Sir Philip Sidney and the Circulation of Manuscripts, 1558-1640 H. R. Woudhuysen, 1996 **The Crisis of 1614 and The Addled Parliament**

Stephen Clucas, Rosalind Davies, 2017-11-30 This title was first published in 2003 The aim of *The Crisis of 1614 and The Addled Parliament* is to bring literary historians together with constitutional and state historians to reflect on the political and ideological upheavals of Britain in 1614 from various perspectives In the aftermath of new historicism and revisionist Stuart historiography the time seems right for the detailed study of highly specific historical moments and localities and 1614 seemed particularly in need of renewed attention because few traditional historians have seriously addressed the constitutional crisis of the ill fated parliament of that year Literary historians too seemed to have failed to bring this significant political moment into focus despite the fact that there were many literary interventions in contemporary debates of the period The volume investigates a number of key issues of this decisive political watershed and examines not only the disastrous parliament but also wider problems connected to commerce and economics and the freedom of political debate

conducting literary analysis English Paleography and Manuscript Culture, 1500-1800 Kathryn James, 2020-02-25 This richly illustrated book provides an essential introduction to the manuscript in early modern England From birth to death parish record to probate inventory writing framed the lives of the early modern English Offering a technical introduction to the handwriting of the period case studies tracing the significance of manuscript to British cultural identity and exercises to practice reading and transcription the book opens the study of early modern English manuscript to a new generation of students and scholars **The Cambridge Companion to the History of the Book** Leslie Howsam, 2015 An accessible and wide ranging study of the history of the book within local national and global contexts Bodies, Politics and Transformations: John Donne's Metempsychosis Siobhán Collins, 2016-04-15 Since the beginning of the twentieth century critics have predominantly offered a negative estimate of John Donne's Metempsychosis In contrast this study of Metempsychosis re evaluates the poem as one of the most vital and energetic of Donne's canon Siobhán Collins appraises Metempsychosis for its extraordinary openness to and its inventive portrayal of conflict within identity She situates this ludic verse as a text alert to and imbued with the Elizabethan fascination with the processes and properties of metamorphosis Contesting the pervasive view that the poem is incomplete this study illustrates how Metempsychosis is thematically linked with Donne's other writings through its concern with the relationship between body and soul and with temporality and transformation Collins uses this genre defying verse as a springboard to contribute significantly to our understanding of early modern concerns over the nature and borders of human identity and the notion of selfhood as mutable and in process Drawing on and contributing to recent scholarly work on the history of the body and on sexuality in the early modern period Collins argues that Metempsychosis reveals the oft violent processes of change involved in the author's personal life and in the intellectual religious and political environment of his time She places the poem's somatic representations of plants beasts and humans within the context of early modern discourses natural philosophy medical political and religious Collins offers a far reaching exploration of how Metempsychosis articulates philosophical inquiries that are central to early modern notions of self identity and moral accountability such as the human capacity for autonomy the place of the human in the great chain of being the relationship between cognition and embodiment memory and selfhood and the concept of wonder as a distinctly human phenomenon Dramatists and Their Manuscripts in the Age of Shakespeare, Jonson, Middleton and Heywood Grace Ioppolo, 2013-04-15 This title presents new evidence about the ways in which English Renaissance dramatists composed their plays and the degree to which they participated in the dissemination of their texts to theatrical audiences **The Material Letter in Early Modern England** J. Daybell, 2012-04-24 The first major socio cultural study of manuscript letters and letter writing practices in early modern England Daybell examines a crucial period in the development of the English vernacular letter before Charles I's postal reforms in 1635 one that witnessed a significant extension of letter writing skills throughout society *The Matter of Song in Early Modern England* Katherine R. Larson, 2019-08-29 Given the

variety and richness of the sixteenth and seventeenth century English songscape it might seem unsurprising to suggest that early modern song needs to be considered as sung. When a reader encounters a song in a sonnet sequence, a romance, and even a masque or a play, however, the tendency is to engage with it as poem rather than as musical performance. Opening up the notion of song from a performance-based perspective, *The Matter of Song in Early Modern England* considers the implications of reading song not simply as lyric text but as an embodied and gendered musical practice. Animating the traces of song preserved in physiological and philosophical commentaries, singing handbooks, poetic treatises, and literary texts ranging from Mary Sidney Herbert's *Psalmes* to John Milton's *Comus*, the book confronts song's ephemerality, its lexical and sonic capriciousness, and its airy substance. These features can resist critical analysis but were vital to song's affective workings in the early modern period. The volume foregrounds the need to attend much more closely to the embodied and musical dimensions of literary production and circulation in sixteenth and seventeenth century England. It also makes an important and timely contribution to our understanding of women's engagement with song as writers and as performers. A companion recording of fourteen songs featuring Larson, soprano, and Lucas Harris, lute, brings the project's innovative methodology and central case studies to life.

The Matter of Song in Early Modern England Katherine Rebecca Larson, 2019. This volume treats early modern song as a musical and embodied practice and considers the implications of reading song not just as lyric text but as a musical phenomenon that is the product of the singing body. It draws on a variety of genres from theatre to psalm translations, sonnets and lyrics, and household drama to courtly masques.

Manuscript Matters Lara M. Crowley, 2018-09-05. *Manuscript Matters* illuminates responses to some of John Donne's most elusive texts by his contemporary audiences. Since examples of seventeenth-century literary criticism prove somewhat rare and frequently ambiguous, this book emphasizes a critical framework rarely used for exhibiting early readers' exegeses of literary texts: the complete manuscripts containing them. Many literary manuscripts that include poems by Donne and his contemporaries were compiled during their lifetimes, often by members of their circles. For this reason, and because various early modern poems and prose works satirize topical events and prominent figures in highly coded language, attempting to understand early literary interpretations proves challenging but highly valuable. Compilers scribe owners' and other readers' (men and women who shared in Donne's political, religious, and social contexts) offer clues to their literary responses within a range of features related to the construction and subsequent use of the manuscripts. This study's findings call us to investigate more extensively and systematically how certain early manuscripts were constructed through analysis of such features as scripts, titles, sequence of contents, ascriptions, and variant diction. While such studies can throw light on many early modern texts, exploring artefacts containing Donne's works proves particularly useful because more of his poetry circulated in manuscript than did that of any other early modern poet. *Manuscript Matters* engages Donne's satiric lyric and religious poetry as well as his prose paradoxes and problems. Analysing his texts within their manuscript contexts enables modern readers to interpret

Donne's poetry and prose through an early modern lens Localizing Christopher Marlowe Arata Ide, 2023 This study punctures the stereotyped portrayals of Marlowe first created by his rival Robert Greene and yet which still colour our view In doing so Ide reveals the social and cultural discourses out of which such myths emerged We know next to nothing about the life of the playwright Christopher Marlowe b 1564 d 1593 Few documents survive other than his birth record in the parish register a handful of legal cases in court records Privy Council mandates and reports to the Council the coroner's examination of his death and a few hearsay accounts of his atheism With such a limited collection of biographical documents available it is impossible to retrieve from history a complete sense of Marlowe However this does not mean that biography cannot play a significant role in Marlowe studies By observing the details of the specific places and communities to which Marlowe belonged this book highlights the collective experiences and concerns of the social groups and communities with which we know he was personally and financially involved Specifically Localizing Christopher Marlowe reveals the political and cultural dynamics in the community of Corpus Christi College Cambridge into which Marlowe was deeply integrated and through which he became affiliated with the circle of Sir Francis Walsingham mapping these influences in both his life and works The Encyclopedia of English Renaissance Literature, 3 Volume Set Garrett A.
