earlier homes in Washington D C Philadelphia and New York This timely study of how the Supreme Court building shapes Washington as a space and a place for political action and meaning yields a multidimensional view and deeper appreciation of the ways that our physical surroundings manifest who we are as a people and what we value as a society *Future Visions of Urban Public Housing (Routledge Revivals)* Wolfgang F. Retrofitting the City Stefan Bouzarovski, 2015-11-25 Cities are responsible for three quarters of the world s energy consumption If we are to reduce our demands on the planet s resources how can we make our urban areas more energy efficient One way is to refit existing buildings with more thermally efficient building materials But such retrofitting involves significant issues of social acceptance and public participation Retrofitting the City provides an important corrective to the

assumptions that have been made concerning the ability of people and places to cope with such residential transformation Drawing upon case studies from a number of European cities that have undergone far reaching change in their built environments the author shows that supposedly inadaptatable people and places show a strong if often hidden degree of flexibility in responding to economic change and building transformation

The Informal City Michel S. Laguerre, 2016-07-27 In this book Michel S Laguerre argues that there exists an informal city located just beneath and in the interstices of the formal city The metaphor is not geographical but rather structural and hermeneutical This is the city where manoeuvres that cannot be done publicly legally ethically or otherwise are performed The author shows with illustrative data drawn from the American urban experience the San Francisco Oakland Metropolitan area why and how the informal city must be seen as the hidden dimension of the formal city

User needs by Systematic Elaboration (USE) Wim Heijts,2022-06-30 The design of a building can facilitate the process of use and promote the well being of users if it meets their needs Knowledge of user needs and processes of use is important for a good design However it is not self evident what these user needs really are how user needs and processes of use can be researched and how that knowledge can be used in a design This book introduces an integrated methodology for the analysis of user needs programming and evaluation that answers these questions The purpose is to improve the interaction between the users and their environment and to avoid failure costs by facilitating proper design decisions The theoretical perspective and the conceptual framework originate from environmental psychology more specifically P E fit theory The target group consists of those who are interested in creating environments for people designers users real estate managers students and scientific staff Designers are a special audience for whom the book can be a guide to working for and with users The theoretical perspective and the conceptual framework can also be relevant for scientific research into the interaction between users and buildings **Design by Competition** Jack L. Nasar,1999-02-28 What meanings do buildings and places convey to the people who use and visit them Too often design competitions and signature architecture result in costly eyesores that do not work How can sponsors and clients get more meaningful results In answer to these questions Dr Nasar supported by riveting studies of competitions and Peter Eisenman s competition winning design for the Wexner Center at the

Ohio State University suggests the use of pre jury evaluation PJE He shows the potential value of this approach as well as visual quality programming for many kinds of environmental design for which the client wants to convey certain desirable meanings The studies from those specific to the Wexner Center to those covering the scope of history point to an alternative method for shaping the visual form of buildings places and cities
