times using a variety of circular structures to express similar concerns and ideas about the world This study also shows how the renewed understanding of narrative form leading to this circular trend was anticipated by Nietzsche's critiques of truth knowledge language and metaphysics and especially by his related discussions of nihilism and the eternal recurrence Starting with an analysis of the theory and genealogy of linear narrative the author charts the emergence of Nietzsche's idea of eternal return before then turning to the history of the circular narrative trend This history is explored from its inception in the works of August Strindberg Gertrude Stein and Azorín through its development in the interwar years by writers such as Raymond Queneau and Vladimir Nabokov to its full flowering in the work of authors James Joyce or Samuel Beckett among others and its later employment by post war writers including Alain Robbe Grillet Italo Calvino and Maurice Blanchot Through a series of close readings the book aims to highlight the various ways in which narrative circularity serves to break with an essentially teleological and theological thinking Finally Toribio Vazquez concludes by proposing a new typology of non linear narratives which builds on the work of recent narratologists
