Socialist Labor And Politics In Weimar Germany:

Socialist Labor and Politics in Weimar Germany Gerard Braunthal, 1978 German Communism, Workers' Protest, and Labor Unions Larry Peterson, 2013-03-07 This book analyzes how a sizable group of German workers came to support Communism and how they in turn influenced the emergence and development of the German Communist Party KPD in its formative period as a mass party. It reconstructs the interaction between a party and the constituency to which it appealed within the constraints and opportunities set by social structures, economic conditions and political competitors. This interaction revolved around the elaboration and implementation of a specific concept of revolutionary politics and this study investigates both the rise of the KPD as a mass party and its failure to set off a socialist revolution in the early 1920s in light of the contradictory ways German workers responded to its revolutionary strategy. When I began to study the KPD in the mid 1970s, scholarly works in the West portrayed a party so out of touch with the realities of German life from 1918 to 1933 that its history was a litany of political mistakes that led from crisis to catastrophe. The KPD was dominated by the foreign policy interests of the Soviet Union by factional disputes and personal rivalries among the leadership by an authoritarian centralized party structure that stifled rank and file initiative and imposed a party line determined in Moscow and Berlin and by a rigid ideology largely irrelevant to trends in German economy, society and politics with at best compensatory value for a minority of the most impoverished workers.

The Politics of West German Trade Unions Andrei Markovits, 2016-04-14 First published in 1986, this book assesses the politics of the West German trade unions in the context of their larger role as major actors in the polity. By focusing on the historical realities of the labour movement both before and after 1945, the study explains the extent to which organized labour solidified and challenged the dominant structures of politics and authority. It examines the metalworkers union, the construction workers union, the printers union and the chemical workers union and shows how the industrial reality of each organisation helped shape its political outlook and strategic thinking. This book will be of particular interest to students of trade unions, industrial relations and political economy in West Germany.

Social Democracy and the Working Class Stefan Berger, 2014-06-11 This is a powerful and original survey of German social democracy, breaking new ground in covering the movement's full span from its origins after the French Revolution to the present day. Stefan Berger looks beyond narrow party political history to relate Social Democracy to other working class identities in the period and sets the German experience within its wider European context. This timely book considers both the background and long term perspective on the current rethinking of Social Democratic ideas and values not only in Germany but also in France, Britain and elsewhere.

The German Social Democrats Since 1969 Gerard Braunthal, 2019-07-11 This thoroughly revised edition of *The West German Social Democrats 1969-1982: Profile of a Party in Power* contrasts the period during which the SPD was in power with its role since 1982 as an opposition party. Even though it was the senior party in the coalition governments of chancellors Willy Brandt and Helmut Schmidt, it did not have the

influence on domestic and foreign policy in the 1970s that it had hoped for Nevertheless it achieved insider status unlike its dual competitive and cooperative opposition role vis a vis the conservative governments of Helmut Kohl Braunthal also discusses the short lived East German SPD which formed during the crumbling months of the German Democratic Republic and then merged with the West German party shortly before unification In a period when some analysts pronounce the victory of capitalism and the death of socialism and others decry the crises among political parties the SPD has managed to remain relatively strong Yet the party argues the author will need to enhance its support especially in eastern Germany if it expects to regain political power in the 1990s Such a goal cannot be reached unless it projects a modern image minimizes intraparty discord copes successfully with the external social and economic forces affecting its development and has a dynamic leadership that presents appealing policy alternatives to the Kohl government Braunthal details the SPD s organization leadership factions constituent associations ideology voter support and elections relations to Parliament and government and influence on government policies He draws from a wealth of primary sources including unpublished German archival records and over 200 interviews with top politicians party officials SPD members and journalists Braunthal one of the leading Western scholars on the SPD presents here the definitive study of this pivotal party

