Leadership for School Improvement in the Caribbean Austin Ezenne, 2010-06-01 The chapters in this book should stimulate the reader not only to think about the kind of leadership that is needed to improve schools in the Caribbean using schools in the widest sense to range from early childhood to higher education institutions but also other forms of support The book deals in detail with issues of leadership At the theoretical level there is exploration of appropriate models of leadership in the effort to create effective schools At the practical level the importance of the principal's role is explored This book is very timely and should prove informative not only to current and prospective leaders but also to students and scholars both locally and internationally with an interest in Caribbean education The chapters are written in a sufficiently user friendly style to be of interest also to the general public who want to see the process of transformation realised in our education systems

Socio-Historical Precursors of Economic Rationalism in Australian Education Beatrice Boufof-Bastick, 2003 This is a scholarly work of interest to teacher trainers and trainees to sociology and history lecturers and to students of educational and social policies in former British colonies It provides a concise overview of two hundred years of colonial and post colonial education and simply captures and reports the major socio economic features which have spurred educational changes since the establishment of state education in Australia An important aspect of Dr Boufof Bastick's work is that it brings to light some simplifying principles for integrating salient socio historical changes for the investigation of current and future changes in education

individuality and personality the body and sexuality feminism and aesthetic modernism Part 4 turns to politics law and the state in the contemporary world Colin Gordon on liberalism Luciano Cavalli on charismatic politics Stephen Turner and Regis Factor on decisionism and power and Scott Lash on modernism substance rationality and law This book was first published in 1987 **After the Death of God** Espen Hammer, 2025-03-22 A fresh history of nineteenth century philosophy s many

ideas about secularization The secularization thesis which held that religious belief would gradually yield to rationality has been thoroughly debunked What then can we learn from philosophers for whom the death of God seemed so imminent In this book Espen Hammer offers a sweeping analysis of secularization in nineteenth century German philosophy arguing that the persistence of religion rather than its absence animated this tradition Hammer shows that Kant Hegel Feuerbach Marx and Nietzsche each in their own way sought to preserve and transform religion s ethical and communal aspirations for modern life A renewed appreciation for this tradition s generous thought Hammer argues can help us chart a path through needlessly destructive conflicts between secularists and fundamentalists today **Avant-garde Jazz Musicians** David Glen Such, 1993

Milne, Francis K. Peddle, William S. Peirce, 2023-04-20 Henry George 1839 1897 rose to fame as a social reformer and economist amid the industrial and intellectual turbulence of the late nineteenth century His best selling *Progress and Poverty* 1879 captures the ravages of privileged monopolies and the woes of industrialization in a language of eloquent indignation His reform agenda resonates as powerfully today as it did in the Gilded Age and his impassioned prose and compelling thought inspired such diverse figures as Leo Tolstoy John Dewey Sun Yat Sen Winston Churchill and Albert Einstein This six volume collection of *The Annotated Works of Henry George* assembles all his major works for the first time with new introductions critical annotations extensive bibliographical material and comprehensive indexing to provide a wealth of resources for scholars and reformers Volume VI of this series presents *A Perplexed Philosopher* 1892 Henry George s devastating critique of Herbert Spencer s changing views on the land question after Spencer achieved fame as the author of the *Synthetic Philosophy Social Statics* 1850 Spencer s first major work affirms an equal right of all to the use of the earth By the early 1890s Spencer had recanted this view in *Justice* 1891 and an abridged version of *Social Statics* 1892 This betrayal of principle by Spencer provoked George to write *A Perplexed Philosopher* In this volume George s original text is supplemented by critical annotations and an extensive topical bibliography A cumulative

index covers all six volumes in the series The introductory essay Social Evolution and Moral Sophistry by Dr Joseph Milne provides the cultural and philosophical context for George's critical analysis of Spencer's tortuous abandonment of the principle of equal freedom with respect to its application to the use of nature and the furtherance of equal opportunity for all In A Perplexed Philosopher George employs his considerable logical acumen to reveal Spencer's multiple inconsistencies and confusions when it comes to the land question Spencer did not respond in a systematic fashion to George's critique Henry George wrote A Perplexed Philosopher to correct the many confusions about the land question by a major nineteenth century philosopher In doing so he made a significant contribution to such topics as the issue of compensation when a wrongful entitlement is taken away from a privilege holder and the tendency towards materialistic positivism A Perplexed Philosopher reveals fundamental differences between George's philosophical outlook and other prevailing views in the nineteenth century A Perplexed Philosopher is not only a major contribution to nineteenth century scholarship with regard to the relation between humanity and nature but it also illuminates a stark contrast between George's animating philosophy of equitable reform and Spencer's philosophy of the status quo Economic Rationalism Paul Byrne,1993 *Economic Rationalism and the Accord* Brendan Duffy,1992 **A History of Greek Economic Thought** Albert Augustus Trever,2017-11-10 Excerpt from A History of Greek Economic Thought A Dissertation Submitted to the Faculty of the Graduate School of Arts and Literature in Candidacy for the Degree of Doctor of Philosophy The need of a reinterpretation of Greek economic theory in the light of our modern humanitarian economy is presented in the introduction to this work If this volume may in some degree meet such a need by awakening the classicist to the existence of important phases of Greek thought with which he is too unfamiliar and by reminding the economist of the many vital points of contact between Greek and modern economy our labor will have been amply repaid There are doubtless errors both in citations and in judgment which will not escape the critic's eye We trust however that the work is on the whole a fair representation of the thought of the Greeks in this important field In the course of our study we have naturally been obliged to make constant reference to the actual economic environment of the Greeks as a proper background for their theories It is therefore our purpose to publish at some future date a general history of economic conditions in Greece which may serve as a companion to this volume We gladly take this opportunity to express our gratitude to Professor Paul Shorey of the University of Chicago for his suggestion of the subject of this work as also for his many helpful criticisms and suggestions during the course of its preparation About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Freedom and Reform Frank Hyneman Knight, 1982 The fifteen essays in this collection first published in 1947 treat a variety of economic social political and philosophical problems and were written by a legendary professor of economics at the University of Chicago Professor Knight 1885 1972 wrote from the viewpoint of ethics as well as economics His own words best describe his objective in this book The basic principle of science truth or objectivity is essentially a moral principle The presuppositions of objectivity are integrity competence humility All coercion is absolutely excluded in favor of free meeting of free minds Economic Rationalism Revisited Geoffrey Brennan, Jonathan James Pincus, 1993
