and legal philosophy on the other It is suggested that the concept of law must be re considered Law has to be seen today not just as the law of the nation state or international law that links nation states but also as transnational law in many forms A legal pluralist approach is not just a matter of redefining law in legal theory it also recognizes that law s authority comes from a plurality of diverse sometimes conflicting social sources The book suggests that the social environment in which law operates must also be rethought with many implications for comparative legal studies The nature and boundaries of culture become important problems while the concept of multiculturalism points to the cultural diversity of populations and to problems of fragmentation or perhaps to new kinds of unity of the social Theories of globalization raise a host of issues about the integrity of societies and about the need to understand social networks and forces that extend beyond the political societies of nation states Through a range of specific studies closely interrelated and building on each other the book seeks to integrate the sociology of law with other kinds of legal analysis and engages directly with current juristic debates in legal theory and comparative law
