Social Work Administrative Practice In Health Care Settings:

Social Work Practice in Health Care Settings Michael J. Holosko, Patricia A. Taylor, 1992 Social Work Practice in Health Care Settings is written by social work practitioners for colleagues in health care settings. It is aimed at teaching social workers how to survive in a rapidly changing health care system. The text emphasizes the role of the social worker in a variety of health care settings with a variety of unique patient disease groups. From community health centres to hospitals and from cancer patients to Alzheimer's victims, this book brings together for the first time the special expertise of social work in responding to various health care needs. One unique feature of this text is the emphasis on the potential for social work role development in each of the particular areas covered. With each article written in a standardized format, it is appropriate for both undergraduate and graduate courses in schools of social work as well as for social work practitioners in the field and allied health professionals.

Social Work and Integrated Health Care Victoria Stanhope, Shulamith Lala Ashenberg Straussner, 2017-09-27 With nearly 40% of social workers working in the health and behavioral health care sectors, Social Work and Integrated Health Care is designed to help social workers understand the policies that shape the current discussion regarding integrated primary care and behavioral health care and their application to practice. While the future of the Patient Protection and Affordable Care Act of 2010 (PPACA) is uncertain at this time, the potential for integrated health care to simultaneously improve health outcomes while reducing costs means that despite the constantly changing health policy landscape, the movement towards an integrated health care system will continue in the future. As these changes occur, there is a great need in the social work field for resources that will give both the context for these changes and translate the policies to day-to-day social work practice. This book provides essential information about the important shifts in the health care field with a focus on health care for vulnerable populations, with a special emphasis on adults with severe mental illnesses and substance abuse disorders. As the title indicates, the book provides a comprehensive discussion not only of critical policy issues but also their specific implications to evidence-based clinical practice. It covers such areas as background on public funding for health care, the development of behavioral health services in the community, and the passage of mental health parity legislation. The text also includes an overview of integrated health care settings and describes evidence practices that are central to integrated health care, such as screening, person-centered care, planning, motivational interviewing, and wellness self-management. It is a must-have text for all social work students in MSW programs.

The Oxford

Handbook of Social Work in Health and Aging Daniel B. Kaplan,Barbara Berkman,2016 This Second Edition of the

Handbook addresses the evolving interdisciplinary health care context and the broader social work practice environment as well as advances in the knowledge base which guides social work service delivery in health and aging. This includes recent enhancements in the theories of gerontology innovations in clinical interventions and major developments in the social policies that structure and finance health care and senior services. In addition the policy reforms of the 2010 Patient Protection and Affordable Care Act set in motion a host of changes in the United States healthcare system with potentially profound implications for the programs and services which provide care to older adults and their families. In this volume the most experienced and prominent gerontological health care scholars address a variety of populations that social workers serve and the arenas in which they practice followed by detailed recommendations of best practices for an array of physical and mental health conditions. The volume's unprecedented attention to diversity health care trends and implications for practice research policy make the publication a major event in the field of gerontological social work. This is a Must Read for all social work social work educators practitioners and students interested in older adults and their families. **Best Practices for Social Work with Refugees and Immigrants** Miriam Potocky, Mitra Naseh, 2019-10-29 Social work practice with refugees and immigrants requires specialized knowledge of these populations and specialized adaptations and applications of mainstream services and interventions. Because they are often confronted with cultural linguistic political and socioeconomic barriers these groups are especially vulnerable to psychological problems such as anxiety depression alienation grief and post traumatic stress disorder as well as concerns arising from inadequate health care. Institutionalized discrimination and anti immigrant policies and attitudes only exacerbate these challenges. The second edition of **Best Practices for Social Work with Refugees and Immigrants** offers an update to this comprehensive guide to social work with foreign born clients and an evaluation of various helping strategies and their methodological strengths and weaknesses. Part 1 sets forth the context for evidence based service approaches for such clients by describing the nature of these populations relevant policies designed to assist them service delivery systems and culturally competent practice. Part 2 addresses specific problem areas common to refugees and immigrants and evaluates a variety of assessment and intervention techniques in each area. Using a rigorous evidence based and pancultural approach Miriam Potocky and Mitra Naseh identify best practices at the macro meso and micro levels to meet the pressing needs of uprooted peoples. The new edition incorporates the latest research on contemporary social work practice with refugees and immigrants to provide a practical up to date resource for the multitude of issues and interventions for these populations. Occupational Outlook Handbook, 2003 Describes 250 occupations which cover approximately 107 million jobs. Social Work Case Management Betsy Vourlekis, Roberta R. Greene, 2017-07-05 This new practice text provides a series of readings focusing on case management in a number of fields and in a variety of settings with different client populations. Each chapter examines a major component of case management practice by presenting information about an innovative program from a different location around the country. In conjunction

these readings provide a road map to social work case management In addition to offering up to date practice approaches and examining the functions and skills of case management in depth the authors provide the policy information needed for putting this traditional form of social work practice into today s service delivery context
