Calendars and Time Connecting** Mwt Seshatms Nkatraet Ma'Atnefert,2011 **Reading Green in Early Modern England** Leah Knight,2016-04-08 Green in early modern England did not mean what it does today but what did it mean Unveiling various versions and interpretations of green this book offers a cultural history of a color that illuminates the distinctive valences greenness possessed in early modern culture While treating green as a panacea for anything from sore eyes to sick minds early moderns also perceived verdure as responsive to their verse sympathetic to their sufferings and endowed with surprising powers of animation Author Leah Knight explores the physical and figurative potentials of green as they were understood in Renaissance England including some that foreshadow our paradoxical dependence on and sacrifice of the green world Ranging across contexts from early modern optics and olfaction to horticulture and herbal health care this study explores a host of human encounters with the green world both the impressions we make upon it and those it leaves with us The first two chapters consider the value placed on two ways of taking green into early modern bodies and minds by seeing it and breathing it in while the next two address the manipulation of greenery by Orphic poets and medicinal herbalists as well as grafters and graffiti artists A final chapter suggests that early modern modes of treating green wounds might point toward a new kind of intertextual ecology of reading and writing Reading Green in Early Modern England mines many pages from the period not literally but tropically metaphorically green that cultivate a variety of unexpected meanings of green and the atmosphere and powers it exuded in the early modern world

The German Texas Frontier in 1853 Daniel J. Gelo, Christopher J. Wickham, 2024-03-15 Ferdinand Lindheimer was already renowned as the father of Texas botany when in late 1852 he became the founding editor of the *Neu Braunfelser Zeitung* a German language weekly newspaper for the German settler community on the Central Texas frontier His first year of publication was a pivotal time for the settlers and the American Indians whose territories they occupied Based on an analysis of the paper's first year and drawing on methods from documentary and narrative history ethnohistory and literary analysis Daniel J. Gelo and Christopher J. Wickham deliver a new chronicle of the frontier in 1853 In keeping with Lindheimer's background as a naturalist the natural resources available are a constant subject for reporting One special concern is the availability and ownership of wood so essential for building lumber fencing and fuel Most dramatically the discovery of trace amounts of gold encouraged prospecting by German and Anglo settlers which later influenced decisions to remove Indians to reservations The activities of the area's Indian peoples emerge in weekly details not found in other sources Some Lipan Apaches are killed when the army does not learn of their peaceful intentions restitution is made at Fredericksburg A settler named Gadt is murdered and Tonkawas are suspected A horse raid southeast of San Antonio is blamed on the Lipans but turns out to be the work of non-Indians in disguise The Delawares are driven temporarily to Indian Territory Comanche men leave their families at Fort Chadbourne to embark on a raid against the Lipans The Penateka band of Comanches honors the peace agreement they signed with the Germans six years earlier but their days in the region are numbered Lindheimer enhances the reportage with lengthy features on related subjects and exerts a strong editorial voice as he seeks to influence the development of a distinctive Texas German identity His work explained in this new study will appeal not only to students of Texas history and ecology Indigenous populations immigration intercultural encounters and nineteenth-century Americana but also to general readers who enjoy the
