Society And Politics In Wilhelmine Germany By:

Society and Politics in Wilhelmine Germany (Routledge Revivals) Richard J. Evans, 2015-06-03 In the search for the causes of the First World War and the origins of Hitler's Third Reich the attention of historians has turned increasingly towards the development of German society under Kaiser Wilhelm II These ten essays first published in 1978 introduced interpretations of Wilhelmine Germany to an English speaking audience and contributed towards the discussion of these interpretations that were taking place amongst German historians This book is ideal for student of history particularly German history

Society and Politics in Wilhelmine Germany Richard J. Evans, 1980 **Society and Politics in Wilhelmine Germany (Routledge Revivals).** , 1978 Society and Politics in Wilhelmine Germany (Routledge Revivals) Richard J. Evans, 2015-06-03 In the search for the causes of the First World War and the origins of Hitler's Third Reich the attention of historians has turned increasingly towards the development of German society under Kaiser Wilhelm II These ten essays first published in 1978 introduced interpretations of Wilhelmine Germany to an English speaking audience and contributed towards the discussion of these interpretations that were taking place amongst German historians This book is ideal for student of history particularly German history

Students, Society and Politics in Imperial Germany Konrad H. Jarausch, 2014-07-14 Konrad H Jarausch studies the social structure of the German university and the mentality of its students during the Imperial period as an example of a wider European academic desertion of liberalism He finds that German higher education combined scientific world leadership and competent professional training with an eroding liberal education Bildung to create an educated class that was tragically susceptible to the appeal of the Third Reich Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Society, Culture, and the State in Germany, 1870-1930 Geoff Eley, 1996 Bold new essays on Germany's critical Kaiserreich period *Politics and Culture in Wilhelmine Germany* Matthew Jefferies, 1995-08 Explores the relationship between politics and culture in turn of the century Germany through the unusual medium of industrial architecture which for a time brought together the disparate worlds of politics art and commerce

Art and the German Bourgeoisie Carolyn Helen Kay, 2002-01-01 In this new study of art in fin de siècle Hamburg Carolyn Kay examines the career of the city's art gallery director Alfred Lichtwark one of Imperial Germany's most influential museum directors and a renowned cultural critic A champion of modern art Lichtwark stirred controversy among the city's bourgeoisie by commissioning contemporary German paintings for the Kunsthalle by secession artists and supporting the formation of an independent art movement in Hamburg influenced by French impressionism Drawing on an

extensive amount of archival research and combining both historical and art historical approaches Kay examines Lichtwark's cultural politics their effect on the Hamburg bourgeoisie and the subsequent changes to the cultural scene in Hamburg Kay focuses her study on two modern art scandals in Hamburg and shows that Lichtwark faced strong public resistance in the 1890s winning significant support from the city's bourgeoisie only after 1900 Lichtwark's struggle to gain acceptance for impressionism highlights conflicts within the city's middle class as to what constituted acceptable styles and subjects of German art with opposition groups demanding a traditional and pure German culture The author also considers who within the Hamburg bourgeoisie supported Lichtwark and why Kay's local study of the debate over cultural modernism in Imperial Germany makes a significant contribution both to the study of modernism and to the history of German culture

