Speed Stephanie Brown Ph.D, 2014-01-07 MORE BETTER SLOWER Feeling rushed out of control and overwhelmed Feeling like you can't keep up and can't stop It's not just you From the need to be constantly connected and the changing definition of work hours to unrealistic expectations of instant gratification our bodies and brains are being harmed by habits that as with any kind of addiction promise short term satisfaction while doing long term damage As a psychologist and addiction expert who practices in Silicon Valley Stephanie Brown sees firsthand the impact of ever faster technology and the culture it has spawned She knows it's affecting us mentally physically and spiritually In this groundbreaking book she explores how our beliefs and behaviors are being shaped by the seemingly limitless new world we've entered in recent years and why faster doesn't always equal better Dr Brown offers a step by step plan for breaking out of the speed trap With practical guidelines she shows us how to ease up on the gas pedal and reconnect with ourselves learning to accept and value our limitations as human beings reduce our stress levels and free ourselves from our counterproductive obsession with speed

Addiction Irving A. Cohen, 1995 Billions of dollars have been expended on educating the public about the dangers of drug and alcohol addiction Despite these massive expenditures the powerful vortex of addiction continues Why Irving Cohen MD looks at the profile of the addict the nature of addiction the pharmacologic nature of the drugs and explains the roller coaster syndrome that can trap innocent people *Addiction The High Low Trap* offers a unique perspective for both the addict and society on how to approach this problem Speed Tribes Karl Taro Greenfeld, 2010-08-03 This foray into the often violent subcultures of Japan dramatically debunks the Western perception of a seemingly controlled and orderly society

Hearings United States. Congress. House. Committee on Ways and Means, 1951 The History of Speed Martin Roach, 2020-10-29 A special treat The pictures and stories combine to provide a rich texture to telling the difficult story of why we chase speed like an addiction Valerie Thompson the world's fastest female motorcycle racer Ever since we built machines that could transport us there has been a desire to find ways to make them go faster For some going faster isn't enough they want to be the fastest This book celebrates those who have built the machines and driven them at ever greater speeds This is *The History of Speed* Bestselling motorsport writer Martin Roach tells the extraordinary story of those who have come to be obsessed by speed From Camille Jenatton the Red Devil who became the first man to drive at over 100kmh in 1899 through the golden age of Malcolm Campbell and his Bluebird and on to the modern era of jet and rocket propelled cars we have gone faster and faster But this book is not just about these record breakers Roach also looks at the technology the engines and the inventors who helped progress in speed at all levels from Formula One to the supercars from the likes of Ferrari and Mercedes that are eagerly snapped up by collectors rarely to be seen on the road Accompanied by some of the most stunning images of the cars and those who made and drove them Roach tells a wonderful story of innovation and invention He talks to some of the great drivers to find out what inspires them to risk their lives and finds out from engineers

how they developed their ideas Along the way we hear some remarkable tale and anecdotes but also find out how the pursuit of speed can also have its costs with many tragic heroes and heroines falling along the way If you've ever thrilled to the roar of a sports car engine or loved the feel of the g force as you accelerate away or even looked on in wonder at a powerful engine **The History of Speed** is a book that you will not want to miss out on **Unstoppable** Mark Hughes,2023-09-07
