Social Sciences in Forestry Fay Rumsey,1972 **Social Sciences in Forestry** William Allen Duerr,1975 Cleopatra was not the renowned beauty of legend her strength lay in her intelligence courage and charm and she would need all three in her short and perilous reign She became Queen of Egypt at eighteen and by twenty had been driven from her throne But she raided an army and won the support of the great Julius Caesar who helped her return to rule In the note on sources the authors indicate that much of the information about Cleopatra has been based on legend that many documents from her lifetime were destroyed after her death Even Plutarch s histories were written a hundred years after her death The large picture book presentation lacks reference aids would be challenging for researchers but it is smoothly written fascinating to read The gouache illustrations for this book add to the narrative presentation Cleopatra s name still glitters across history evoking opulence ambition and tragedy Raised in the shadow of the mighty Roman Empire she dared to dream of a world united under Egyptian rule She almost succeeded and if she had we would live in a far different world today Cleopatra was not the renowned beauty of legend her strength lay in her intelligence courage and charm and she would need all three in her short and perilous reign She became Queen of Egypt at eighteen and by twenty had been driven from her throne But she raised an army and won the support of the great Julius Caesar who helped her return to rule We will never know what these two brilliant and ambitious people might have accomplished together for Caesar soon fell to Roman assassins Instead it was Mark Antony another famous Roman who risked everything with Cleopatra in pursuit of world power **Social Sciences in Forestry** ,1989 Social Sciences in Forestry William Allen Duerr,1975 Cleopatra was not the renowned beauty of legend her strength lay in her intelligence courage and charm and she would need all three in her short and perilous reign She became Queen of Egypt at eighteen and by twenty had been driven from her throne But she raided an army and won the support of the great Julius Caesar who helped her return to rule In the note on sources the authors indicate that much of the information about Cleopatra has been based on legend that many documents from her lifetime were destroyed after her death Even Plutarch s histories were written a hundred years after her death The large picture book presentation lacks reference aids would be challenging for researchers but it is smoothly written fascinating to read The gouache illustrations for this book add to the narrative presentation Cleopatra s name still glitters across history evoking opulence ambition and tragedy Raised in the shadow of the mighty Roman Empire she dared to dream of a world united under Egyptian rule She almost succeeded and if she had we would live in a far different world today Cleopatra was not the renowned beauty of legend her strength lay in her intelligence courage and charm and she would need all three in her short and perilous reign She became Queen of Egypt at eighteen and by twenty had been driven from her throne But she raised an army and won the support of the great Julius Caesar who helped her return to rule We will never know what these two brilliant and ambitious people might have accomplished together for Caesar soon fell to Roman assassins Instead it was Mark Antony another

famous Roman who risked everything with Cleopatra in pursuit of world power A.I.D. Research and Development Abstracts ,1990 Using Social Science to Understand and Improve Wildland Fire Organizations Gregory Larson,2007 The wildland fire community has spent the past decade trying to understand and account for the role of human factors in wildland fire organizations Social research that is relevant to managing fire organizations can be found in disciplines such as social psychology management and communication However such research has been published primarily for scientific and business audiences and much of the fire community has not been exposed to it Here we have compiled and organized knowledge from a variety of social science disciplines so that it can be used to improve organizational practices related to firefighter and public safety to assess the effectiveness of safety campaigns and to improve firefighter safety trainings This annotated reading list summarizes approximately 270 books articles and online resources that address scientific and management concepts helpful for understanding the human side of fire management The first section Human Factors and Firefighting introduces readers to key workshops and writings that led to the recognition that human factors are prime ingredients of firefighter safety The second section Foundations for Understanding Organizations consists of social science research that provides a foundation for understanding organizational dynamics This section includes readings on decision making and sensemaking organizational culture identification and identity leadership and change organizational learning and teams and crews The third section Understanding Organizations in High Risk Contexts explores organizations that deal regularly with risk uncertainty and crisis This section includes readings on risk and uncertainty high reliability organizing and crisis communication The publication concludes with Internet resources available for those interested in the management of fire organizations *PISA 2015 Assessment and Analytical Framework Science, Reading, Mathematic, Financial Literacy and Collaborative Problem Solving* OECD,2017-08-31 What is important for citizens to know and be able to do The OECD Programme for International Student Assessment PISA seeks to answer that question through the most comprehensive and rigorous international assessment of student knowledge and skills **PISA 2015 Assessment and Analytical Framework Science, Reading, Mathematic and Financial Literacy** OECD,2016-04-19 What is important for citizens to know and be able to do The OECD Programme for International Student Assessment PISA seeks to answer that question through the most comprehensive and rigorous international assessment of student knowledge and skills The Activity Program and the Teaching of Reading California. State Curriculum Commission,1931 *Studies in the Social Sciences* ,1925 **Social Science In Natural Resource Management Systems** Marc L Miller,Richard P Gale,Perry J Brown,2019-07-11 This book is about the conduct and contributions of applied social science It represents the beginning of a new intellectual tradition in applied social science and its purpose is to foster an exchange among the variety of social scientists who are concerned with natural resource policy **Resources in Education** ,1988 **Making Sense of Nature** Noel Castree,2013-08-15 We listen to a cacophony of voices instructing us how to think and feel about nature including our own bodies The news media

wildlife documentaries science magazines and environmental NGOs are among those clamouring for our attention But are we empowered by all this knowledge or is our dependence on various communities allowing our thoughts sentiments and activities to be unduly governed by others Making Sense of Nature shows that what we call nature is made sense of for us in ways that make it central to social order social change and social dissent By utilising insights and extended examples from anthropology cultural studies human geography philosophy politics sociology science studies this interdisciplinary text asks whether we can better make sense of nature for ourselves and thus participate more meaningfully in momentous decisions about the future of life human and non human on the planet This book shows how nature can be made sense of without presuming its naturalness The challenge is not so much to rid ourselves of the idea of nature and its collateral concepts such as genes but instead we need to be more alert to how why and with what effects ideas about nature get fashioned and deployed in specific situations Among other things the book deals with science and scientists the mass media and journalists ecotourism literature and cinema environmentalists advertising and big business This innovative text contains numerous case studies and examples from daily life to put theory and subject matter into context as well as study tasks a glossary and suggested further reading The case studies cover a range of topics range from forestry in Canada and Guinea to bestiality in Washington State to how human genetics is reported in Western newspapers to participatory science experiments in the UK Making Sense of Nature will empower readers from a wide range of fields across the social sciences humanities and physical sciences
