

AFRICAN AMERICANS IN EARLY NORTH CAROLINA

A Documentary History

RUN AWAY -- from Mount Pleasant estate, on the North-West, a Negro fellow named TONY, late the property of Miss Cobham, well known in and about Wilmington, as he was one of the fiddlers to the assemblies. He is tall, well made, and thin visaged, between black and yellow. He took away a fiddle, some carpenters tools, &c. He has a wife at Mr. Frederic Jones's, on the Sound, named Belly, (his cook) who harboured him when he left his master before. He, and some others, it is suspected, intend trying to get to the Eastern states, imagining they will be free. Their intended rout is by the back part of this state and Virginia, to Pennsylvania; they proposed taking their wives. Tony's wife would not go with him.

Society in Early North Carolina Alan D. Watson, 2000 *Edgecombe County* Monika S. Fleming, 2003-04-02 Edgecombe County in the coastal plains of North Carolina along the Tar River was once home to the Tuscarora tribes and was founded by English immigrants from Virginia The county swelled as an agricultural center in the cotton and textile industries bolstered by a wealth of lumber and sustained by a thriving inland river port and railroad Though the residents struggled through natural industrial and economic upheaval their courage and fortitude endured these hardships and unified their community

The Documentary History of the Supreme Court of the United States, 1789-1800: The justices on circuit, 1790-1794 Maeva Marcus, James R. Perry, 1985 Volume 2 details the workings of the Court's experimental practice of sending Justices around the country to serve as judges at sessions of the various federal circuit courts The documents in this volume reveal that the justices quickly voiced bitter complaints about the demands of their circuit duties They also questioned the propriety and perhaps constitutionality of assigning the same individuals to act as superior and inferior court judges The documents in this volume also touch upon topics that figured prominently in the law and politics of the era neutrality the boundary between state and federal crimes the constitutional prohibition against impairing the obligations of contracts and the relationship between law and morality *Sensory Worlds in Early America* Peter Charles Hoffer, 2004-12-01 Honorable Mention History Category Professional and Scholarly Publishing Awards Association of American Publishers Over the past half century historians have greatly enriched our understanding of America's past broadening their fields of inquiry from such traditional topics as politics and war to include the agency of class race ethnicity and gender and to focus on the lives of ordinary men and women We now know that homes and workplaces form a part of our history as important as battlefields and the corridors of power Only recently however have historians begun to examine the fundamentals of lived experience and how people perceive the world through the five senses In this ambitious work Peter Charles Hoffer presents a sensory history of early North America offering a bold new understanding of the role that sight sound smell taste and touch played in shaping the lives of Europeans Indians and Africans in the New World Reconstructing the most ephemeral aspects of America's colonial past the choking stench of black powder the cacophony of unfamiliar languages the taste of fresh water and new foods the first sight of strange peoples and foreign landscapes the rough texture of homespun the clumsy weight of a hoe Hoffer explores the impact of sensuous experiences on human thought and action He traces the effect sensation and perception had on the cause and course of events conventionally attributed to deeper cultural and material circumstances Hoffer revisits select key events encounters and writings from America's colonial past to uncover the sensory elements in each and decipher the ways in which sensual data were mediated by prevailing and often conflicting cultural norms Among the episodes he reexamines are the first meetings of Europeans and Native Americans belief in and encounters with the supernatural the experience of slavery and slave revolts the physical and emotional fervor of the Great Awakening and the

feelings that prompted the Revolution Imaginatively conceived deeply informed and elegantly written *Sensory Worlds of Early America* convincingly establishes sensory experience as a legitimate object of historical inquiry and vividly brings America's colonial era to life *The American States During and After the Revolution, 1775-1789* Allan Nevins, 1924

death during the American Revolution in 1776 at 88 years old The South's Role in the Creation of the Bill of Rights Robert J. Haws, 2010-12-01 The adoption of the Bill of Rights was the last step in defining the essential elements of American constitutionalism The process began with the writing of the Constitution continued through its ratification by the states and culminated with the adoption of the Bill of Rights In 1991 the bicentennial of the adoption of the Bill of Rights provided an occasion for examining the origins of this most important statement of individual rights in American history Published on this anniversary The South's Role in the Creation of the Bill of Rights sheds light on the paradoxical part the South played in the process of drafting and adopting this document In cogent essays from the Chancellor's Symposium on Southern History held at the University of Mississippi in 1988 six noted experts in legal constitutional and southern history fill a gap in the literature of southern legal history for the period 1787-1791 The southern role is particularly important because political leaders in the South took the lead in promoting a bill of rights and at the same time vociferously defended the right to hold slaves The essays in this book comprise a complete discussion of the writing and ratification of the Constitution and the adoption of the Bill of Rights in five southern seaboard states They reveal the interplay of a desire to protect states rights a concern for the preservation of individual liberty and a defensive attitude toward slavery that governed southern attitudes These concerns dominated constitutional discourse until the Civil War The South's peculiar cultural constitutionalism was first given definition in this period of American history and as this book reveals it initiated the process of setting the region apart from the rest of the United States The events of these years were a necessary first step in establishing a southern regional identity **The Making of Urban America** John William Reps, 2021-10-12 This comprehensive survey of urban growth in America has become a standard work in the field From the early colonial period to the First World War John Reps explores to what extent city planning has been rooted in the nation's tradition showing the extent of European influence on early communities Illustrated by over three hundred reproductions of maps plans and panoramic views this book presents hundreds of American cities and the unique factors affecting their development *Half Sisters of History* Catherine Clinton, 1994-09-09 Long relegated to the margins of historical research the history of women in the American South has rightfully gained prominence as a distinguished discipline A comprehensive and much needed tribute to southern women's history *Half Sisters of History* brings together the most important work in this field over the past twenty years This collection of essays by pioneering scholars surveys the roots and development of southern women's history and examines the roles of white women and women of color across the boundaries of class and social status from the founding of the nation to the present Authors including Anne Firor Scott Elizabeth Fox Genovese Jacquelyn Dowd Hall and Nell Irwin Painter among others analyze women's participation in prewar slavery their representation in popular fiction and their involvement in social movements In no way restricted to views of the plantation South other essays examine the role of women during the American Revolution the social status of Native American women the involvement of Appalachian women in labor struggles
