Lovell, 1984-07-19 This study is a contribution to the debate begun just after the October Revolution concerning the relationship between Marx s project and Soviet society It focuses however only on the political aspects of the matter to what extent was early Soviet authoritarianism the necessary outcome of Marx s works Since Lenin s practice and theory largely determined and justified the early political character of the Soviet state we may ask whether Lenin was implementing Marx s project or a project of his own design Lenin influenced by debates within Social Democracy and by the experience of the Russian revolutionary tradition used a one sided interpretation of Marx s work to build and defend a transition which was fundamentally authoritarian Marx was not causally responsible for the theoretical foundation of Soviet authoritarianism

Anti-Leftist Politics in Modern World History Philip B. Minehan, 2021-11-04 Systemic and political hostility against the left real and contrived has been a key yet under recognized aspect of the history of the modern world for the past two hundred years By the 1820s the new exploitative and destabilizing character of capitalist industrial production and its accompanying market liberalizations began creating necessities among the working classes and their allies for the new self protective politics of socialism But it is evident that for the new economic system to sustain itself such oppositional politics that it necessitated had to be undermined if not destroyed by whatever means necessary Through the imperialism of the later 19th century and with significant variations this complex and often highly destructive dialectical syndrome expanded worldwide Liberals conservatives extreme nationalists fascists racists and others have all repeatedly come aggressively and violently into play against socialist oppositions In this book Philip Minehan traces the patterns of such hostility and presents numerous crucial examples of it from Britain France Germany and the United States the British in India European fascism the United States and Britain as they operated in China and Indochina from Kenya Algeria and Iran and from Central and South America during the Cold War In the final chapters Minehan addresses the post Cold War US led triumphalist wars in the Middle East the ensuing refugee crises neo fascism and anti environmentalist politics to show the ways that the syndrome within which anti leftist antagonism emerges in its neoliberal phase since the 1970s remains as self destructive and dangerous as ever

This Great Beast R. Catley, W. Cristaudo, 2018-12-07 First published in 1997 this volume follows Catley and Cristaudo as they defend Western Civilization against all comers against the rest of the world especially the Third World and against its own internal irritants the scribblings of the intelligentsia by idealist philosophers feminists greens post moderns multiculturalists Orientalists anti nationalists socialists and Keynesians most of them tenured academics in the arts and social sciences As academic political scientists themselves they have done time in a number of the ideological prisons they attack and they write about those states of mind with experienced cynicism As in Paradise Lost the devil gets all the best tunes The identification of civilization s enemies is wildly sometimes hilariously politically incorrect
