Linguistic Authority, Language Ideology, and Metaphor Neil Bermel, 2008-08-22 How does a country find itself at war over spelling This book focuses on a crucial juncture in the post communist history of the Czech Republic when an orthographic commission with a moderate reformist agenda found itself the focus of enormous public controversy Delving back into history Bermel explores the Czech nation's long tradition of intervention and its association with the purity of the language and how in the twentieth century an ascendant linguistic school Prague Functionalism developed into a progressive but centralizing ideology whose power base was inextricably linked to the communist regime Bermel looks closely at the reforms of the 1990s and the heated public reaction to them On the part of language regulators he examines the ideology that underlay the reforms and the tactics employed on all sides to gain linguistic authority while in dissecting the public reaction he looks both at conscious arguments marshaled in favor of and against reform and at the use conscious and subconscious of metaphors about language Of interest to faculty and students working in the area of language cultural studies and history especially that of transitional and post communist states this volume is also relevant for those with a more general interest in language planning and language reform The book is awarded with the The George Blazyska Prize in East European Studies 2008

Developing Orthographies for Unwritten Languages Michael Cahill, Karen Rice, 2017-05-26 While investigating endangered languages many researchers become interested in developing literacy for these languages However often their linguistic training has not provided practical guidance in this area This book with contributions by experienced practitioners helps fill this gap Both foundational theory and specific case studies are addressed in this work Non linguistic factors are described particularly sociolinguistic issues that determine acceptability of orthographies A principled approach to the level of phonological representation for orthographies is proposed applying recent phonological theory The thorny issues of how to determine word breaks and how to mark tone in an orthography are explored Overly hasty orthographies

and the benefits of allowing time for an orthography to settle are discussed Principles of the foundational chapters are further exemplified by detailed case studies from Mexico Peru California Nepal and Southeast Asia which vividly illustrate the variety of local conditions that must be taken into account The combination of theoretical and practical makes this book unique It will benefit those involved in helping establish orthographies for hitherto unwritten languages and provide concrete guidance through crucial issues Michael Cahill Ph D 1999 Ohio State University developed the Konni orthography in Ghana He was SIL s International Linguistics Coordinator for eleven years and is on the LSA s Committee on Endangered Languages and their Preservation Keren Rice Ph D 1976 University of Toronto helped standardize the orthography of Slavey and has taught on orthography development at InField CoLang She was LSA President in 2012 and is currently University Professor at the University of Toronto