The West German Social Democrats, 1969-1982 Gerard Braunthal,2019-06-26 The fall of the West German government in 1982 ended the 13 year rule of the Social Democratic Party SPD as the senior coalition partner under Chancellors Willy Brandt and Helmut Schmidt In perpetual opposition from 1949 to 1966 the Social Democrats finally entered the government as the junior coalition party in 1966 three years later they assumed primary responsibility for guiding the nation The central theme of this detailed examination of the SPD during its years of governance is that social and economic forces in the nation had a major effect often unsettling on the party at a time when it had achieved the pinnacle of political power Significant changes in the party s organization membership leadership factionalism ideology and voter support limited its role within the political system in the executive and legislative branches and its influence on domestic and foreign policies Yet its ability to remain in power for a comparatively long period attests to its strength and respectability among the voting public Dr Gerard Braunthal draws on a wealth of documentation some unpublished located primarily in German archives and libraries In addition he interviewed more than 120 persons ranging from the top SPD leaders to staff officials members and other specialists to gain a greater understanding of a party that is one of the most powerful in Western Europe and in the social democratic world and whose organization has been a model of the twentieth century mass party

Routledge Revivals: European Trade Unions and the 1970s Economic Crisis Various,2022-07-30 The volumes in this set report and analyse European trade union responses to the 1970s economic crisis across a range of nations including Germany Italy France Britain and Sweden The set will be of interest to those studying trade unions industrial relations and European political economy

The Primacy of Politics Sheri Berman,2006-08-07 Political history in the industrial world has indeed ended argues this pioneering study but

the winner has been social democracy an ideology and political movement that has been as influential as it has been misunderstood Berman looks at the history of social democracy from its origins in the late nineteenth century to today and shows how it beat out competitors such as classical liberalism orthodox Marxism and its cousins Fascism and National Socialism by solving the central challenge of modern politics reconciling the competing needs of capitalism and democracy Bursting on to the scene in the interwar years the social democratic model spread across Europe after the Second World War and formed the basis of the postwar settlement This is a study of European social democracy that rewrites the intellectual and political history of the modern era while putting contemporary debates about globalization in their proper intellectual and historical context

The Labour Constitution Ruth Dukes, 2014 By exploring different approaches to the study of labour law this book re evaluates how it is conceived analysed and criticized in current legislation and policy In particular it assesses whether so called old ways of thinking about the subject such as the idea of the labour constitution developed by Hugo Sinzheimer in the early years of the Weimar Republic and the principle of collective laissez faire elaborated by Otto Kahn Freund in the 1950s are in fact outdated It asks whether and how these ideas could be abstracted from the political economic and social contexts within which they were developed so that they might still usefully be applied to the study of labour law Dukes argues that the labour constitution can provide an enduring idea of labour law and an alternative to modern arguments which favour reorienting labour law to align more closely with the functioning of labour markets Unlike the law of the labour market the labour constitution highlights the inherently political nature of labour laws and institutions as well as their economic functions It constructs a framework for analysing labour laws labour markets and institutions to allow scholars to critique the current policy climate and in light of the ongoing expansion of the global labour market assess the impact of the narrowing and disappearance of spaces for democratic deliberation and democratic decision making on workers rights

Routledge Library Editions: Political Protest Various, 2022-07-30 This 26 volume set is a wide ranging time and subject spanning examination of the phenomenon of political protest What drives people to take to the streets and how do their governments respond These questions and many more are analysed in areas as varied as sixteenth century German peasant uprisings revolutionary Russians at the Paris Commune women protesting nuclear weapons at Greenham Common and the role Christianity played in protests across the ages An impressive reference resource this set also looks at the policing of protests and official responses to them

German Social Democracy and the Rise of Nazism Donna Harsch, 2000-11-09 German Social Democracy and the Rise of Nazism explores the failure of Germany's largest political party to stave off the Nazi threat to the Weimar republic In 1928 members of the Social Democratic Party SPD were elected to the chancellorship and thousands of state and municipal offices But despite the party's apparent strengths in 1933 Social Democracy succumbed to Nazi power without a fight Previous scholarship has blamed this reversal of fortune on bureaucratic paralysis but in this revisionist evaluation Donna Harsch argues that the party's internal dynamics immobilized

the SPD Harsch looks closely at Social Democratic ideology structure and political culture examining how each impinged upon the party's response to economic disaster parliamentary crisis and the Nazis She considers political and organizational interplay within the SPD as well as interaction between the party the Socialist trade unions and the republican defense league Conceding that lethargy and conservatism hampered the SPD Harsch focuses on strikingly inventive ideas put forward by various Social Democrats to address the republic's crisis She shows how the unresolved competition among these proposals blocked innovations that might have thwarted Nazism Originally published in 1993 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

