The New Georgia Gachechiladze, Revaz, Revaz Gachechiladze Tbilisi State University, Georgia., 2014-01-17 A comprehensive book on the social and political geography of one of the most distinctive newly independent States to emerge from the collapse of the Soviet Union Being one of the most developed Soviet republics in terms of levels of welfare education and cultural activity Georgia is fiercely defending its national self identity and striving for independence The difficult process of building a nation State and of concurrent dramatic social changes has led in the 1990s to serious complications in its development even to the point of several civil wars But there are signs that the crisis will be overcome before long

Modelling the City C. S. Bertuglia, G. P. Clarke, A. G. Wilson, 2012-08-21 Modelling the City examines the changing role of urban models in respect to both the need to readdress measures of urban well being and the perceived need to bring model outputs more in tune with key planning problems The authors argue that whilst there has been substantial progress with a wide range of theoretical problems in urban modelling modellers have not paid enough attention to the usefulness of their model outputs in terms of indicators which offer new insights into the workings of the city or region Modelling the City offers a new geography of performance indicators for the public and private sector based on the principles of spatial interaction

Butler, 2003-08-01 *Working Capital* Nick Buck, Ian Gordon, Peter Hall, Michael Harloe, Mark Kleinman, 2013-09-13 For decades the cities of the developed world were seen as problem beset relics from times of low mobility and slow communications But now their potential to sustain creativity culture and innovation is perceived as crucial to success in a much more competitive global economy The vital requirement to secure and sustain this success is argued to be the achievement of social cohesion Working Capital provides a rigorous but accessible analysis of these key issues taking London as its test case The book provides the first substantial analysis of key economic social and structural issues that the new London administration needs to deal with In a wider context its critical assessment of the bases of the new urbanism and of the global city thesis will raise questions both about the adequacy of urban thinking and about the capacity of new institutions alone to resolve the fundamental problems faced by cities *Community Life* Graham Crow, Graham Allan, 2014-06-06 First published in 1994 The sociology of community is currently undergoing something of a revival and this book has been written with the aim of contributing to this process in a number of ways First of all it draws

attention to the burgeoning literature on sociological aspects of community life Secondly its bring together the various studies considered here into a more coherent whole than they possess as simply a collection of separate pieces of research

Nadezhda Krupskaya and the New View of Radical Society in Russia M. A. Iasilli, 2024-06-25 The Russian Revolution is typically studied from a perspective of power and authority The shadow of Communism tends to portray the revolutionary character of 1917 as an ominous path toward totalitarianism While the revolutionary story has been overshadowed by the authoritarianism of Stalinist regimes the Revolution has much more complex underpinnings that tie back to the nineteenth century Russian populist movement and the women who were drawn into it Nadezhda Krupskaya and the New View of Radical Society in Russia reexamines the fundamental ideas and moments that led to the revolution and its eventual bureaucratization from the perspective of Nadezhda Krupskaya Vladimir Lenin's wife Her involvement provides a new perspective in how we should consider the role of culture as opposed to ideology particularly the subordination of Communism as well as the women in Soviet politics M A Iasilli provides a nuanced view of the Russian Revolution that demonstrates a Bolshevik legacy and connection with their populist ancestors the Narodniks and argues that the revolution wasn't merely Marxist fanaticism but something much deeper and emotional
