many people the location for their most intense relationships with visual things Because they are constructed through the objects we choose domestic spaces are deeply revealing of a range of cultural issues How is our interpretation of an object affected by the domestic environment in which it is placed Why choose a stainless steel teapot over a leopard print one How do the images hanging on the walls of our homes arrive there In placing contemporary art in the context of the ordinary home this book embarks on the contentious topic of whether high art impacts on ordinary people What is the size and nature of the audience for contemporary art in Britain Do people really visit more art galleries than attend football matches What is the significance of the home in relation to such questions Indeed what constitutes art in the home This book carefully unpicks these questions as well as the troubled relationship between the home as a place of comfort and reassurance and the often unsettling and challenging images offered by contemporary art Within the art world the home has been addressed as a

subject and even used as a temporary gallery and a space for installations and yet it is not common for works by today's avant garde artists to be conceived and marketed to participate in the domestic lives that most people live. Handsomely illustrated, this book unites contemporary art, craft and design with sociology, anthropology and cultural studies to provide an unusual and forthright addition to ongoing art and culture debates. **Modern Art and the Life of a Culture** Jonathan A.

Anderson, William A. Dyrness, 2016-05-23 In 1970 Hans Rookmaaker published *Modern Art and the Death of a Culture*, a groundbreaking work that considered the role of the Christian artist in society. This volume responds to his work by bringing together a practicing artist and a theologian who argue that modernist art is underwritten by deeply religious concerns.

Featuring forty-eight essays and written by a panel of expert contributors, it introduces readers to the key approaches and analytical tools of contemporary art study and debate. **A History of Chinese Art in the 20th and 21st**

Century Lü Peng, 2025-02-03 This book situates the development of 20th and 21st century Chinese art in such fundamental contexts as Chinese politics and social change and is ideally suited for readers to understand the particularities of Chinese art that are distinct from Western art history. Such an approach is appropriate to the understanding of the development of modern Chinese art which differs from both the Western approach to art history and the approach to traditional Chinese art which is limited to the combining of ink and brush heritage and ideological traditions. Based on the scale and influence of historical works, considering the specificity of the term involving fine art in China and the scope of influence of the phenomenon of fine art in the cultural field, this book's study of the phenomena of painting, sculpture, photography, video and mixed media art follows two linear time lines of historical relevance: 1949-1978 and 1978 to the present. Special attention is paid to the development of modern and contemporary art after 1978. The main readers of this book are undergraduate students in art schools, graduate and doctoral students in art history, students in other humanities disciplines, experts and professors in the study of 20th century Chinese art and cultural history should be important readers of this book. **Modern**
