Service Sociology and Academic Engagement in Social Problems A. Javier Treviño, Karen M. McCormack, 2016-04-01 This book challenges sociologists and sociology students to think beyond the construction of social problems to tackle a central question What do sociologists do with the analytic tools and academic skills afforded by their discipline to respond to social problems Service Sociology posits that a central role of sociology is not simply to analyse and interpret social problems but to act in the world in an informed manner to ameliorate suffering and address the structural causes of these problems This volume provides a unique contribution to this approach to sociology exploring the intersection between its role as an academic discipline and its practice in the service of communities and people With both contemporary and historical analyses the book traces the legacy characteristics contours and goals of the sociology of service shedding light on its roots in early American sociology and its deep connections to activism before examining the social context that underlies the call for volunteerism community involvement and non profit organisations as well as the strategies that have promise in remedying contemporary social problems Presenting examples of concrete social problems from around the world including issues of democratic participation poverty and unemployment student involvement in microlending disaster mitigation the organization and leadership of social movements homelessness activism around HIV AIDS and service spring breaks Service Sociology and Academic Engagement in Social Problems explores the utility of public teaching participatory action research and service learning in the classroom as a contribution to the community

Civic Engagement of Asian American Student Leaders Ma. Glenda Lopez Wui, Cameron S. White, 2022-11-23 Civic Engagement of Asian American Student Leaders examines the civic lives of Asian American youth and analyzes their civic engagement through in depth interviews with fifteen student leaders from a Tier One university in Southeast Texas This book provides a counter narrative to the portrayal of Asian Americans as apolitical and less interested in civic matters Such depictions arise from the characterization of Asian Americans as model minority who mainly focus on economic success and are socially and economically integrated in American society However the stories of the student leaders cultivated by Ma Glenda Lopez Wui and Cameron S White illustrate that their challenging racialized experiences inspired their civic involvement Their civic engagement creates empowerment in terms of asserting their ethnic identity imbibing leadership qualities and long term commitment to civic engagement and subverting stereotypes against Asian Americans The book paints a more varied picture of Asian American

youth civic engagement that is not entirely anchored in ethnic identity or non political involvement contrary to articulations of existing studies Wui and White hope that the student leaders narratives shed better light on the civic commitments of Asian Americans to American society especially in these times when there is increased bias and racial prejudice in the current atmosphere and culture
