The Idea Of The Theater In Latin Christian Thought Augustine To The Fourteenth Century:

The Idea of the Theater in Latin Christian Thought Donnalee Dox, 2009-12-18 Through well informed and nuanced readings of key documents from the fourth through fourteenth centuries this book challenges historians long held beliefs about how concepts of Greco Roman theater survived the fall of Rome and the Middle Ages and contributed to the dramatic triumphs of the Renaissance Dox's work is a significant contribution to the history of ideas that will change forever the standard narrative of the birth and development of theatrical activity in medieval Europe Margaret Knapp Arizona State University an elegantly concise survey of the way classical notions of theater have been interpreted in the Latin Middle Ages Dox convincingly demonstrates that far from there being a single medieval attitude towards theater there was in fact much debate about how theater could be understood to function within Christian tradition even in the so called dark ages of Western culture This book makes an innovative contribution to studies of the history of the theater seen in terms of the history of ideas rather than of practice Constant Mews Director Centre for the Study of Religion Theology University of Monash Australia In the centuries between St Augustine and Bartholomew of Bruges Christian thought gradually moved from a brusque rejection of classical theater to a progressively nuanced and positive assessment of its value In this lucidly written study Donnalee Dox adds an important facet to our understanding of the Christian reaction to and adaptation of classical culture in the centuries between the Church Fathers and the rediscovery of Aristotle Philipp W Rosemann University of Dallas This book considers medieval texts that deal with ancient theater as documents of Latin Christianity's intellectual history As an exercise in medieval historiography this study also examines biases in modern scholarship that seek links between these texts and performance practices The effort to bring these texts together and place them in their intellectual contexts reveals a much more nuanced and contested discourse on Greco Roman theater and medieval theatrical practice than has been acknowledged The book is arranged chronologically and shows the medieval foundations for the Early Modern integration of dramatic theory and theatrical performance The Idea of the Theater in Latin Christian Thought will be of interest to theater historians intellectual historians and those who work on points of contact between the European Middle Ages and Renaissance The broad range of documents discussed liturgical treatises scholastic commentaries philosophical tracts and letters spanning many centuries renders individual chapters useful to philosophers aestheticians and liturgists as well as to historians and historiographers For theater historians this study offers an alternative reading of familiar texts which may alter our understanding of the emergence of dramatic and theatrical traditions in the West Because theater is rarely considered as a component of intellectual projects in the Middle Ages this study opens a new topic in the writing of medieval intellectual history

Kolbet,2009-11-15 Augustine and the Cure of Souls situates Augustine within the ancient philosophical tradition of using words to order emotions Paul Kolbet uncovers a profound continuity in Augustine s thought from his earliest pre baptismal writings to his final acts as bishop revealing a man deeply indebted to the Roman past and yet distinctly Christian Rather than supplanting his classical learning Augustine s Christianity reinvigorated precisely those elements of Roman wisdom that he believed were slipping into decadence In particular Kolbet addresses the manner in which Augustine not only used classical rhetorical theory to express his theological vision but also infused it with theological content This book offers a fresh reading of Augustine s writings particularly his numerous though often neglected sermons and provides an accessible point of entry into the great North African bishop s life and thought **Reader in Tragedy** Marcus Nevitt,Tanya

Nederman,2020-01-06 Of the great philosophers of pagan antiquity Marcus Tullius Cicero is the only one whose ideas were continuously accessible to the

Christian West following the collapse of the Roman Empire Yet in marked contrast with other ancient philosophers Cicero has largely been written out of the historical narrative on early European political thought and the reception of his ideas has barely been studied The Bonds of Humanity corrects this glaring oversight arguing that the influence of Cicero's ideas in medieval and early modern Europe was far more pervasive than previously believed In this book Cary J Nederman presents a persuasive counternarrative to the widely accepted belief in the dominance of Aristotelian thought Surveying the work of a diverse range of thinkers from the twelfth to the sixteenth century including John of Salisbury Brunetto Latini Marsiglio of Padua Christine de Pizan and Bartolom de Las Casas Nederman shows that these men and women inherited deployed and adapted key Ciceronian themes He argues that the rise of scholastic Aristotelianism in the thirteenth century did not supplant but rather supplemented and bolstered Ciceronian ideas and he identifies the character and limits of Ciceronianism that distinguish it from other schools of philosophy Highly original and compelling this paradigm shifting book will be greeted enthusiastically by students and scholars of early European political thought and intellectual history particularly those engaged in the conversation about the role played by ancient and early Christian ideas in shaping the theories of later times
