*Future Survey Annual 1983* Michael Marien, 1984-01-01      **Federal Agency Use of Audited Self-regulation as a Regulatory Technique** Douglas C. Michael, 1993      **Recommendations and Reports** Administrative Conference of the United States, 1994      **Making Regulatory Policy** Keith Hawkins, John N. Thomas, 2010-11-23 Contributors Barry Boyer Colin S Diver Daniel J Gifford Keith Hawkins Peter K Manning Errol Meidinger Robert L Rabin Paul Rock and John M Thomas

Few scholars have applied modern behavioral and organization theory to study U S regulatory agencies and fewer still have integrated this approach with frameworks drawn from administrative law and analysis This multidisciplinary collection combines detailed case studies with theoretical discussions drawing upon legal concepts organizational analysis and behavioral theory

The Regulatory Craft Malcolm K. Sparrow, 2011-01-01 The Regulatory Craft tackles one of the most pressing public policy issues of our time the reform of regulatory and enforcement practice Malcolm K Sparrow shows how the vogue prescriptions for reform centered on concepts of customer service and process improvement fail to take account of the distinctive character of regulatory responsibilities which involve the delivery of obligations rather than just services In order to construct more balanced prescriptions for reform Sparrow invites us to reconsider the central purpose of social regulation the abatement or control of risks to society He recounts the experiences of pioneering agencies that have confronted the risk control challenge directly developing operational capacities for specifying risk concentrations problem areas or patterns of noncompliance and then designing interventions tailored to each problem At the heart of a new regulatory craftsmanship according to Sparrow lies the central notion pick important problems and fix them This beguilingly simple idea turns out to present enormously complex implementation challenges and carries with it profound consequences for the way regulators organize their work manage their discretion and report their performance Although the book is primarily aimed at regulatory and law enforcement practitioners it will also be invaluable for legislators overseers and others who care about the nature and quality of regulatory practice and who want to know what kind of performance to demand from regulators and how it might be delivered It stresses the enormous benefit to society that might accrue from development of the risk control art as a core professional skill for regulators

**Reforming the Workplace** Joseph Rees, 2016-11-11 Government regulatory agencies are too often tangled webs of bureaucracy fraught with internal politics and in conflict with both industries and individuals How to instigate and implement the needed reform is a timely issue that is currently being debated Reforming the Workplace is an account of a successful program that is now a model for nationwide improvements in various regulatory agencies Joseph Rees s focus is the Occupational Safety and Health Administration OSHA which in 1982 announced a major shift in policy from strict government regulation to self regulation by industries with proven safety records In California this resulted in the Cooperative Compliance Program CCP an arrangement among labor unions management and California OSHA that became responsible for overseeing safety regulations at seven

large construction sites throughout the state In his detailed study of the CCP Joseph Rees provides important empirical data and assesses the reasons the program succeeded That success is so important he demonstrates because the CCP represents a different approach to reform self regulation that can be extended to and tailored for many troubled agencies Reforming the Workplace is a comprehensive study that will be a valuable resource for scholars and students of law and social policy in general and of federal regulation policies in particular

**Regulating Healthcare** Walshe, Kieran, 2003-06-01 Healthcare organizations in the UK and the USA face a growing tide of regulation accreditation inspection and external review all aimed at improving their performance In the US over three decades of regulation by state and federal government and by non governmental agencies has created a complex costly and overlapping network of oversight arrangements for healthcare organizations In the UK regulation of the government run National Health Service is central to current health policy with the creation of a host of new national agencies and inspectorates tasked with overseeing the performance of NHS hospitals and other organizations But does regulation work This book explores the development and use of healthcare regulation in both countries comparing and contrasting their experience and drawing on regulatory research in other industries and settings offers a structured approach to analysing what regulators do and how they work develops principles for effective regulation aimed at maximising the benefits of regulatory interventions and minimising their costs Regulating Healthcare is aimed at all with an interest or involvement in health policy and management be they policy makers healthcare managers or health professionals It is particularly suitable for use on postgraduate health and health related programmes
