Sociology and Modern Social Problems Charles Abram Ellwood,1919 [Sociology and Modern Social Problems](#)
(Classic Reprint) Charles A. Ellwood,2017-09-15 Excerpt from Sociology and Modern Social Problems This book was originally written as an elementary text in sociology for use in high schools colleges and reading circles where it is desired to combine the study of sociology with a study of current social problems on the one hand and to correlate it with a course in economics on the other The generous reception and wide use which the book has enjoyed since its publication seem to indicate that there is a demand for a simple concrete text in sociology in which methodological discussions are reduced to a minimum and the facts are drawn as far as possible from contemporary social life About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Sociology and Modern Social Problems** Charles A. insights that remain relevant today Ellwood's work challenges readers to reflect on their own societal context and encourages informed engagement with the ongoing social challenges that define modern life

Sociology and Modern Social Problems Charles A. (Charles Abram) Ellwood, 2018-06-27 Sociology and Modern Social Problems By Charles A. Charles Abram Ellwood The word society is used scientifically to designate the reciprocal relations between individuals More exactly and using the term in a concrete sense a society is any group of individuals who have more or less conscious relations to each other We say conscious relations because it is not necessary that these relations be specialized into industrial political or ecclesiastical relations Society is constituted by the mental interaction of individuals and exists wherever two or three individuals have reciprocal conscious relations to each other Dependence upon a common economic environment or the mere contiguity in space is not sufficient to constitute a society It is the interdependence in function on the mental side the contact and overlapping of our inner selves which makes possible that form of collective life which we call society Plants and lowly types of organisms do not constitute true societies unless it can be shown that they have some degree of mentality On the other hand there is no reason for withholding the term society from many animal groups These animal societies however are very different in many respects from human society and are of interest to us only as certain of their forms throw light upon human society We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience
