

Speaking Of Religion And Politics The Progrebive Church Tackles Hot Topics

Alan Wolfe,Ira Katznelson

Speaking Of Religion And Politics The Progrebive Church Tackles Hot Topics:

The Bloomsbury Encyclopedia of Philosophers in America John R. Shook, 2016-02-11 For scholars working on almost any aspect of American thought The Bloomsbury Encyclopedia to Philosophers in America presents an indispensable reference work Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers this condensed edition includes key contributors to philosophical thought From 1600 to the present day entries cover psychology pedagogy sociology anthropology education theology and political science before these disciplines came to be considered distinct from philosophy Clear and accessible each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading Featuring a new preface by the editor and a comprehensive introduction The Bloomsbury Encyclopedia to Philosophers in America includes 30 new entries on twenty first century thinkers including Martha Nussbaum and Patricia Churchland With in depth overviews of Waldo Emerson Margaret Fuller Noah Porter Frederick Rauch Benjamin Franklin Thomas Paine and Thomas Jefferson this is an invaluable one stop research volume to understanding leading figures in American thought and the development of American intellectual history

Resistance John B. Cobb, 2008-01-01 Convinced that several crucial historical trends are moving in the wrong direction John Cobb and his coauthors urge Christians to live in countercultural ways as individuals and as communities Consumerism inequality imperialism and global warming they contend are of such magnitude that the only real response for progressive Christians is to actively resist them In part 1 they explore how the Word of God calls Christians to resist the worlds dominant forces and reflect on how prayer can provide the conviction and commitment necessary for sustaining such a life In part 2 they examine particular destructive forces showing how these trends attained dominance and analyzing their effects Part 3 then explores two theological movements that have stressed the need for resistance Latin American liberation theology and feminist theology Concluding in part 4 they give specific examples of how individuals and churches can live in countercultural ways

Dictionary of Modern American Philosophers John R. Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of

modern American thought *Southern Communities* ,1997 *Speaking of Religion and Politics* Mobilization for the Human Family (Organization),2000 **Fires Within** Ray Thompson,2010-09-14 *Fires Within* seeks to explore contemporary life issues especially the often conflicting inner fires of sexuality and spirituality conflicting not just with each other but also with traditional religious and social attitudes and myths The novel begins where it ends but then goes back to earlier years to trace the circumstances and rapidly changing community attitudes that have combined to bring the individuals in this story to this point in their lives Peter is the central character a minister pastor who struggles with these issues within the conservative and often defensive ethos of the traditional Australian church and particularly in relation to unresolved grief in his own life Len is a doctor facing similar issues within secular society Jay is a Chinese woman who has to work through these same conflicts firstly growing up as the daughter of a missionary doctor in what then became Communist China and later as a reluctant masseuse sex worker in Australia Rather than trying to provide simplistic or moralistic answers to these inner conflicts these characters individually and later through their interaction with one another grapple with their search for personal integrity This frequently means having to stand out against peer group opinion and challenge some of the traditions and myths that often limit their enjoyment of the fullness of life While all characters in the novel are fictitious the unfolding events deliberately reflect the kind of situations and raw emotions that are common in many people s lives In a real world that is far from perfect the choices that they have to make are not simply between good and bad but reflect the multi faceted dilemmas that often confront real people The author attempts to deal with these issues in a non judgemental way hopefully opening the door for readers grappling with similar issues to explore new possibilities in their own lives

Religion and Democracy in the United States Alan Wolfe,Ira Katznelson,2010-08-30 The United States remains a deeply religious country and religion plays an inextricably critical role in American politics Controversy over issues such as abortion is fueled by opposition in the Catholic Church and among conservative Protestants candidates for the presidency are questioned about their religious beliefs and the separation of church and state remains hotly contested While the examination of religion s influence in politics has long been neglected in the last decade the subject has finally garnered the attention it deserves In *Religion and Democracy in the United States* prominent scholars consider the ways Americans understand the relationship between their religious beliefs and the political arena This collection a work of the Task Force on Religion and American Democracy of the American Political Science Association thoughtfully explores the effects of religion on democracy and contemporary partisan politics Topics include how religious diversity affects American democracy how religion is implicated in America s partisan battles and how religion affects ideas about race ethnicity and gender Surveying what we currently know about religion and American politics the essays introduce and delve into the range of current issues for both specialists and nonspecialists In addition to the editors the contributors are Allison Calhoun Brown Rosa DeLauro Bette Novit Evans James Gibson John Green Frederick Harris Amaney Jamal Geoffrey Layman David Leal David Legee Nancy

Rosenblum Kenneth Wald and Clyde Wilcox
