Society State Schools A Case For Structural And Confessional Pluralism:

Society, State & Schools Rockne McCarthy, Calvin Center for Christian Scholarship, 1981 **Political Order and the Plural Structure of Society** James W. Skillen, Rockne M. McCarthy, 1991 This excellent volume explores three forms of pluralist theory those based on historical doctrines of custom and tradition Catholic doctrines of natural law and subsidiarity and Calvinist doctrines of sphere sovereignty and creation and compares and evaluates each of these forms of pluralism within the context of American thought Fundamentalism and Evangelicals Harriet A. Harris, 1998-06-11 Fundamentalism is a label used often pejoratively of religious conservatism Evangelicals are growing in number and power around the world and are frequently regarded as fundamentalist This volume examines fundamentalism as a mentality which has greatly affected evangelicalism but which some evangelicals now wish to leave behind **Conscience and Belief: The Supreme Court and Religion** Kermit L. Hall, 2018-12-07 Available as a single volume or as part of the 10 volume set Supreme Court in American Society **Religious Schools in America (1986)** Thomas C. Hunt, James Carper, Charles R. Kniker, 2018-06-15 Published in 1986 this selected bibliography considers private schools that are religiously affiliated Divided into several sections the book opens with chapters covering the most influential general books on religion and schooling and offers summaries and analysis of court decisions and commentaries on the issues of government aid and regulation The book goes on to provide entries of the schools operating in the United States by seventeen religious groups entries are annotated by experts from the field The final section of the book considers statements on religious schools made by both public school educators and religious school advocates formal and informal interactions between the public and religious schools and the concept of the education of the public by religious and public schools This work pulls together a wealth of reference material mainly on religious schools and provides a much needed resource for those interested in religious schooling whether researcher scholar student or policy maker **Discipleship of the Mind** James W. Sire, 1990-04-04 Discussing worldview thinking the foundations of knowledge and the relationship between knowing and doing James W. Sire shows Christians how to honor God with their minds **God's Economy** Lew Daly, E. J. Dionne, Jr., 2010-10 President Obama has signaled a sharp break from many Bush Administration policies but he remains committed to federal support for religious social service providers Like George W. Bush's faith based initiative though Obama's version of the policy has generated loud criticism from both sides of the aisle even as the communities that stand **Judicial Review and American Conservatism** Robert Daniel Rubin, 2017-03-20 Majoritarian Justices The Great Debate The Imperial Judiciary Notes Index *The World's Constitution* Adam K. Webb, 2025-01-02 Global governance is tightening and foreshadows that world state formation will become a live political issue in this century Some observers treat it as inevitable amid the urgency of global issues They foresee a technocratic scaling up of the model of state authority that has prevailed at the national level for over two hundred years Many critics and members of the public around the world look askance at that

prospect They rightly fear a moral vacuum of authority disconnected from the world's traditions and a concentration of power that would be damaging to liberty or even dystopian in its upshot Still they often merely aim to stand athwart the scaling up of political institutions rather than actively trying to shape an alternative that can seize the global horizon The World's Constitution Spheres of Liberty in the Future Global Order offers a radically different vision of future world order that could work in a global space while shifting the balance of power from state back to society It draws on older resources in political thought both Western and non Western to upend mainstream notions of statehood and sovereignty that have been taken for granted for too long in the modern era It offers an original sphere pluralist framework that can reconcile liberty tradition and cosmopolitanism As a book rooted in the past but mindful of future constitutional and policy challenges it bridges ideas and real world implications with insights that cut across a wide range of topics from migration and social welfare to personal law systems and channels of representation It opens an exciting debate about global constitutional futures that is likely to become more salient over the next couple of generations The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Reformational Theology Gordon J. Spykman, 1992 Following the Biblical story line of creation fall redemption consummation Spykman's new paradigm systematics represents a notable revision of the traditional loci method Spykman has reordered the basic Christian dogmas in a bold attempt to overcome the rationalist scholastic influences inherent in the older method