German Socialism and Weimar Democracy Richard Breitman, 1981 In this first analysis in English of the relationship of the German Social Democratic party to the Weimar Republic Breitman stresses the party's conflicting loyalties to both Marxist traditions and democratic principles He explains how and why an evolutionary socialist strategy failed to promote or to prevent the rise of Nazism The non-socialist parties showed no interest in meeting the SPD halfway and there was internal dissent over coalition with other parties Originally published in 1981 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

An American in Hitler's Berlin Abraham Plotkin, 2023-12-11 This is the first published edition of the diary of Abraham Plotkin an American labor leader of immigrant Jewish origin who lived in Berlin between November 1932 and May 1933 A firsthand account of the Weimar Republic's final months and the early rise of Nazi power in Germany Plotkin's diary focuses on the German working class the labor movement and the plight of German Jews Plotkin investigated Berlin's social conditions with the help of German Social Democratic leaders whose analyses of the situation he records alongside his own Compared to the writings of other American observers of the Third Reich Plotkin's diary is unique in style scope themes and time span Most accounts of Hitler's rise to power emphasize political institutions by focusing on the Nazi party's clashes with other political forces In contrast Plotkin is especially attentive to socioeconomic factors providing an alternative view from the left that stems from his access to key German labor and socialist leaders Chronologically the diary reports on the moment when Hitler's seizure of power was not yet inevitable and when leaders on the left still believed in a different outcome of the crisis but it also includes Plotkin's account of the complete destruction of German labor in May 1933

European Labour Protest 1848-1939 Dick Geary, 2021-09-05 This book first published in 1981 examines the issues inspiring working class movements after 1848 in France Germany and Britain with some consideration also of Austria Italy Spain and Russia It concentrates on the attitudes of the ordinary working men rather than the ideologies and the leaders and considers the many

different forms and manifestations of their grievances and means of expression What emerges is the complexity of the connection between economic circumstances and protest and the existence of wide divergences of behaviour amongst the European working class

Internationalism in the Labour Movement 1830-1940 Holthoon, Marcel van der Linden, 2025-02-10

Gregor Strasser and the Rise of Nazism (RLE Nazi Germany & Holocaust) Peter D.

Stachura, 2014-09-19 The most influential and substantial leader after Hitler in the pre 1933 National Socialist Party was

Gregor Strasser This book originally published in 1983 but as yet not superseded is a comprehensive and scholarly assessment of Strasser's significant and ultimately tragic career based largely on previously unpublished German archival material Strasser's importance as a Nazi propagandist organiser ideologue and spokesman is examined and the analysis and interpretation which follow are fundamentally revisionist in that many of the accepted ideas about Strasser's career are challenged and shown to be untenable The book provides important insights into an interesting personality which in turn considerably enhances our understanding of the character of early National Socialism and the politics of the Weimar Republic

Organized Workers and Socialist Politics in Interwar Japan Stephen S. Large, 2010

A History of Modern Germany Dietrich Orlow, 2016-11-03 Covering the entire period of modern German history from nineteenth century imperial Germany right through the present this well established text presents a balanced general survey of the country's political division in 1945 and runs through its reunification in the present Detailing foreign policy as well as political economic and social developments A History of Modern Germany presents a central theme of the problem of asymmetrical modernization in the country's history as it fully explores the complicated path of Germany's troubled past and stable present

Bibliography of European Economic and Social History Derek Howard Aldcroft, Richard Rodger, 1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700 1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily

Social And Political Structures In West Germany Ursula Hoffmann-lange, Peter Jelavich, Robert Rickards, Lewis J Edinger, 2019-05-28 This book offers a view of West German social structure and political culture from a multidisciplinary perspective Focusing on the remarkable changes that have taken place in West Germany since World War II it provides a basis for judging what direction a united Germany is likely to take
