Socialism And Communism Access To History Themes S:

Socialism After Communism Christopher Pierson, 1995 Christopher Pierson assesses the evidence of terminal decline but finds rather a whole series of deep seated challenges to traditional forms of socialist and social democratic thinking Above all these problems are to be found in the political economy of social democracy and its commitment to incremental change in the context of an increasingly globalized market economy The latter chapters of the book are devoted to an assessment of market socialism one of the most vigorous and innovative attempts to seek to recast socialist aspirations under these quite changed circumstances In essence market socialism represents an attempt to reconcile new forms of social ownership with the seeming ubiquity of the market Having outlined this position Pierson carefully and systematically critiques it and in the process develops a set of distinctive arguments about the nature of social ownership the potential of the labor managed economy and the appropriate forms for an extension of economic democracy *Problems of Communism*, 1968

Flacks,1988 This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo Egypt Although these women are part of a modernizing middle class they also voluntarily adopt a traditional symbol of female subordination How can this paradox be explained An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle as accommodating protest These women most of them clerical workers in the large government bureaucracy are ambivalent about working outside the home considering it a change which brings new burdens as well as some important benefits At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity The new veiling expresses women s protest against this MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma involving elements of both resistance and acquiescence
