Sisters Or Citizens Women And Socialism In France Since 1876:

Sisters Or Citizens? Charles Sowerwine, 1982-01-28 This book is a study of the responses of working women to the oppression they faced both as women and as workers in the nineteenth century **Women in France Since 1789** Susan Foley, 2017-03-14 This compelling study traces the changes in women's lives in France from 1789 to the present Susan K Foley surveys the patterns of women's experiences in the socially segregated society of the early nineteenth century and then traces the evolution of their lifestyles to the turn of the twenty first century when many of the earlier social distinctions had disappeared Focusing on women's contested place within the political nation *Women in France since 1789* examines The on going strength of notions of sexual difference Recurrent debates over gender The anxiety created by women's perceived departure from ideals of womanhood Major controversies over matters such as reproductive rights significant cultural changes and women's often under estimated political roles By addressing and exploring these key issues Foley demonstrates women's efforts over two centuries to create a place in society on their own terms Women Artists in Interwar France Paula J. Birnbaum, 2017-07-05 *Women Artists in Interwar France Framing Femininities* illuminates the importance of the Soci des Femmes Artists Modernes more commonly known as FAM and returns this group to its proper place in the history of modern art In particular this volume explores how FAM and its most famous members Suzanne Valadon Marie Laurencin and Tamara de Lempicka brought a new approach to the most prominent themes of female embodiment the self portrait motherhood and the female nude These women reimagined art's conventions and changed the direction of both art history and the politics of their contemporary art world FAM has been excluded from histories of modern art despite its prominence during the interwar years Paula Birnbaum's study redresses this omission contextualizing the group's legacy in light of the conservative politics of 1930s France The group's artistic response to the reactionary views and images of women at the time is shown to be a key element in the narrative of modernist formalism Although many FAM works are missing one reason for the lack of attention paid to their efforts Birnbaum's extensive research through archives press clippings and first hand interviews with artists families reclaims FAM as an important chapter in the history of art from the interwar years

Gender Quotas, Parity Reform, and Political Parties in France

Katherine A. R. Opello, 2006-01-01 France is notorious for the underrepresentation of women in its halls of politics Having been unsuccessful at implementing quotas for female candidates unlike several of their European neighbors France passed a gender parity law in 2000 that required all political parties to field an equal number of male and female candidates Yet in the 2002 elections the main political parties fell well short of

nominating equal numbers of male and female candidates How did parity replace gender quotas as the preferred way to achieve greater representation for women in elected office Why have these gender based measures been embraced by some parties and not others And why do parties sometimes fail to implement quotas and parity Gender Quotas Parity Reform and Political Parties in France considers this transition from quotas to parity providing a history of French women s rights and the French electoral process as well as an examination of the roles of the Socialist and Gaullist political parties Compelling and clearly written Opello has created a work that bridges an existing gap in literature about contemporary France and will appeal to scholars of gender politics and France Women and Achievement in Nineteenth-Century Europe Linda L.

Women in Nineteenth-Century Europe Rachel Fuchs,Victoria E. Thompson,2004-11-21 During the nineteenth century European women of all countries and social classes experienced dramatic and enduring changes in their familial working and political lives However the history of women at this time is not one of unmitigated progress theirs was an uphill struggle fraught with hindrances hard work and economic downturns and the increasing intrusion of the public into their innermost private and personal lives Breaking away from traditional categories Rachel G Fuchs and Victoria E Thompson provide a sense of the variety and complexity of women s lives across national and regional boundaries juxtaposing the experiences of women with the perceptions of their lives Three themes unite this study The tension between tradition and modernity The changing relationship between the community and individual The shifting boundaries between public and private Dealing with individual women s lives within a large social and cultural context Fuchs and Thompson demonstrate how strong and courageous women refused to live within the prescribed domestic roles and how many became the modern women of the twentieth century France Between the Wars Sian Reynolds,2002-11 First published in 2004 Routledge is an imprint of
