Sociology, Equality, and Education Antony Flew, 1976      Sociology, Equality and Education Antony Garrard Newton Flew, 1976      *Sociology, Equality and Education* Antony G N Flew, 2013-12-31      **Philosophical Essays** Antony Flew, 1998

Antony Flew is one of the most well known and respected philosophers alive today In *Philosophical Essays* twelve of Flew's most significant works are gathered together for the first time creating a unique and valuable collection The book begins with a new autobiographical sketch of Flew's life and career In addition to some of the distinguished scholar's most influential and famous articles *Philosophical Essays* includes a number of rare works that have not been available to a wide audience until now This important book will be an essential addition to the library of any philosopher      **Antony**

**-Sociology, Equality and Education** Antony Flew, 1976      **Social Life and Moral Judgment** Antony Flew, 2017-12-02

In *Social Life and Moral Judgment* author and philosopher Antony Flew examines the social problems induced by the mature welfare state Welfare states make ever increasing financial demands on their citizenry yet the evidence clearly supports that such demands are not sustainable In this superlative collection of thematic essays Flew investigates and explains why this is so and calls for a return to individual responsibility The first essay establishes the philosophical basis for his argument *Is Human Sociobiology Possible* answers its titular question in the negative asserting that we are all members of a peculiar type of creature that can and therefore must be responsible for whatever choices between various courses of action or inaction that are open to us as individuals In other essays Flew shows how state welfare systems inevitably corrupt and demoralize their citizens by encouraging ever more people to apply for welfare entitlements and reducing the incentives to avoid or escape the conditions warranting those entitlements He investigates the origins of this new kind of welfare entitlement and shows how very different what politicians and public sector employees produce is from what these people claim to be producing Flew shows that the drive for social justice appears to require that the justly acquired income and wealth of all citizens should be progressively taxed away or supplemented by the state so that the eventual result is more though never perfect equality This objective he asserts must be radically distinguished from old fashioned without prefix or suffix justice It was this type of justice Adam Smith referred to when he famously said that it is a virtue of which the observance is not left to the freedom of our wills but which may be extorted by force Flew questions the aims of those who would discredit wealth creators and wealth creating investment showing that these are the same people who promote      The Ethical School Felicity Haynes, 2002-01-04

Conflicts often arise between regulations making it difficult for school management teams and teachers to resolve situations with appropriate dignity and respect for all concerned This book discusses provocative actual case studies to help teachers to reflect on their own ethics guiding them to make more reasonable decisions in their schools and thereby gradually transforming schools into more cohesive and caring communities A model of consequences consistency and caring each aspect based on traditional ethical theories provides a scientific base a rational and a responsive base for ethical

**and Its Discontents** Jack Simmons,2020-12-10 American culture is changing a sentiment echoed in phrases such as the new normal and in these uncertain times that regularly introduce all forms of public discourse now signally a national sense of vulnerability and transformation Cultural shifts generally involve multiple catalysts but in this collection the contributors focus on the role changing discourse norms play in cancel culture corporatism the counter sexual revolution racialism and a radically divided political climate Three central themes arise in the arguments First that contemporary discourse norms emphasize outcomes rather than shared understanding which support institutional and political goals but contribute to the

contemporary political divide and the notion that we are engaged in a zero sum game These discourse norms give rise to a form of Adorno s administered world such that we order society according to dominant opinions which generally means those well acclimated to institutional and corporate culture Finally as Arendt feared the personal has become political meaning that the toxic public discourse invades private discourse reducing personal autonomy and leaving us perpetually under the scrutiny of institutional authority

**Interpreting Education** Abraham Edel,1985-01-01 What is meant by education How are educational institutions and processes evaluated and how can they be improved What curriculum is best How are philosophy and education related Abraham Edel answers these questions in the course of exploring education He considers the problems of educational philosophy under conditions of rapid social change in the twentieth century and argues that too many of the traditional approaches to education were set in an effort to delineate a permanent structure rather than to work out ways of handling rapid change Older models of education have worn thin and new approaches have to be constructed Interpreting Education clears away old confusions and indicates the conditions that fresh modes of thought will have to satisfy Contents Education and Schooling in Cultural Perspective Grading Tracking the Philosophical Roots of a Specific Problem A Philosophical Outlook as an Educational Resource Current Critiques of the Schools Politicized Schools and the Ideal of Impartiality Ideals and Their Assessment Toward a Moral Agenda for Contemporary Education Rationality Autonomy Relativism Teacher and Student in the Contemporary World Learning and Teaching Conceptual Problems Forms of Learning The Pedagogical Encounter Scientific Knowledge and the Humanities Social and Moral Education Complexities of the Familiar Sport and Physical Education Crafts Arts and Technology Basic Skills The Confrontation of the Liberal and Vocational Technical The Social Character of Dewey s Philosophy Aims of Education A Comparison Instead of a Controversy

A Moment in Time Mark Spencer,2012-05-22 A Moment in Time will encourage believers to entertain principles of grace based theology and after careful consideration embrace them When we re convinced of the gracious simplicity in acquiring the free gift of eternal life it impacts how we share our faith When we re confident this free gift can t be lost it calms us down When we re certain Christ will repay and recompense us for what we do with this free gift we re motivated to be holy as He is holy In looking at the biblical text Christians will be reminded that justification is provided at no cost to them They ll see there s room for failure in the Christian life But they ll also learn where there s great grace there s great accountability and great reward It is wonderful to see this fresh look at many of the grace
