Collecting the Now Michael Maizels, 2022-08-09 Collecting the Now offers a new in depth look at the economic forces and institutional actors that have shaped the outlines of postwar art history with a particular focus on American art 1960 1990 Working through four case studies Michael Maizels illuminates how a set of dealers and patrons conditioned the iconic developments of this period the profusions of pop art the quixotic impossibility of land art the dissemination of new media and the speculation fueled neo expressionist painting of the 1980s This book addresses a question of pivotal importance to a swath of art history that has already received substantial scholarly investigation We now have a clear nuanced understanding of why certain evolutions took place why pop artists exploded the delimited parameters of aesthetic modernism why land artists further strove against the object form itself and why artists returned to neo traditional painting in the 1980s But remarkably elided by extant scholarship has been the question of how How did conditions coalesce around pop so that its artists entered into museum collections and scholarly analyses at pace unprecedented in the prior history of art How when seeking to transcend the delimited gallery object were land artists able to create monumental and by extension monumentally expensive interventions in the extreme wilds of the Western deserts And how did the esoteric objects of media art come eventually to scholarly attention in the sustained absence of academic interest or a private market The answers to these questions lie in an exploration of the financial conditions and funding mechanisms through which these works were created advertised distributed and preserved *Understanding Art Markets* Iain Robertson, 2015-10-30 The global art market has recently been valued at close to 50bn a rise of over 60% since the global financial crisis These figures are driven by demand from China and other emerging markets as well as the growing phenomenon of the artist bypassing dealers as a market force in his her own right This new textbook integrates updates and enhances the popular aspects of two well regarded texts *Understanding International Arts Markets* and *The Art Business* Topics covered include Emerging markets in China East Asian South East Asian Brazilian Russian Islamic and Indian art Art valuation and investment Museums and the cultural sector This revitalized new textbook will continue to be essential reading for students on courses such as arts

The postsocialist contemporary Octavian Esanu,2021-11-23 The postsocialist contemporary joins a growing body of scholarship debating the definition and nature of contemporary art It comes to these debates from a historicist perspective taking as its point of departure one particular art programme initiated in Eastern Europe by the Hungarian American billionaire George Soros First implemented in Hungary the Soros Center for Contemporary Art SCCA expanded to another eighteen ex socialist countries throughout the 1990s Its mission was to build a western open society by means of art This book discusses how network managers and artists participated in the construction

of this new social order by studying the programme's rise, evolution, impact and broader ideological and political consequences. Rather than recounting a history, it engages critically with contemporary art as the aesthetic paradigm of late capitalist market democracy. How to Start a Magazine James B. Kobak, 2002-11-25. Social Networks, 2020-06-22. Recent and increasing interest in art market studies, the dealers, mediators, advisors, taste makers, artists, etc., indicate that the transaction of art and decorative art is anything but linear. Taking as its point of departure two of the most active agents of the late nineteenth century, Wilhelm von Bode and Stefano Bardini, the essays in this volume also look beyond to other art market individuals and their vast and frequently interconnected social and professional networks. Newly told history taken from rich business, epistolary and photographic archives, these essays examine the art market within a broader and more complex context. In doing so, they offer new areas of inquiry for mapping of works of art as they were exchanged over time and place. **Philosophies of Arts** Peter Kivy, 1997-06-13. Since the

beginning of the eighteenth century, the philosophy of art has been engaged on the project of trying to find out what the fine arts have in common and thus how they might be defined. Peter Kivy's purpose in this accessible and lucid book is to trace the history of that enterprise and argue that the definitional project has been unsuccessful. He offers a fruitful change of strategy instead of engaging in an obsessive quest for sameness: let us explore the differences between the arts. He presents five case studies, three from literature, two from music. With its combination of historical and analytic approaches, this is a book for a wide range of readers in philosophy, literary studies, music, and non-academic readers with interests in the arts.