Electoral Politics in Wilhelmine Germany Stanley Suval, 1985 The last national election in Wilhelmine Germany was held on 12 January 1912 Voting was one of the few acts in German society that cut across class lines The precincts were neither overwhelmingly working class nor middle class and from a distance it would have been impossible to tell those voters apart they all wore black clothing Almost all males over twenty five voted in the 1912 election and when the polls closed that Friday at 7 00 P M over 12 million men had cast their ballots 84.2 percent of those eligible Historians have tended to interpret the Wilhelmine German electorate as though voters were marched to the polls in Prussianized battalions Because the ballots determined neither the composition of the government nor the national policies the only viable explanation for the heavy voter turnouts was thought to be governmental force Electoral Politics in Wilhelmine Germany offers a new model of the German electorate which varies considerably from this interpretation Using techniques of electoral analysis developed for the study of elections in Britain and the United States Stanley Suval argues that the German voters cast their ballots freely and positively He demonstrates that the ballot was cast not to support the government or forward economic self interest but to express fundamental social relationships present in everyday life By voting individuals were fulfilling their citizenship roles by expressing their commitments to social groupings Suval defines these groupings using statistical analysis and qualitative evidence based on religious class and regional variables He states that voters undertook an act that they felt was important regardless of who won or lost Electoral Politics in Wilhelmine Germany also disputes the view that the German state worked to undermine the electoral system Suval contends that the government and its bureaucracy often unwittingly increased the prestige of electoral politics by ensuring against massive fraud and by active participation in voter mobilization The result was an integrated electoral system fueled by the commitments of the voters Thus the Weimar Republic was not crippled at birth by its Wilhelmine inheritance On the contrary the Wilhelmine electorate was as prepared for its citizenship roles as were those in most contemporary democratic countries Originally published in 1985 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in

affordable paperback formats bringing readers both historical and cultural value **German Peasants and Agrarian Politics, 1914-1924** Robert G. Moeller, 2017-10-10 Robert Moeller investigates the German peasantry's rejection of the Weimar Republic in the 1920s and provides a new interpretation of Catholic peasant conservatism in western Germany. According to Moeller, rural support for conservative political solutions to the troubled Weimar Republic was the result of a series of severe economic jolts that began in 1914 and continued unabated until 1933. During the late nineteenth century, peasant farmers in the Rhineland and Westphalia adjusted their production to a capitalist market and enjoyed an unprecedented period of prosperity that lasted until the outbreak of World War I. After August 1914, peasant producers confronted state intervention in the agricultural sector, regulation of prices and markets, and the subordination of agrarian interests to the demands of urban consumers. A controlled economy for many agricultural products continued into the postwar period. Focusing on the Catholic peasantry, Moeller shows that peasant rejection of the Weimar Republic was firmly grounded in the immediate circumstances of the war economy and the uneven process of postwar recovery. He challenges the dominant view that rural support for conservative political solutions was primarily the product of the peasantry's hostility toward industrial capitalism and of long-term social and political affinities dating from the nineteenth century. Moeller's findings show that conservative agrarian ideology was carefully formulated in response to the specific peasant grievances that originated in this period of continuing economic and political crisis. Originally published in 1986, A UNC Press Enduring Edition. UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value Modern European History, 1871-2000 David Welch, 2020-09-10 Modern European History brings together a unique selection of documents covering the period from 1871 to 2000. The collection is organised by topic and a clear historical context and chronological chart provide background for each section. This second edition brings the book up to date and includes such key themes in European history as Bismarck and Imperial Germany, the Russian Revolution, the origins and aftermath of the First and Second World Wars, Fascist Italy and Nazi Germany, The Spanish Civil War, The Cold War, European Integration 1945-1999. Containing documents such as extracts from diaries, speeches, treaties, poetry, radio broadcasts, photographs, cartoons, political posters and propaganda, this is an essential resource for students of modern British and European history Germany After the First World War Richard Bessel, 1993 A social history of Germany in the years following the First World War, this book explores Germany's defeat and the subsequent demobilization of its armies, events which had devastating social and psychological consequences for the nation. Bessel examines the changes brought by the War to Germany, including those resulting from the return of soldiers to civilian life and the effects of demobilization on the economy. He demonstrates that the postwar transition was viewed as a moral crusade by Germans desperately concerned about challenges to traditional

authority and he assesses the ways in which the experience of the War and memories of it affected the politics of the Weimar Republic This is an original and scholarly book which offers important insights into the sense of dislocation both personal and national experienced by Germany and Germans in the 1920s and its damaging legacy for German democracy *Modern Germany Reconsidered* Gordon Martel, 2002-11 First Published in 2004 Routledge is an imprint of Taylor Francis an informal company