Political Visions & Illusions David T. Koyzis, 2019-05-07 In this freshly updated comprehensive study political scientist David Koyzis surveys the key political ideologies of our era unpacking the worldview issues inherent to each and pointing out essential strengths and weaknesses Writing with broad international perspective Koyzis is a sensible guide for Christians working in the public square culture watchers and all students of modern political thought

School Choice Herbert J. Walberg, 2007 School Choice The Findings is the most comprehensive and up to date survey available summarizing the research on charter schools vouchers and public versus private school effectiveness The focus is on rigorous studies those using randomized control groups as in medical research those that monitor achievement changes over time and those based on large numbers of students The findings reviewed here go beyond academic achievement covering students civic engagement cost comparisons across school types and public and parental opinion about schools and school choice The consensus of this research overwhelmingly favors competition and parental choice in education

Rethinking Rights Bruce P. Frohnen, Kenneth L. Grasso, 2008-12-24 As reports of genocide terrorism and political violence fill today s newscasts more attention has been given to issues of human rights but all too often the sound bites seem overly simplistic Many Westerners presume that non Western peoples yearn for democratic rights while liberal values of

toleration give way to xenophobia This book shows that the identification of rights with contemporary liberal democracy is inaccurate and questions the assumptions of many politicians and scholars that rights are self evident in all circumstances and will overcome any conflicts of thought or interest Rethinking Rights offers a radical reconsideration of the origins nature and role of rights in public life interweaving perspectives of leading scholars in history political science philosophy and law to emphasize rights as a natural outgrowth of a social understanding of human nature and dignity The authors argue that every person comes to consciousness in a historical and cultural milieu that must be taken into account in understanding human rights and they describe the omnipresence of concrete practical rights in their historical political and philosophical contexts By rooting our understanding of rights in both history and the order of existence they show that it is possible to understand rights as essential to our lives as social beings but also open to refinement within communities An initial group of essays retraces the origins and historical development of rights in the West assessing the influence of such thinkers as Locke Burke and the authors of the Declaration of Independence to clarify the experience of rights within the Western tradition A second group addresses the need to rethink our understanding of the nature of existence if we are to understand rights and their place in any decent life examining the ontological basis of rights the influence of custom on rights the social nature of the human person and the importance of institutional rights Steering a middle course between radical individualist and extreme egalitarian views Rethinking Rights proposes a new philosophy of rights appropriate to today s world showing that rights need to be rethought in a manner that brings them back into accord with human nature and experience so that they may again truly serve the human good By engaging both the history of rights in the West and the multicultural challenge of rights in an international context Rethinking Rights offers a provocative and coherent new argument to advance the field of rights studies

Religion, Public Life, and the American Polity Luis F. Lugo, 2003-06 Religion Public Life and the American Polity brings together ten essays exploring the continuing vitality of religion in American public life Featuring contributions by leading political scientists and legal scholars the volume locates current debates within the broader contexts of history society and constitutional theory The book opens with an investigation of the contending positions on church state relations in current American thought The next section offers fresh reappraisals of the thinking of the Founders especially the contributions of Madison and Jefferson some important challenges to conventional wisdom including the common view of Jefferson as a strict separationist emerge from this section The essays in the third section examine the relationship between religion and the law showing that the courts decisions in First Amendment cases reveal a tendency toward incoherence and majoritarian bias In the final section the discussion extends to the more indirect and subtle ways in which religion and American liberal culture influence each other for better and for worse Taken together these essays shed a much needed light on how the state can accommodate the multiplicity of faiths held by its citizens especially as those faiths take on public expression beyond the institutional church

Educational Restructuring in the Context of Globalization and National Policy

Holger Daun, 2002 This study posits that global change is being driven mainly by financial forces new patterns of economic growth and market ideology It then goes on to examine the forces opposing such globalizing processes such as religious and ethnic social movements throughout Africa Asia and Latin America
