Investigating Social Problems

A. Javier Trevino, 2020-11-03 For the Third Edition of Investigating Social Problems editor A Javier Trevi o has gathered a panel of top experts to thoroughly examine all aspects of social problems providing students with a contemporary and authoritative introduction to the field Each chapter is written by a well known specialist on the topic being covered This unique contributed format ensures that the research and examples described are the most current and relevant available In addition the experts use both general theoretical approaches structural functionalism conflict theory symbolic interactionism as well as specialized theories chosen to bring additional insight and analysis to their assigned topics The text is framed around three major themes intersectionality the interplay of race ethnicity class and gender the global scope of many problems and how researchers take an evidence based approach to studying problems This title is accompanied by a complete teaching and learning package

The Problems of Living in Society Henry H. Brownstein, 2003 This text adds a human face to social problems by looking at them from the perspective of the individual and the problems we face in everyday life as members of society Stories from the news media and popular fiction demonstrate problematic areas of social life such as forming intimate relationships finding a job and living with serious illness The book is useful as a supplemental text in an introductory course on sociology social institutions or social relationships Annotation c 2003 Book News Inc Portland OR booknews.com

The Handbook of Policy Practice Ira C. Colby, 2018-01-29 All social work practice is regulated by social policies Professionals however cannot arbitrarily select which policy to follow in any circumstance Knowing what

comprises a given policy is essential but equally important is understanding how to amend a policy by applying unique skills that reflect the social work profession's shared values and beliefs. Recognizing that a series of interdependent social policies govern every aspect of social work in both nonprofit and public organizations, this practice-specific textbook focuses on influencing social policies in an agency setting or through formal governmental processes. Purposefully, the Handbook also relies on information that comes from the digital world, using the web as a primary source. Building on the social work profession's long-held belief to begin where the client is, using the links to the various data and citation sources, readers will learn to identify and discern the features of a valid web site. As a whole, *The Handbook of Policy Practice* is an essential resource for all BSW and MSW students. *Resources in Education*, 2001.

Geriatric Emergency Medicine Joseph H. Kahn, Brendan G. Magauran, Jr., Jonathan S. Olshaker, 2014-01-16. As the global geriatric population continues to grow, an increasing proportion of people reporting to emergency departments are elderly. The work up of these patients uses more time and resources than that of younger patients and is complicated by the fact that acute disease often presents more subtly without the outward manifestations typically seen in younger patients. This volume focuses on the unique pathophysiology of the elderly, presenting guidelines for resuscitation, evaluation, and management. The first section discusses general principles, including demographics, pharmacology, and pain management. The following sections cover high-risk chief presenting complaints and review geriatric emergencies. Finally, topics of particular relevance in the geriatric population are discussed, including functional assessment, end-of-life care, financial considerations, and abuse. This book provides a comprehensive practical framework for community and academic emergency medicine practitioners as well as emergency department administrators striving to improve delivery of care to this vulnerable, growing population.

Atlas of Epilepsies S.R. Benbadis, R.G. Beran, A.T. Berg, J. Engel, Jr., A.S. Galanopoulou, P.W. Kaplan, M. Koutroumanidis, S.L. Moshe, D.R. Nordli, Jr., J.M. Serratosa, S.M. Sisodiya, W.O. Tatum, T. Valeta, A. Wilner, 2010-09-20. *Atlas of Epilepsies* is a landmark all-encompassing illustrated reference work and hands-on guide to the diagnosis, management, and treatment of epilepsy in all its forms and across all age groups. The premier text in the field, with over one thousand images, the Atlas's highly illustrative approach tackles the difficult subject of epileptic seizures and epileptic syndromes, accompanied by sequential photographs of each management step. Intraoperative photographs are accompanied by detailed figure legends describing nuances, subtleties, and the thought processes involved in each step, providing a fuller understanding of each procedure. The Atlas draws on the expertise of over 300 internationally renowned experts and is liberally interspersed with clinical insights and personal vignettes that offer helpful tips, technical advice, and critical knowledge to the clinician and scholar. The thorough and complete table of contents includes dedicated sections or chapters on important topics such as neonatal and pediatric seizures, imitators of epilepsy, EEG and neuroimaging, psychiatric and quality of life aspects of epilepsy, and a complete guide to treatment options, including current and up-to-date chapters on pharmaceuticals, surgical procedures, and additional and

alternative treatments No other publication addresses epilepsies as thoroughly and completely as the Atlas of Epilepsies Exhaustive and illustrative convenient and current this reference is sure to be the premier text on epilepsy for many years to come