The German Peasantry (Routledge Revivals) Richard J. Evans, W. R. Lee, 2015-06-03 This book first published in 1986 surveys the history of rural society in Germany from the eighteenth century to the present day The contributions include studies of Junker estates and small farming communities serfs and landless labourers maidservants and worker peasants They demonstrate the variety and complexity of the social division that structures the rural economy Throughout the book there is an emphasis on the conflicts that divided rural society and the ways and means in which these were expressed whether in serf strikes in eighteenth century Brandenburg village gossip in early twentieth century Hesse or factional struggles over planning permission in present day Swabia The rural world emerges not as traditional passive and undifferentiated but as actively participating in its own making not only responding to the changes going on around it but exploiting them for its own purposes and influencing them in its own way This book is ideal for students of history particularly German history

From Popular Liberalism to National Socialism Oded Heilbrunner, 2017-05-15 Long live liberty equality fraternity and dynamite So went the traditional slogan of the radical liberals in Greater Swabia the south western part of modern Germany This book investigates the development of what the author terms popular liberalism in this region in order to present a more nuanced understanding of political and cultural patterns in Germany up to the early 1930s In particular the author offers an explanation for the success of National Socialism before 1933 in certain regions of South Germany arguing that the radical liberal sub culture was not subsumed by the Nazi Party but instead changed its form of representation Together with the famous völkish fraction and the leftist fraction within the chapters of the Nazi Party there were radical liberal associations ex members of radical liberal parties sympathizers with these parties and notables with a radical orientation derived from family and regional traditions These people and associations believed that the Nazi Party could fulfil their radical liberal vision rooted in the local democratic and liberal traditions which stretched from 1848 to the early 20th century By looking afresh at the relationship between local regional identities and national politics this book makes a major contribution to the study of the roots of Nazism

A Concise History of Germany Mary Fulbrook, 2019-01-03 This third edition of Mary Fulbrook's much admired and popular introduction to German history provides a clear and informative guide to the twists and turns of the story of the German lands and peoples from the early middle ages to the present day Crisply synthesising a vast array of historical material Fulbrook explores the interrelationships between social political and cultural factors in the light of scholarly controversies Since the second edition in 2004 there have been important changes in Germany Europe and the wider world This new edition features a significantly expanded chapter on

Germany since 1990 encapsulating recent and dramatic developments that have transformed Germany's character and international standing This single volume history of Germany offers broad and accessible coverage and provides a useful guide for students general readers travellers to Germany and anyone with an interest in German history Regulating a New Society Morton Keller, 1994 His final area of concern is one that assumed new importance after 1900 social policy directed at major groups such as immigrants blacks Native Americans and women

Bibliography of European Economic and Social History Derek Howard Aldcroft, Richard Rodger, 1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700 1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily

Hometown Hamburg Frank Domurad, 2019-03-22 Through the study of Hamburg handicraft in the late Weimar Republic *Hometown Hamburg* addresses three intertwined problems in modern German history the role of institutionalized social political and cultural continuity versus contingency in the course of modern German development the impact of conflicting notions of social order on the survival of liberal democracy and the role of corporate politics in the rise of National Socialism It provides a theoretical and analytical framework for reintroducing the notion of historical continuity in the study of modern German history The book also supports the recent challenges to the notion of Hamburg as a liberal economic and political bastion a London on the Elbe in a nation of conservative and authoritarian governmental regimes *Hometown Hamburg* demonstrates why liberal and socialist Hamburg also remained a hotbed of corporate radicalism and underscores the fact that National Socialism was the only political party that presented a coherent vision of a corporate good society thereby making it attractive to hometown voters across the entire social spectrum in Hamburg and in Germany

Between Tradition and Modernity Mark A. Russell, 2007 List of illustrations Preface Acknowledgments Introduction The life and work of Aby Warburg in its Hamburg context Aby Warburg's Hamburg Comedy the personal concerns and professional ambitions of a young scholar Political symbolism and cultural monumentalism Hamburg's Bismarck memorial 1898 1906 Collective memory failure the mural decoration of Hamburg's city hall 1898 1909 A moment of calm in the chaos of war Willy von Beckerath's Eternal Wave 1913 1918 Conclusion Bibliography Index
