Sisters And Strangers Women In The Shanghai Cotton Mills 1919 1949:

Sisters and Strangers Emily Honig, 1992-03-01 In Shanghai China's largest industrial center prior to 1949 cotton was king and the majority of mill workers were women This book presents rich information on all aspects of the life of this group of urban workers Book jacket Women and Gender in Twentieth-Century China Paul J. Bailey, 2012-08-29 Paul J Bailey provides the first analytical study in English of Chinese women's experiences during China's turbulent twentieth century Incorporating the very latest specialized research and drawing upon Chinese cinema and autobiographical memoirs this fascinating narrative account Explores the impact of political social and cultural change on women's lives and how Chinese women responded to such developments Charts the evolution of gender discourses during this period Illuminates both change and continuity in gender discourse and practice Approachable and authoritative this is an essential overview for students teachers and scholars of gender history and anyone with an interest in modern Chinese history **Republican Beijing** Madeleine Yue Dong, 2003-08-04 Old Beijing has become a subject of growing fascination in contemporary China since the 1980s While physical remnants from the past are being bulldozed every day to make space for glass walled skyscrapers and towering apartment buildings nostalgia for the old city is booming Madeleine Yue Dong offers the first comprehensive history of Republican Beijing examining how the capital acquired its identity as a consummately traditional Chinese city For residents of Beijing the heart of the city lay in the labor intensive activities of recycling a primary mode of material and cultural production and circulation that came to characterize Republican Beijing An omnipresent process of recycling and re use unified Beijing's fragmented and stratified markets into one circulation system These material practices evoked an air of nostalgia that permeated daily life Paradoxically the old Beijing toward which this nostalgia was directed was not the imperial capital of the past but the living Republican city Such nostalgia toward the present the author argues was not an empty sentiment but an essential characteristic of Chinese modernity **Beyond Citizenship: Literacy and Personhood in Everyday China, 1900-1945** Di Luo, 2022-09-19 Beyond Citizenship focuses on the role of literacy in building a modern nation state by examining the government provision of adult literacy training in early twentieth century China Based on untapped archives and diaries Di Luo uncovers people's strategic use of literacy and illiteracy in social interactions and explores the impact of daily experiences on the expansion of state power Highlighting interpersonal and intergroup relations Beyond Citizenship suggests a new methodology of studying literacy which foregrounds the agentive role of historical actors and so moves away from a more traditional approach that treats literacy itself as the key factor enabling social change **Epidemics in Modern Asia** Robert Shannan Peckham, 2016-04-28 The first history of epidemics in modern Asia Robert Peckham considers the varieties of responses that epidemics have elicited from India to China and the Russian Far East and examines the processes that have helped to produce and diffuse disease across the region Saving the Nation Thomas H. Reilly, 2020-09-18 While Protestant Christians made up only a small percentage of China's overall

population during the Republican period they were heavily represented among the urban elite Protestant influence was exercised through churches hospitals and schools and reached beyond these institutions into organizations such as the YMCA Young Men s Christian Association and YWCA Young Women s Christian Association The YMCA s city associations drew their membership from the urban elite and were especially influential within the modern sectors of urban society Chinese Protestant leaders adapted the social message and practice of Christianity to the conditions of the republican era Key to this effort was their belief that Christianity could save China that is that Christianity could be more than a religion focused on saving individuals but could also save a people a society and a nation Saving the Nation recounts the history of the Protestant elite beginning with their participation in social reform campaigns in the early twentieth century continuing through their contribution to the resistance against Japanese imperialism and ending with Protestant support for a social revolution The story Thomas Reilly tells is one about the Chinese Protestant elite and the faith they adopted and adapted Social Christianity But it is also a broader story about the Chinese people and their struggle to strengthen and renew their nation to build a New China

The Columbia Guide to Modern Chinese History R. Keith Schoppa, 2000-08-05 China the world s oldest and most populous state remains an enigma to most people in the West even at a time when that country is playing an increasingly prominent role on the international stage At the heart of modern Chinese history have been the efforts of the Chinese people to transform their polity into a modern nation state the Confucian orthodoxy into an ideology that can help direct that process and an agrarian economy into an industrial one These efforts are ongoing and of great importance This book is both an introduction to the major features of modern Chinese history and a resource for researchers interested in virtually any topic relating to the Chinese experience of the last 220 years This valuable reference contains a historical narrative providing a comprehensive overview of five core aspects of Chinese history domestic politics society the economy the world of culture and thought and relations with the outside world a compendium of 250 short descriptive articles on key figures events and terms a resource guide containing approximately 500 annotated entries for the most authoritative sources for further research in English as well as descriptions of important films depicting modern China and a guide to electronic resources and appendices including a chronology excerpts from key primary source documents and a wealth of tables and graphs on demographic social and economic trends
